1984 book club questions: Leviathan on a Leash Sean Fleming, 2020-11-24 The first suggests that states can be held responsible because they are 'moral agents' like human beings, with similar capacities for deliberation and intentional action. A state is responsible in the same way in which an individual is responsible. The second that states can be held responsible because they are legal persons that act vicariously through their officials; states are 'principals' rather than agents, and the model for state responsibility is a case of vicarious liability, such as when an employer is held financially liable for the actions of her employee. Sam Fleming reconstructs and develops a forgotten understanding of state responsibility from Thomas Hobbes' political thought. Like proponents of the two theories of state responsibility, Hobbes considered states to be 'persons', meaning that actions, rights, and responsibilities can be attributed to them. States can be said to wage war, possess sovereignty, and owe money.

1984 book club questions: Teaching Challenged and Challenging Topics in Diverse and Inclusive Literature Rachelle S. Savitz, Leslie D. Roberts, Jason DeHart, 2023-01-31 This groundbreaking text provides practical, contextualized methods for teaching and discussing topics that are considered taboo in the classroom in ways that support students' lived experiences. In times when teachers are scapegoated for adopting culturally sustaining teaching practices and are pressured to whitewash the curriculum, it becomes more challenging to create an environment where students and teachers can have conversations about complex, uncomfortable topics in the classroom. With contributions from scholars and K-12 teachers who have used young adult literature to engage with their students, chapters confront this issue and focus on themes such as multilingualism, culturally responsive teaching, dis/ability, racism, linguisticism, and gender identity. Using approaches grounded in socioemotional learning, trauma-informed practices, and historical and racial literacy, this text explores the ways in which books with complicated themes can interact positively with students' own lives and perspectives. Ideal for courses on ELA and literature instruction, this book provides a fresh set of perspectives and methods for approaching and engaging with difficult topics. As young adult literature that addresses difficult subjects is more liable to be considered controversial to teach, teachers will benefit from the additional guidance this volume provides, so that they can effectively reach the very students these themes address.

1984 book club questions: *Loving God and Disturbing Men* Donald A. Leggett, 2003 *Loving God and Disturbing Men* is an excellent resource for preachers and teachers that provides a balance between technical scholarly commentaries and popular devotional works. Its unique strength lies in the author's ability to show the relevance of the prophets for the contemporary church and its ministry. Readers will appreciate the detailed scholarly treatment of the prophetic literature the author provides. But equally important, the author demonstrates that what the prophets said about God, evil, repentance, history, social justice and eschatology has the ring of immediacy for us. Moreover, the study is helpful in treating the lives of the prophets as models of spirituality in prayer, suffering and preaching. While the book is primarily for those who preach from the prophets, it is suitable for a much wider audience. A book on preaching from the prophets is desperately needed today by the Christian audience if we are to be faithful in declaring the whole counsel of God to our contemporary generation. Professor Donald Leggett is to be commended on his desire to aid the Christian community and its proclaimers in advancing this cause. It is a pleasure to commend this work. -Walter C. Kaiser, Jr. Here is a pump-primer and launch-pad for preachers. Dr. Leggett's aim is to show us the wisdom of the prophets in a way that will excite us and enable us to share what we have seen. I appreciate this book, for I think it will do its job. And the job is an important one -J. I. Packer Donald A. Leggett (Th.D., Free University, Amsterdam) is Professor Emeritus of Old Testament at Tyndale University College and Seminary in Toronto, Ontario. For 25 years he also served as a pastor and elder at Village Green Baptist Church in London, Ontario.

1984 book club questions: *Cultural Institutions of the Novel* Deidre Lynch, William Beatty Warner, 1996 The story of the development of the novel--its origin, rise, and increasing popularity as a narrative form in an ever-expanding range of geographic and cultural sites--is familiar and, according to the contributors to this volume, severely limited. In a far-reaching blend of comparative literature and transnational cultural studies, this collection shifts the study of the novel away from a consideration of what makes a particular narrative a novel to a consideration of how novels function and what cultural work they perform--from what novels are, to what they do. The essays in *Cultural Institutions of the Novel* find new ways to analyze how a genre notorious for its aesthetic unruliness has become institutionalized--defined, legitimated, and equipped with a canon. With a particular focus on the status of novels as commodities, their mediation of national cultures, and their role in transnational exchange, these pieces range from the seventeenth century to the present and
