

behavior intervention and support training vdoe

behavior intervention and support training vdoe is a critical initiative offered by the Virginia Department of Education (VDOE) to equip educators, administrators, and support staff with effective strategies for managing student behavior in educational settings. This training focuses on evidence-based practices that promote positive behavioral interventions and supports (PBIS) to enhance student learning and foster a safe, inclusive school environment. Through comprehensive modules and practical applications, the VDOE ensures that school personnel are prepared to address challenging behaviors while supporting students' social and emotional development. This article explores the key components of behavior intervention and support training provided by the VDOE, its significance in educational settings, implementation strategies, and the benefits for students and educators alike. Readers will gain an in-depth understanding of how the VDOE's training programs contribute to improved school climates and effective behavioral management.

- Core Components of VDOE Behavior Intervention Training
- Implementation Strategies in Schools
- Benefits of Behavior Intervention and Support Training
- Resources and Support Available through VDOE

Overview of Behavior Intervention and Support Training by VDOE

The Virginia Department of Education (VDOE) offers behavior intervention and support training as part of its commitment to fostering positive school climates and addressing behavioral challenges effectively. This training is designed to provide educators with the knowledge and skills necessary to implement Positive Behavioral Interventions and Supports (PBIS) frameworks. PBIS is a proactive approach that emphasizes teaching appropriate behaviors, reinforcing positive actions, and minimizing disruptive behaviors through consistent interventions. The VDOE training programs align with state regulations and federal guidelines to ensure compliance and effectiveness across diverse educational environments.

Purpose and Goals of the Training

The primary goal of the behavior intervention and support training VDOE provides is to build capacity among school staff to create supportive, safe, and productive learning environments. The training aims to reduce exclusionary disciplinary actions, promote social-emotional learning, and improve academic outcomes by addressing behavior proactively. By equipping educators with best practices and tools, the VDOE supports schools in meeting the needs of all students, including those with disabilities or behavioral challenges.

Target Audience for VDOE Training

The training is intended for a broad range of school personnel, including teachers, special education staff, counselors, administrators, and behavioral specialists. Tailored sessions accommodate varying levels of experience and roles, ensuring that each participant gains relevant competencies to apply within their educational context. This inclusive approach helps foster a cohesive, school-wide commitment to positive behavior support.

Core Components of VDOE Behavior Intervention Training

The VDOE's behavior intervention and support training encompasses several essential components that provide a comprehensive framework for managing student behavior effectively.

Positive Behavioral Interventions and Supports (PBIS) Framework

At the heart of the training is the PBIS framework, which is a multi-tiered system of support designed to improve school climate and reduce problematic behaviors. PBIS encourages the adoption of universal rules, consistent expectations, and reinforcement systems to promote positive behavior school-wide.

Functional Behavioral Assessments (FBAs) and Behavior Intervention Plans (BIPs)

Participants learn how to conduct Functional Behavioral Assessments to identify the underlying causes of challenging behaviors. This process informs the creation of individualized Behavior Intervention Plans that are tailored to address specific student needs, ensuring interventions are both effective and respectful of student dignity.

Data Collection and Progress Monitoring

Effective behavior management relies on systematic data collection and analysis. The training emphasizes the importance of monitoring student progress and adjusting interventions based on quantitative and qualitative data to ensure continuous improvement.

Collaboration and Team-Based Approaches

The VDOE training promotes collaboration among educators, families, and specialists. Team-based problem solving strengthens intervention strategies and supports consistency across home and school environments, enhancing the overall effectiveness of behavioral supports.

Implementation Strategies in Schools

Successful implementation of behavior intervention and support training requires strategic planning and commitment from school leadership and staff.

School-Wide PBIS Implementation

Schools are encouraged to adopt a tiered system of supports that includes universal interventions for all students, targeted interventions for some students, and intensive interventions for a few. This layered approach maximizes resources and addresses a range of behavioral needs effectively.

Professional Development and Ongoing Support

Continuous professional development is vital for sustaining behavior support initiatives. The VDOE provides ongoing training opportunities, coaching, and technical assistance to ensure fidelity of implementation and to address emerging challenges.

Engaging Families and Communities

Involving families and community members in the behavior intervention process enhances student outcomes. Schools are guided to communicate clearly and collaborate with stakeholders to support consistent behavioral expectations and reinforce positive behaviors outside the school setting.

Utilization of Data Systems

Schools implement data management systems to track behavioral incidents, intervention effectiveness, and overall school climate metrics. Access to real-time data allows for timely

decision-making and resource allocation.

Benefits of Behavior Intervention and Support Training

Participation in behavior intervention and support training through the VDOE yields numerous benefits for schools, educators, and students.

- **Improved Student Behavior:** Reduces incidents of disruptive behavior and fosters a culture of respect and responsibility.
- **Enhanced Academic Performance:** Creates an environment conducive to learning by minimizing behavioral disruptions.
- **Reduced Disciplinary Actions:** Decreases reliance on suspensions and expulsions by addressing root causes of behavior.
- **Support for Diverse Learners:** Provides tailored interventions that accommodate students with disabilities or special needs.
- **Professional Growth:** Equips educators with evidence-based strategies and skills to manage classrooms effectively.
- **Positive School Climate:** Promotes safety, inclusivity, and a sense of community among students and staff.

Resources and Support Available through VDOE

The Virginia Department of Education offers a range of resources to support schools in behavior intervention and support training implementation.

Training Modules and Workshops

VDOE provides structured training modules, both in-person and online, covering foundational and advanced topics in behavior support. These workshops are designed to build competencies progressively.

Technical Assistance and Consultation

Schools can access expert consultation services to assist with planning, implementation, and troubleshooting behavior support initiatives. This ensures tailored solutions that meet unique school needs.

Guidelines and Toolkits

Comprehensive guidelines, templates, and toolkits are available to facilitate the development of PBIS teams, FBAs, and BIPs. These resources streamline the process and enhance consistency.

Data Systems and Reporting Tools

VDOE supports the use of data management platforms that help schools document behavior incidents and intervention outcomes, enabling data-driven decision making.

Frequently Asked Questions

What is Behavior Intervention and Support Training (BIST) according to VDOE?

Behavior Intervention and Support Training (BIST) is a program developed by the Virginia Department of Education (VDOE) designed to equip school staff with strategies to support students exhibiting challenging behaviors and to promote positive behavioral interventions.

Who is the target audience for VDOE's BIST training?

The target audience for VDOE's BIST training includes educators, school administrators, counselors, and support staff who work directly with students in K-12 settings.

What are the primary goals of VDOE's Behavior Intervention and Support Training?

The primary goals of VDOE's BIST training are to reduce the use of exclusionary discipline, improve school climate, equip staff with effective behavior management techniques, and support students in developing self-regulation skills.

How does VDOE recommend implementing BIST in schools?

VDOE recommends implementing BIST through comprehensive staff training, ongoing coaching, data collection on student behavior, and integrating positive behavioral supports within the school environment.

Are there specific modules or components included in VDOE's BIST training?

Yes, VDOE's BIST training includes modules on understanding challenging behaviors,

proactive strategies, crisis prevention, de-escalation techniques, and methods for teaching replacement behaviors.

How can schools access VDOE's Behavior Intervention and Support Training resources?

Schools can access VDOE's BIST resources by visiting the Virginia Department of Education website where training materials, guides, and contact information for trainers are provided.

What evidence supports the effectiveness of VDOE's BIST program?

Research and school reports indicate that VDOE's BIST program helps decrease behavioral incidents and suspensions, improves student engagement, and fosters a positive school climate when implemented with fidelity.

Does VDOE's BIST training align with Positive Behavioral Interventions and Supports (PBIS)?

Yes, VDOE's BIST training aligns with PBIS principles by promoting proactive, consistent, and data-driven behavioral interventions to support student success.

Can VDOE's BIST training be customized for different school settings?

Yes, VDOE encourages schools to tailor BIST strategies to their unique student populations, school culture, and resources while maintaining the core principles of the program.

Additional Resources

1. Positive Behavioral Interventions and Supports: History, Defining Features, and Misconceptions

This book provides a comprehensive overview of the Positive Behavioral Interventions and Supports (PBIS) framework. It explores the historical development of PBIS and clarifies common misconceptions about its implementation. Educators and practitioners will find valuable insights into how PBIS promotes positive student behavior through proactive strategies.

2. Behavior Intervention Planning: A Practical Guide for Educators

Focused on practical application, this guide helps educators design effective behavior intervention plans tailored to individual student needs. It includes step-by-step instructions, assessment tools, and progress monitoring techniques. The book emphasizes collaboration between teachers, families, and support staff to ensure successful outcomes.

3. Functional Behavior Assessment, Diagnosis, and Treatment: A Complete System for

Education and Mental Health Settings

This resource delves into the process of conducting functional behavior assessments (FBA) to understand the causes of challenging behaviors. It offers evidence-based strategies for diagnosing and treating behavioral issues in educational settings. Readers will learn to create data-driven intervention plans that address the root causes of behaviors.

4. Effective Classroom Management: Positive Strategies to Engage All Students and Promote a Psychology of Success

This book outlines positive strategies for managing classroom behavior and creating a supportive learning environment. It covers techniques for engaging students, preventing disruptive behavior, and reinforcing positive actions. Educators will benefit from practical tips that foster student motivation and academic success.

5. Applied Behavior Analysis for Teachers

Designed specifically for educators, this book introduces the principles of Applied Behavior Analysis (ABA) and how to apply them in classrooms. It discusses behavior modification techniques, data collection, and intervention strategies. The book is a valuable tool for teachers seeking to support students with challenging behaviors through evidence-based methods.

6. De-escalate: How to Calm an Angry Person in 90 Seconds or Less

This guide provides quick and effective techniques for de-escalating tense situations involving students or clients. It emphasizes communication skills, empathy, and body language to reduce conflict. The book is useful for behavior intervention specialists and educators working in high-stress environments.

7. Social Skills Training for Children and Adolescents with Asperger Syndrome and Social-Communications Problems

This book offers structured social skills training programs tailored for children and adolescents facing social communication challenges. It includes practical lessons and activities that promote positive interactions and reduce behavioral issues. Educators and therapists will find it helpful for supporting social development in diverse learners.

8. Behavior Support: Principles and Practices of Positive Behavior Support

Exploring the principles of Positive Behavior Support (PBS), this book presents strategies for promoting meaningful behavior change. It integrates research-based approaches with real-world applications to assist individuals with behavioral challenges. The text is relevant for professionals seeking to implement comprehensive behavior support systems.

9. Crisis Prevention and Intervention: A Guide for Mental Health Professionals and Educators

This resource covers methods for preventing and managing behavioral crises in educational and mental health settings. It highlights risk assessment, intervention techniques, and post-crisis support. The book is essential for those involved in behavior intervention and support training, emphasizing safety and de-escalation.

behavior intervention and support training vdoe: What Really Works With Exceptional Learners Wendy W. Murawski, Kathy Lynn Scott, 2017-01-20 Your desk reference for success with exceptional students As education trends promote the inclusion of students with special needs, this book is the perfect resource for teachers and administrators who need to know what works...and what doesn't. With personal experiences, references, and reproducibles, this book identifies evidence-based practices in an easy-access format. The editors and authors examine how special educational needs affect: Content areas like reading and math Specialization areas like autism and learning disabilities Pedagogical areas like culturally responsive practices and accommodations Other critical areas like legal issues, behavior challenges, and home-school collaboration

behavior intervention and support training vdoe: Special Education in Today's Diverse Classrooms Shantel M. Farnan, Ruby L. Owiny, 2025-09-02 Special Education in Today's Diverse Classrooms: Meeting the Needs of Students with Exceptionalities is an introductory-level textbook designed for all pre-service teachers to learn about meeting the needs of students with exceptionalities in inclusive environments. Along with descriptions of each IDEA disability category, the book presents high-leverage practices (HLPs) and evidence-based strategies that are practical and applicable to any instructional environment. Through the lens of HLPs, this text emphasizes universal design for learning (UDL), tiered supports, culturally inclusive pedagogies and practices (CIPP), and evidence-based practices (EBPs). This textbook bridges the gap between research, knowledge about disabilities, and a practical approach to educating students, offering a comprehensive framework for educators navigating the diverse needs of students with exceptionalities. By placing a strong emphasis on CIPP and EBPs as they relate to HLPs, it equips readers with tools to create meaningful and equitable learning experiences. The unique structure, enriched by authentic vignettes and aligned with professional standards, ensures the practical application of frameworks such as UDL and multi-tiered systems of support. Additionally, the book underscores the importance of family engagement, making it a vital resource for fostering collaboration in education. The content aligns with the Council for Exceptional Children (CEC) standards ensuring its relevance and utility for professional educator preparation. Through its innovative approach, this text inspires educators to not only meet students' needs but also celebrate their individuality, preparing them to succeed in dynamic, inclusive school and classroom environments. Key Features: Real-life vignettes from individuals with disabilities, their families, and educators offer authentic perspectives that go beyond case studies Links to resources to increase exposure and knowledge about specific topics, designed to enrich understanding and application of inclusive practices Includes coverage of concepts such as trauma, neurodiversity, social and emotional learning, assistive technology, and new instructional technologies With inclusive language and culturally inclusive pedagogies and practices, the book prepares future educators to foster trust and promote equity in their classrooms Focus on application to the classroom through questions and activities at the end of each chapter Color graphics, visual frameworks (e.g., UDL models), and instructional charts enhance comprehension and engagement Please note: ancillary materials such as quizzes and eFlashcards are not available as in the print version of this work.

behavior intervention and support training vdoe: Implementing a school wide positive behavior interventions and support plan (SWPBISP) and training staff to help all students all who struggle with behaviors within the school setting Sarah Elizabeth Hammer, 2011

behavior intervention and support training vdoe: Writing a Behavioral Intervention Plan Based on a Functional Behavior Assessment Laura A. Riffel, Ph.D., 2016-09-13 This book is designed to take an educator through ten days of real student data and help them learn how to

interpret the data for the gold that is hidden within. This is an easy to use format and participants rave about being able to comprehend the data and make a data-based quality plan after taking this course. Many university courses use this as part of their text for students just learning about behavior analysis. This book is for the one-day course from Behavior Doctor Seminars. Dr. Riffel has a two-day course that teaches learners how to enter this data into a free FBA data tool available on www.behaviordocor.org. There is also a six-month course book for those who want to build behavioral expertise in their school.

behavior intervention and support training vdoe: *Building Positive Behavior Support Systems in Schools, Second Edition* Deanne A. Crone, Leanne S. Hawken, Robert H. Horner, 2015-02-17 A widely used practitioner guide and text, this book presents a blueprint for meeting the challenges of severe problem behavior in grades PreK-8. It shows how to provide effective behavior support for the 1-5% of students who require intensive, individualized intervention. Case examples illustrate step-by-step procedures for identifying student needs using functional behavioral assessment (FBA) and designing, implementing, and evaluating team-based behavior support plans (BSPs). The book also describes how to build school- and districtwide capacity to conduct FBA-BSPs. Reproducible forms and worksheets are included; purchasers get access to a Web page where they can download and print the reproducible materials in a convenient 8 1/2 x 11 size. New to This Edition: *Incorporates current FBA-BSP research and best practices. *Chapters on developing districtwide capacity; FBA apps and software; applications for academic problems; and early childhood settings. *Increased attention to FBA-BSP as a Tier III intervention within a multi-tiered framework. See also the authors' less intensive intervention for moderate problem behavior: *Responding to Problem Behavior in Schools, Second Edition: The Behavior Education Program*. Also available: Dr. Hawken's training DVD, *The Behavior Education Program: A Check-In, Check-Out Intervention for Students at Risk*, which demonstrates the BEP in action.

behavior intervention and support training vdoe: *Handbook of Behavioral Interventions in Schools* Keith C. Radley, Evan H. Dart, 2019-03-11 This book is a complete guide to establishing a multi-tiered system of supports to address student behavior in the classroom and other school settings. The book will walk trainees and practitioners through the entire process of assessment of problem behaviors to intervention and progress monitoring.

behavior intervention and support training vdoe: *Writing a Behavioral Intervention Plan Based on a Functional Behavior Assessment Two Day Seminar* Laura A. Riffel, Ph.D., 2016-08-31 Dr. Riffel developed a training for Functional Behavior Assessments and Behavioral Intervention Planning after working in a statewide program and assisting schools with Tier Three behavior. She developed a system that is so easy to use, a kindergarten teacher with 25 students could still collect the necessary data to make data-based decisions for a student. This book is set up to be a two-day training where participants learn on day one the data that is being sought and how to analyze it by hand. On day two, the participants learn how to enter this data into a free easy-to-use FBA Data Tool that graphs ABC data and makes data-based decision making even easier.

behavior intervention and support training vdoe: *An Educator's Guide to Schoolwide Positive Behavioral Interventions and Supports* Jason E. Harlacher, Billie Jo Rodriguez, 2017-10-06 By implementing schoolwide positive behavioral interventions and supports (SWPBIS), K-12 educators can create an encouraging, productive school culture. This title introduces readers to the comprehensive SWPBIS framework and explores the key elements of its three tiers of support. Learn about the authors' personal experiences in applying positive behavior support strategies and explore practical examples of what the elements and tiers of this model look like in practice. Learn how to implement PBIS strategies in schools: Understand the structure of the SWPBIS framework and its four key elements. Read testimonials from principals and teachers whose schools have created positive school climates using a positive behavior support plan. Learn why decision making in an SWPBIS framework relies on data and how school teams can ensure they use their data accurately to target suitable solutions. Gain specific steps and a general timeline you can use to start implementing SWPBIS. Examine example scenarios and two thorough case examples of how

elementary and secondary schools have adopted and maintained SWPBIS structures. Contents:
Chapter 1: An Introduction to Schoolwide Positive Behavioral Interventions and Supports Chapter 2:

Examples of Schools Using SWPBIS Epilogue Appendix A Appendix B References and Resources

behavior intervention and support training vdoe: Positive Behavior Intervention

Support Irene McNaughton Scott, 2017 Schools all across the world are adopting tiered models of intervention for academics and behavior to meet the needs of the diverse population of students. With these changes, educators are required to implement these proactive interventions in the classroom. Research literature not only indicates that the tiered system of PBIS (positive behavior intervention and supports) is an effective system to support students in the classroom, but that teachers and staff need professional development to implement and sustain usage of these proactive strategies instead of reactive strategies. Furthermore, the research notes the need for schools to use more secondary tier interventions, such as check-in check-out (CICO), social skills groups, mentoring, and classroom meetings utilizing restorative practices, and for additional professional development, specifically on these secondary tier interventions. The purpose of this project was to create a professional development series for school staff members at a K-8 elementary school in Northern California, which would increase their understanding of PBIS and more specifically, secondary tier interventions. This professional development series included, an overview of multi-tiered PBIS system; a session focused on the secondary tier intervention of check-in check-out (CICO); a session focused on the secondary tier intervention of classroom meetings utilizing restorative practices; and an annual refresher session for all staff. The professional development series was not implemented, but the conclusions reached after the review of literature and a needs assessment survey of the teaching staff at the elementary school are that teachers and staff need more professional development opportunities and continued support and time to address the need for knowledge and skills in the areas of PBIS and in particular, secondary tier interventions. Furthermore, additional research is needed to add to the literature to determine the long-term effectiveness of secondary tier interventions such as check-in check-out (CICO) and classroom meetings utilizing restorative practices.

behavior intervention and support training vdoe: Positive Behavior Support Training Curriculum Dennis H. Reid, 2016

behavior intervention and support training vdoe: Training Individuals in Function-based Behavior Intervention Plans Using Modeling, Rehearsal, and Self-monitoring Aimee F. Giles, 2012

behavior intervention and support training vdoe: The Impact of Effective Positive Behavior Intervention Supports Implementation Practices in Central Virginia Anthony J. McLaurin, 2017

behavior intervention and support training vdoe: *Developing Positive Behavioral Support for Students with Challenging Behaviors* Council for Children with Behavioral Disorders, 1999 This monograph is a guide to positive behavioral intervention and support (PBIS) and functional behavioral assessment (FBA) in the special education of students with behavior disorders as emphasized in the 1997 amendments to the Individuals with Disabilities Act (IDEA 97). An introduction explains that positive behavioral support represents the integration of four key elements: a science of behavior, research-validated and practical interventions, attention to social values, and a systems approach. Individual chapters have the following titles and authors: (1) Issues in Conducting Functional Assessments Efficiently and Effectively (Glen Dunlap and Meme Hieneman); (2) Developing Positive Behavioral Support Systems (Robert H. Horner and George Sugai); (3) School-Wide Application of Positive Behavioral Supports (Ron Nelson and George Sugai); (4) Effective Behavioral Supports in the Schools: Considerations for District and School-Based Administrators (Cheryl Hofweber); and (5) IDEA 97 and FBA/PBIS: Policy and Implementation Guidelines (H. Rutherford Turnbull, Ann Turnbull, and Brennan Wilcox). (Contains 49 references.) (DB)

behavior intervention and support training vdoe: *Positive Behavioral Interventions and Supports in Out of School Time* Sheera Hefter, 2015 American youth are in need of supervision after the school day concludes. After School Programs (ASPs) provide students with safe and supportive venues that have the potential for encouraging student growth and development. ASPs across the country struggle to find high quality professionals to staff their programs; adequate training for these professionals is also limited. There is also significant evidence linking strong teacher-student relationships to both academic and social success. Positive Behavioral Interventions and Supports (PBIS) is a framework that has a strong evidence base to support success in promoting a proactive approach to behavior management within school settings. The purpose of this study was to examine the effect of two variables that can improve ASP staff professional development opportunities and the quality of staff-student relationships in after-school settings: active supervision and consultation with performance feedback. A multiple-baseline design across five after-school counselors was utilized to evaluate the effects of an intervention involving training in PBIS as it relates to after school settings and visual performance feedback on the counselors' engagement in active supervision, provision of reinforcement, statements of correction, and statements of behavioral expectations during daily snack time. The study also examined counselor perceptions of utility and relevance of the training and feedback process. As expected based on previous research, the intervention was somewhat effective in increasing and sustaining high levels of active supervision amongst most counselors. Overall rates of reinforcement increased across all counselors, use of correction was less affected, and statements of behavior expectations remained low throughout the study. Results of the social validity measures indicated positive feelings about the relevance of the training, but mixed perceptions related to the specific application of the skills to snack time. Findings from the current study provide early evidence that after-school professionals would benefit from the opportunity to engage in professional development in the area of behavior management, when combined with consultation and performance feedback. Limitations of the study, contributions to the field, and directions for future research are presented.

behavior intervention and support training vdoe: Collaborative Consultation for the Positive Behavioral Support Rebecca Langhough Koscik, 2001

behavior intervention and support training vdoe: Handbook of Behavioral Interventions in Schools Assistant Professor Department of Psychology Keith C Radley, Evan H. Dart, Assistant Professor School Psychology Program Evan H Dart, 2019-04-03 Tasked chiefly with providing effective instruction, classroom teachers must also manage student behavior. Prevalence of student problem behavior is a strong indicator of failing schools, and has been linked to reduced academic achievement, truancy, bullying, and loss of teacher time. As such demand is on the rise for intervention programs that may effectively reduce levels of problem behavior in schools. Handbook of Behavioral Interventions in Schools is a comprehensive collection of evidence-based strategies for addressing student behavior in the classroom and other school settings. Experts in the fields of special education and school psychology provide practical guidance on over twenty behavior interventions that can be used to promote appropriate student behavior. Framed within a multi-tiered system of support, a framework representing one of the predominant service delivery models in schools, interventions are categorized as Tier I, Tier II, or Tier III, and chapters provide insight into how students might be placed in and moved through respective levels of service intensity. Each chapter details a specific intervention strategy, and includes reproducible materials to facilitate use of the intervention, case studies, and further reading for school-based practitioners. Introductory chapters on behavior analysis, multi-tiered systems of support, and law and ethics place the practical guides in a context that is relevant for school-based practice. Walking readers through the entire process of assessment of problem behaviors to intervention and progress monitoring, Handbook of Behavioral Interventions in Schools is an invaluable resource for special education teachers, school psychologists, and trainees in these fields.

behavior intervention and support training vdoe: Individual Positive Behavior Supports Freda Brown, Jacki Anderson, Randall L. De Pry, 2015 This book provides a solid explanation of the

foundations and principles of applied behavior analysis (ABA) and positive behavior support (PBS). It shows readers how to put PBS into practice in school, at home, and in the community. Chapters provide critical background on ABA before turning to the main focus of PBS, which shares common principles but is more generalizable, individualized, and prevention oriented. The content can be applied to school and community-based settings and is aligned with defined standards of practice (APBS Standards of Practice--Individual Level). The book provides a unique way to connect the science of behavior to person-centered intervention approaches--Provided by publisher.

behavior intervention and support training vdoe: Training School-based Professionals in Functional Behavioral Assessment and Behavior Intervention Planning Peri Vella, 2009

behavior intervention and support training vdoe: School-based Behavioral Intervention Case Studies Michael I. Axelrod, Melissa Coolong-Chaffin, Renee O. Hawkins, 2021 School-Based Behavioral Intervention Case Studies translates principles of behavior into best practices for school psychologists, teachers, and other educational professionals, both in training and in practice. Using detailed case studies illustrating evidence-based interventions, each chapter describes all the necessary elements of effective behavior intervention plans including rich descriptions of target behaviors, detailed intervention protocols, data collection and analysis methods, and tips for ensuring social acceptability and treatment integrity. Addressing a wide array of common behavior problems, this unique and invaluable resource offers real-world examples of intervention and assessment strategies.

behavior intervention and support training vdoe: The Effects of the First Year of Implementation of Positive Behavioral Intervention Supports Rosalind Flanigan Operton, 2017 Disciplinary practices and protocols in schools have been a notable concern over the past 30 years. The traditional punitive punishment-based tactics have not proven to be effective in changing student behavior. Positive Behavior Intervention Supports (PBIS) is a proactive alternative that puts whole school systems in a place wherein students and teachers share in the responsibility of building a culture and climate of behaviors that produce positive outcomes. Research based on the implementation of PBIS in schools has concluded that problem behaviors decrease, students and staff feel safe, and attendance improves. There is a body of research that concludes that implementing such changes is effective in reducing office discipline referrals in major disciplinary actions and in creating a positive school climate. The current study examined the effectiveness of changing from reactive, punitive, zero-tolerance practices to proactive positive behavioral interventions. The research focused on the effects of PBIS on the percentage and number of office discipline referrals (ODRs) for African-American and special education students after the first year's implementation of PBIS in a school district of approximately 6,000 students. The results indicate that ODRs decreased during the implementation of PBIS.
