Introduction to the Laureate

The 1966 Nobel Prize in Literature was awarded to Shmuel Yosef Agnon, commonly known as S.Y. Agnon, recognizing his profound contributions to Hebrew literature. Agnon was an Israeli writer whose works intricately blend tradition and modernity, deeply rooted in Jewish culture and spirituality. His unique narrative style and thematic explorations of faith, identity, and historical memory distinguished him in the literary world.

Biographical Overview

S.Y. Agnon was born in 1888 in Buczacz, Galicia, then part of Austria-Hungary (now Ukraine). He grew up in a traditional Jewish environment, which significantly influenced his later writings. Agnon emigrated to Palestine in 1908, becoming a central figure in the revival of Hebrew literature. His academic background and immersion in both religious texts and contemporary literary movements shaped his distinctive voice.

Nobel Prize Recognition

The Swedish Academy awarded Agnon the 1966 Nobel Prize in Literature “for his profoundly characteristic narrative art with motifs from the life of the Jewish people.” This recognition highlighted his ability to convey the complexity of Jewish experience and tradition through a modern literary lens. Agnon shared the prize that year with Nelly Sachs, a German-Swedish poet and dramatist, marking a notable moment of acknowledgment for Jewish literature on the global stage.

His prose reflects a lyrical quality that bridges the sacred and the secular, resonating with both traditional and contemporary readers.

1966 nobel prize literature: *The Nobel Prize and the Formation of Contemporary World Literature* Paul Tenngart, 2023-10-05 An exploration of the history, ambitions, and impact of the Nobel Prize in literature as it gained a central position in 20th-century global literary culture. Few scholars would deny that the Nobel Prize is the most prestigious literary award in the world. But what mechanisms made it possible for 18 Swedish intellectuals to become the world's most influential literary critics? Paul Tenngart argues that the Nobel Prize in literature has become a special kind of international canonization: exerted from a non-central, semi-peripheral position, the award sometimes confirms and reinforces hierarchical relations between literary languages and cultures, and sometimes disturbs established patterns of dominance and dependence. Drawing from a wide range of contemporary theories and methods, this multifaceted history of the Nobel Prize questions how the Swedish Academy has managed to keep the prize's global status through all the violent international crises of the last 120 years; how the selection of laureates shaped the idea of 'universal' literary values and defined literary quality across languages and cultures; and what impact the prize has had on the distribution and significance of particular works, literatures and languages. *The Nobel Prize and the Formation of Contemporary World Literature* explores the history and impact of the Nobel Prize in literature from the first award in 1901 through recent controversies involving Bob Dylan and #MeToo, arguing that the prize is a unique performative act that has been – and still is – central in our continual and collective construction of world literature.

1966 nobel prize literature: *Jerusalem in the Second World War* Daphna Sharfman, 2023-12-28 This book is the first to present the unique story of the city of Jerusalem during the events of the Second World War and how it played a unique role in both the military and civilian aspects of the war. Whilst Jerusalem is usually known for topics such as religion, archaeology, or the politics of the Israeli-Arab conflict, this volume provides an in-depth analysis of this exceptional and temporary situation in Jerusalem, offering a perspective that is different from the usual political-strategic-military analysis. Although battles were raging in the nearby countries of Syria and Lebanon, and the war in Egypt and the Western Desert, the people who came to Jerusalem, as well as those who lived there, had different agendas and perspectives. Some were spies and intelligence officers, other were exiles or refugee immigrants from Europe who managed at the last moment to escape Nazi persecution. Journalists and writers described life in the city at this time. All were probably conscious of the fact that when the war came to an end, local rivalry and mounting conflict would take the centre stage again. This was a time of a special, magical drawn-out moment that may shed light on an alternative, more peaceful, kind of Jerusalem that unfortunately was not to be. This volume seeks to find an alternative approach and to contribute to the development of insightful research into life in an unordinary city in an unordinary situation. It will be of value to those interested in military history and the history of the Middle East.

1966 nobel prize literature: *Agnon's Story* Avner Falk, 2018-10-22 Agnon's Story is the first complete psychoanalytic biography of the Nobel-Prize-winning Hebrew writer S.Y. Agnon. It investigates the hidden links between his stories and his biography. Agnon was deeply ambivalent about the most important emotional "objects" of his life, in particular his "father-teacher," his ailing, depressive and symbiotic mother, his emotionally-fragile wife, whom he named after her and his adopted "home-land" of Israel. Yet he maintained an incredible emotional resiliency and ability to "sublimate" his emotional pain into works of art. This biography seeks to investigate the emotional character of his literary canon, his ambivalence to his family and the underlying narcissistic grandiosity of his famous "modesty."

1966 nobel prize literature: *Historical Dictionary of Postwar German Literature* William Grange, 2009-07-09 Some authors strongly criticized attempts to rebuild a German literary culture in the aftermath of World War II, while others actively committed themselves to dealing with the German past. There are writers in Austria and Switzerland that find other contradictions of contemporary life troubling, while some find them funny or even worth celebrating. German postwar literature has, in the minds of some observers, developed a kind of split personality. In view of the traumatic monstrosities of the previous century that development may seem logical to some. The

Historical Dictionary of Postwar German Literature is devoted to modern literature produced in the German language, whether from Germany, Austria, Switzerland or writers using German in other countries. This volume covers an extensive period of time, beginning in 1945 at what was called zero hour for German literature and proceeds into the 21st century, concluding in 2008. This is done through a list of acronyms and abbreviations, a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on writers, such as Nobel Prize-winners Heinrich Böll, Günter Grass, Elias Canetti, Elfriede Jelinek, and W. G. Sebald. There are also entries on individual works, genres, movements, literary styles, and forms.

1966 nobel prize literature: Agnon's Art of Indirection Nitza Ben-Dov, 2024-04-30 Shmuel Yosef Agnon (1888-1970), winner of the Nobel Prize for Literature in 1966 and the undisputed master of the Hebrew novel, still remains largely an unknown or even misunderstood figure. Agnon's innovation was to construct an intricate dialectic between Hebrew tradition and the modern predicament, thereby producing a very distinctive mode of modernist narrative. Agnon deployed a technique of rich allusiveness drawn from traditional Hebrew lore and language using free-association, especially by means of imaginative dream-sequences designed to unveil the ambivalent but fateful meanings in the apparently inconsequential events and thoughts which determine the lives of his characters. This book explores the methods and materials of Agnon's art so as to provide the English reader with insight into his unique fictional world, and it proposes a fresh approach to the reading of Agnon which will also be of interest to those familiar with his work and the crucial literature on it.

1966 nobel prize literature: *Plots: Literary Form and Conspiracy Culture* Ben Carver, Dana Craciun, Todor Hristov, 2021-11-29 This edited collection contributes to the study of conspiracy culture by analysing the relationship of literary forms to the formation, reception, and transformation of conspiracy theories. Conspiracy theories are narratives, and their narrative form provides the structure within which their 'readers' situate themselves when interpreting the world and its history. At the same time, conspiracist interpretations of the world may then be transmediated into works of literature and import popular discourse into narrative structures. The suppression and disappearance of books themselves may generate conspiracy theories and become co-opted into political dissent. Additionally, literary criticism itself is shown to adopt conspiracist modes of interpretation. By examining conspiracy plots as literary plots, with narrative, rhetorical, and symbolic characteristics, this volume is the first systematic study of how conspiracy culture in American and European history is the consequence of its interactions with literature. This book will be of great interest to researchers of conspiracy theories, literature, and literary criticism.
