1000 questions for couples: The Concept of Marriages of Convenience in EU Free Movement Law Aleksandra Ancite-Jepifánova, 2024-10-21 Over the past two decades, EU Member States have regularly complained about the perceived abuse of EU law via marriages of convenience, allegedly contracted between mobile EU citizens and third-country nationals. During the pre-Brexit years, the UK had been voicing particularly strong concerns about the issue, which ultimately resulted in regulatory changes both at the EU and national level. In this book, Aleksandra Ancite-Jepifánova pursues two interrelated aims. First, she evaluates the compatibility of EU-level measures addressing marriages of convenience with EU free movement law by focusing on the Citizenship Directive. Second, she examines the regulation of the issue in UK law in so far as it concerns the residence rights of EU citizens and their family members, both pre-and post-Brexit.

1000 questions for couples: Premarital Prediction of Marital Quality or Breakup Thomas B. Holman, 2005-12-16 This book should be of interest to scholars, researchers, students, and practitioners alike. Scholars, researchers, and students of personal relationship development will recognize in this book the first serious attempt in over 40 years to do a large-scale, longitudinal study of premarital factors that predict premarital breakup and marital quality; they should also appreciate our attempt to develop a theoretical rationale for predicted paths and to test those paths with the best available statistical tools. Practitioners-while generally not as interested in the intricacies of the statistical results-will find much that is useful to them as they help individuals and couples make decisions about their intimate relationships, their readiness for marriage, and how to increase the probability for marital success. Teachers, family life educators, premarital counselors, and clergy will find helpful our "principles for practice," particularly as described in Chapter 9, as they teach and counsel couples in any premarital situation. My interest in the development of relationships from premarital to marital probably began when I got married in 1972 and started to notice all of the characteristics my wife and I brought from our respective families and how our "new beginning" as a married couple was in many ways the continuation of our premarital relationship, only more refined and more intense. My professional interest began when I did my doctoral dissertation in 1981 on premarital predictors of early marital satisfaction (the results of that study are reported in Chapter 8).
