belk financial news 2024: Digital Currency and Consumption Jashim Khan, Russell Belk, 2024-12-31 The digitalization of payment modes, combined with the development of Blockchain

technology, is shaping the future of digital currency worldwide. Many financial regulators are experimenting with the feasibility of digital currencies nationally in a variety of forms, such as cryptocurrency, virtual currency and central bank digital currency. These digital currencies are just some of those discussed in this book. Each facilitates a transaction efficiently and will likely open an alternative payment system, possibly leading to a global digital currency. This book will present and highlight a broad view of digital currency in the era of globalization. This book will address the meaning of money in a global world. By going beyond fungible national fiat-based currencies to global cryptocurrency and stablecoins, virtual currencies promise to disintermediate and decentralize money. The digital currencies that are the focus of this book use the internet for transactions and harbor the potential to make a unified digital currency system across the globe. This book explores the role of digital currency in influencing consumer behavior, from spending or saving to gaming, tipping and gambling. It asks what is the future of digital currency and what is its role in facilitating and transforming the future of the metaverse? *Digital Currency and Consumption* will be useful reading for a postgraduate audience to understand how digital currencies are shaping the digitalization of transactions and behavior of consumer citizens. It will be of value to researchers interested in a wide variety of disciplines, including international business, finance and consumer behavior.

belk financial news 2024: *The Dark Side of Marketing Communications* Tim Hill, Pierre McDonagh, 2020-10-28 What fuels capitalism and what stops it from collapsing? Does marketing communications support and sustain the economic and political status quo? This book is not about describing the ways in which businesses can optimize the messages they put across or about adding to the marketing communicator's toolkit. This book argues that marketing communications plays an increasingly important role in bolstering contemporary capitalism. Drawing on conceptualizations of the 'market' from political economy and sociology, it focusses on five logics that underpin and sustain the form of capitalism in which we live: the logic of competition, the logic of sustainability, the logic of individualism, the logic of objectivity, and the logic of distraction. It does this by exploring those arenas which are increasingly dominated by the communicative activities of business: sport, CSR, social media, statistics, and entertainment. Bringing theories from marketing and consumer research, sociology, cultural studies, technology and media studies to bear on marketing communications, this book is necessary reading for undergraduate and postgraduate students and academics who wish to understand the broader role of marketing communications in the reproduction of contemporary capitalism.

belk financial news 2024: The Routledge Handbook of Identity and Consumption Ayalla Ruvio, Russell Belk, 2025-04-15 Tell me what you eat, I'll tell you who you are, said Anthelme Brillat-Savarin. Today, You are what you consume is more apt. Barbara Krueger's ironic twist of Descartes - I shop therefore I am - has lost its irony. Such phrases have become commonplace descriptions of our identity in the contemporary world. In our materialistic world, it seems as if there is no debate that our consumption behavior is fused with our self-identity - shaping it, changing it, and often challenging it. The Routledge Handbook of Identity and Consumption introduces the reader to state-of-the-art research, written by the world's leading scholars regarding the interplay between identity and consumption. The book addresses the diverse issues regarding the ways identity affects our consumption behaviour and vice-versa and in doing so presents a broad perspective on the dynamics of self-identity and consumption. With chapters discussing the theory, research, and practical implications of these dynamics, including the way they change across our life span and their expression within different social, cultural, and religious contexts, this book will be a valuable reference source for students and academics from a variety of disciplines.

belk financial news 2024: Blockchain, Metaverse, and Digital Payments Aijaz A. Shaikh, Galimkair Mutanov, Heikki Karjaluo, 2024-10-21 Blockchain, metaverse, and digital payment technologies, collectively called digital ecosystem, have received much attention from academia, regulators, and industry alike. However, their usage across various sub-sectors of the economy and industry is slow, and deployment is still largely experimental. Due to its secure nature, many

industrial players including banking and payment firms are looking for ways on using blockchain to develop consumer confidence and trust in the digital payments for wider adoptability and use. This book provides an in-depth and relevant overview of the main theories, frameworks, technologies and innovations, institutional structures or regulations (GDPR, PSD2), and empirical research that investigates users' perspectives on blockchain technologies, metaverse, and digital payments. With chapters from international contributors, the book presents historical and contemporary developments, innovations, laws and legislation, research, and analysis using qualitative, quantitative, and mixed-method approaches to the adoption and continuous usage of these technologies and platforms. This timely collection offers valuable insights and empirical findings for bank executives, regulators, payment associations (VISA, MasterCard, etc.), policymakers, FinTech, BigTech, and start-up leaders who express interest in blockchain, metaverse, digital payments, as well as academia and researchers in the fields of business management, digital economy, digital technologies, and digital marketing.
