

11111 research blvd suite 475 austin tx 78759

11111 research blvd suite 475 austin tx 78759 is a prominent business address located in the vibrant city of Austin, Texas. This location serves as a hub for various enterprises, offering a strategic position within the Research Boulevard corridor, known for its commercial and technological significance. Situated in the 78759 postal area, this suite provides access to numerous amenities and is part of a bustling economic zone that supports innovation and growth. Understanding the importance of 11111 research blvd suite 475 austin tx 78759 involves exploring its geographical advantages, nearby facilities, and the opportunities it brings to businesses and professionals alike. This article delves into the key aspects of this location, including its accessibility, surrounding infrastructure, and the business environment it fosters. The following sections provide a comprehensive overview designed to inform potential tenants, investors, and stakeholders about this address and its role within the Austin metropolitan area.

- Location and Accessibility of 11111 Research Blvd Suite 475 Austin TX 78759
- Surrounding Business Environment and Economic Impact
- Office Space and Facilities at 11111 Research Blvd Suite 475
- Local Amenities and Services
- Transportation and Connectivity

Location and Accessibility of 11111 Research Blvd Suite 475 Austin TX 78759

11111 research blvd suite 475 austin tx 78759 is strategically positioned along Research Boulevard, a major thoroughfare in Austin that connects various business districts and residential neighborhoods. This location is part of the larger North Austin area, which is recognized for its concentration of technology companies, startups, and corporate offices. The suite's placement within the 78759 zip code ensures proximity to key commercial centers and government institutions.

Geographical Advantages

The site benefits from its placement near major highways, including US Highway 183 and Interstate 35, facilitating easy access for commuters and clients. This connectivity enhances the appeal of 11111 research blvd suite 475 austin tx 78759 as a business address by reducing travel time and improving logistical efficiency. Additionally, the nearby Austin-Bergstrom International Airport is reachable within a reasonable driving distance, supporting both domestic and international business operations.

Neighborhood Overview

The surrounding neighborhood is a blend of commercial, retail, and residential developments, making it a vibrant area for economic activity. The presence of established companies and emerging businesses contributes to a dynamic local economy. The area is also known for its well-maintained infrastructure and community resources, which add to the desirability of this office location.

Surrounding Business Environment and Economic Impact

11111 research blvd suite 475 austin tx 78759 is situated within a thriving business ecosystem that significantly influences the local economy. The Research Boulevard corridor is often referred to as a technology and innovation hotspot, hosting numerous firms specializing in software development, biotechnology, and professional services. This concentration of businesses fosters collaboration and networking opportunities for tenants and visitors alike.

Industry Clusters

The area is home to various industry clusters, including:

- Information Technology and Software Development
- Biotechnology and Life Sciences
- Financial Services and Consulting
- Education and Research Institutions
- Retail and Hospitality Services

These clusters create a synergistic environment that supports innovation and

economic growth, making 11111 research blvd suite 475 austin tx 78759 a prime location for businesses seeking to capitalize on Austin's expanding market.

Economic Contributions

The businesses operating in and around this address contribute to job creation, tax revenue, and community development. The location attracts both startups and established companies, which helps diversify the regional economy. Moreover, the presence of technology firms promotes Austin's reputation as a leading tech hub in the United States.

Office Space and Facilities at 11111 Research Blvd Suite 475

The office suite at 11111 research blvd suite 475 austin tx 78759 offers modern, flexible workspaces designed to meet the needs of contemporary businesses. The building provides a professional environment with amenities that cater to productivity and comfort, making it an attractive choice for companies of various sizes.

Workspace Features

Key features of the office space include:

- High-speed internet connectivity and advanced telecommunications infrastructure
- Flexible floor plans accommodating open work areas and private offices
- Conference rooms equipped with audio-visual technology for meetings and presentations
- Ergonomic furniture and climate-controlled environments
- Secure access and on-site management support

Building Amenities

The building housing 11111 research blvd suite 475 austin tx 78759 also offers several shared amenities such as:

- Reception and lobby services

- On-site parking with designated spaces for tenants and visitors
- Break rooms and kitchen facilities
- Fitness center access and wellness programs
- Proximity to dining and retail options within the complex

Local Amenities and Services

Beyond the office environment, 11111 research blvd suite 475 austin tx 78759 is advantageously located near a variety of amenities that support daily business operations and employee satisfaction. The area features numerous restaurants, cafes, and retail shops that cater to diverse tastes and preferences.

Dining and Retail Options

Professionals working at this address have access to multiple dining establishments ranging from quick-service outlets to upscale restaurants. This variety supports convenient lunch breaks, business meetings, and after-work gatherings. Additionally, retail centers nearby provide essential services, including banking, postal facilities, and office supply stores.

Health and Wellness Facilities

The vicinity includes healthcare providers, fitness centers, and wellness clinics, contributing to a balanced work-life environment for employees. Access to these services helps promote health-conscious habits and improves overall workforce productivity.

Transportation and Connectivity

Efficient transportation options are a critical factor for any commercial location, and 11111 research blvd suite 475 austin tx 78759 excels in this regard. The address is well-served by multiple modes of transportation, facilitating easy commutes and business travel.

Public Transit Availability

Austin's public transit system includes bus routes that run along Research Boulevard and connect to other parts of the city. This accessibility reduces dependence on private vehicles and supports sustainable commuting options.

Nearby park-and-ride facilities further enhance transit convenience for employees and visitors.

Road Network and Parking

Proximity to major highways such as US 183 and Interstate 35 ensures swift vehicle access to and from the location. The site provides ample parking spaces, including reserved spots for tenants, guest parking, and accessible parking options. This infrastructure supports smooth traffic flow and minimizes parking challenges commonly faced in urban settings.

Frequently Asked Questions

What businesses are located at 11111 Research Blvd Suite 475, Austin, TX 78759?

11111 Research Blvd Suite 475 in Austin, TX 78759 houses various businesses, including technology firms, startups, and professional services. Specific tenants can vary, so checking a current directory or contacting building management is recommended.

Is 11111 Research Blvd Suite 475, Austin, TX 78759 accessible by public transportation?

Yes, 11111 Research Blvd Suite 475 is accessible via several public transportation options in Austin, including bus routes operated by Capital Metro that serve the Research Blvd area.

What amenities are available near 11111 Research Blvd Suite 475, Austin, TX 78759?

The area around 11111 Research Blvd Suite 475 offers various amenities such as restaurants, cafes, shopping centers, and fitness facilities, catering to the needs of office workers and visitors.

How can I schedule a visit or tour for an office space at 11111 Research Blvd Suite 475, Austin, TX 78759?

To schedule a visit or tour for office space at 11111 Research Blvd Suite 475, you should contact the property management company or real estate agent responsible for leasing the space. Contact information is typically available online or through commercial real estate listings.

What is the parking situation at 11111 Research Blvd Suite 475, Austin, TX 78759?

Parking at 11111 Research Blvd Suite 475 generally includes on-site parking lots for tenants and visitors. Availability may vary depending on the time of day and building occupancy, so checking with building management is advisable.

11111 research blvd suite 475 austin tx 78759: Industry 4.0, China 2025, IoT Wolfgang Babel, 2022-11-02 The book gives an overview about automation technology over the last 50 years, based on my own experiences. It is a good summery for automation since 1970 for all who want to know about the context of automation developments and their standards. It is a fundamental summery and enables the reader to get experience in the complex field of automation. In detail the question is arised, whether Industry 4.0, China 2025, IoT, AI are a revolution or more an evolution of timewise established availbale technologies in HW, SW and algorithms. Is the hype about Industry 4.0 justified or not? In that context a timelline since 1970 ist shown for AI, ANN, essential milestones

in automation, e.g OSI-model, automation pyramid, standards for bus systems, main SW-languages, robots, AI, ANN, pattern recognition, Ethernet, the 12 most important international field busses, their main features and characteristics, foundation of committees, harmonization and standardization efforts, OPC UA and cloud computing, field devices, PLCs, SCADA, MES, ERP and automation history. All that history is seen in the context of μ -controller, DSP (Digital signal processor), FPGAs (Field Programmable Gate Arrays), ASICs (Application-Specific Integrated Circuit) , Chip on Board. It includes the HW-history, from Intel 8080 to octuple multicore processors. In the same way it is shown the history of field device out from laboratory into the field with all difficulties and benefits of that transition. The issues are summarized in a pyramid of complexity. Requirements for robustness and safety are shown for field devices. In the same way it is shown the development of mainframes, workstations and PC's. SAP a leading ERP System is explained in more detail. Specially it is figured out how SAP works and what has to be considered in working with such kind of system. The differences between MES- and ERP-systems are discussed, specially also for future combined SAP/MES systems. Explained are the problems of midsized companies (SMEs) in dealing with Industry 4.0 and automation. Further examples are given and discussed for automated quality control in automotive, PCB-handling, CIGS (Solar cell)-production. Also shown is the upgrade for older products and make them ready for automation standards. In detail the history of the modern robotics is shown for the automotive industry. In summary also is figured out the Industry 5.0 which is just coming up more and more.
