100 questions before marriage: 100 Questions You Must Ask Your Spouse To Be Morolayo Anne Owoputi, 2020-06-30 This book serves as a guide on the deep questions you should have answers to or asking your potential partner and yourself before undertaking any plans towards Marriage with him or her or flinging yourself blindly into Marriage with a Stranger. From experience, I have realized that several people go into Marriage without really knowing the person they are getting married to well. This realization dawned on me as a result of the many issues that I have come across through the online community that I convene ('Marriage Clinic'), where couples bring up the various problems they are facing in marriage. The first question one usually asks is, didn't you know all of these about your spouse before you went ahead to marry them? The majority of responses gotten from these couples revealed that many of them married a familiar stranger and knew next to nothing of the real person they had committed to for a lifetime journey. Experience goes to show that many of us probably didn't ask the right questions during the dating and courtship period as many seem to be carried away by the euphoria of falling in love that we forget to search out the most important things about the person. It is to address this blind spot that this book has

been written. It is to help you know as a single person what crucial and most important questions you should be asking from the start of the friendship and relationship. You must Learn to discount a person and search them out beyond the physical façade of the beautiful and handsome looks, beyond the cars and houses or an excellent job. These are questions that will help you know the true worth of the man or woman. These are not lovey-dovey questions, but questions deep and severe enough to ward off the false and unserious suitors, leaving you with the serious and true, the ones that will suit, care, and love you.

100 questions before marriage: 101 Questions to Ask Each Other Before Getting Married Azad Chaiwala, 2018-09-27 This book consists of 100+ tried and tested hugely significant compatibility questions that everyone needs to ask their future spouse prior to getting married to them. One practical way of doing this is by way of what I call Marriage Meetings. Introducing: Marriage Meetings A marriage meeting is where your potential partner and yourself, plus two additional people get together in order to learn about each other. The questions in this guide will be how you learn about each other without missing anything important. Just as a pilot has a checklist before takeoff you have a checklist before getting married. You don't have to understand how it works, just have faith that it does and should you prevail and still marry this person opposite you then I can promise you that you will have a very high chance of a successful marriage. What's the purpose of a marriage meeting? Most relationships fail gradually. Over time, you learn new things about your partner, some of which are not to your liking and thus negativity and regret starts to build up, eventually leading to the failure of that relationship. Marriage meetings allow you to get all the skeletons/demons out of the closet before any commitment is made. Where should this meeting take place? The marriage meeting should take place somewhere public. It is absolutely important that you are not hidden away and there should be a safe and comfortable way for one party to leave should they choose to. Pick somewhere quiet like a coffee shop, a park etc, somewhere populated but not too busy as to cause distraction or inconvenience. Who will attend? Both of you should bring one additional person. Let's call them your check-mate; the mate who keeps you in check! This is a responsible person who will have a level head and look out for your best interests. Choose someone who will not hesitate to scrutinise the other person, ask the questions maybe you will shy away from and ensure you are being the real you. This person must be your senior though not necessarily age wise. This could be a colleague, a boss, a family friend, a senior family member or maybe someone of high standing from within your community. The person you bring must be someone you trust and you must listen to them when they bring up concerns. They must absolutely not be a yes man who will just go along with what you say otherwise they are useless to you. Marriage Meetings are not dates These meetings are not to be confused with dates. During dates, one tends to woo and aim to please their potential partner in what I refer to the human equivalent of the mating dance. But in marriage meetings, one should set out to ask the questions so as to get a clear picture of their potential partner's stance in comparison to your own. Why Marriage Meetings work and Conclusion I have done this personally and it has turned out quite awesome. To me, this is the practical method of getting married. Some may not agree with my methodology and to them, I wish good luck. I am not here to say things that people want to hear but to make you happy in the long term. I call it tough love. The reason Marriage Meetings work is because you have no commitment with your potential spouse. In most modern relationship people want to ask these questions but they don't due to fear of rejection or a backlash. If your potential spouse is hesitant to follow this guide and methodology then perhaps they're not sincere about you or marriage. Should you come up with a question of your own that I have not covered, ask it and let me know too so I can add it to this guide. Marriage is a life commitment and having a sudden crush is not good enough to sustain it; A marriage must go deeper than that. Continue inside the Book: How the marriage guide came into being..... 100 questions before marriage: *Sex, Science and Morality in China* Joanna McMillan, 2014-07-30 After decades of near silence on the matter, sex is being talked about in China. Drawing on the work of the country's foremost sex experts, and years of research in the field, it gives an overview of the sexual landscape in China today.
