The doll was first introduced by a prominent American toy manufacturer aiming to capture the imagination of young girls with a charming and relatable figure. Inspired by traditional doll-making techniques and contemporary design trends, the initial Belindy doll featured handcrafted elements combined with emerging mass-production methods. **beloved belindy doll history: Uncle** Cheryl Thompson, 2021-03-02 From martyr to insult, how "Uncle Tom" has influenced two centuries of racial politics. Jackie Robinson, President Barack Obama, Supreme Court Justice Clarence Thomas, O.J. Simpson and Christopher Darden have all been accused of being an Uncle Tom during their careers. How, why, and with what consequences for our society did Uncle Tom morph first into a servile old man and then to a racial epithet hurled at African American men deemed, by other Black people, to have betrayed their race? Uncle Tom, the eponymous figure in Harriet Beecher Stowe's sentimental anti-slavery novel, *Uncle Tom's Cabin*, was a loyal Christian who died a martyr's death. But soon after the best-selling novel appeared, theatre troupes across North America and Europe transformed Stowe's story into minstrel shows featuring white men in blackface. In *Uncle*, Cheryl Thompson traces Tom's journey from literary character to racial trope. She explores how Uncle Tom came to be and exposes the relentless reworking of Uncle Tom into a nostalgic, racial metaphor with the power to shape how we see Black men, a distortion visible in everything from Uncle Ben and Rastus The Cream of Wheat chef to Shirley Temple and Bill "Bojangles" Robinson to Bill Cosby. In Donald Trump's post-truth America, where nostalgia is used as a political tool to rewrite history, *Uncle* makes the case for why understanding the production of racial stereotypes matters more than ever before.

**beloved belindy doll history:** *Racial Innocence* Robin Bernstein, 2011 2013 Book Award Winner from the International Research Society in Children's Literature 2012 Outstanding Book Award Winner from the Association for Theatre in Higher Education 2012 Winner of the Lois P. Rudnick Book Prize presented by the New England American Studies Association 2012 Runner-Up, John Hope Franklin Publication Prize presented by the American Studies Association 2012 Honorable Mention, Distinguished Book Award presented by the Society for the Study of American Women Writers Dissects how innocence became the exclusive province of white children, covering slavery to the Civil Rights era Beginning in the mid nineteenth century in America, childhood became synonymous with innocence--a reversal of the previously-dominant Calvinist belief that children were depraved, sinful creatures. As the idea of childhood innocence took hold, it became racialized: popular culture constructed white children as innocent and vulnerable while excluding black youth from these qualities. Actors, writers, and visual artists then began pairing white children with African American adults and children, thus transferring the quality of innocence to a variety of racial-political projects--a dynamic that Robin Bernstein calls racial innocence. This phenomenon informed racial formation from the mid nineteenth century through the early twentieth. *Racial Innocence* takes up a rich archive including books, toys, theatrical props, and domestic knickknacks which Bernstein analyzes as scriptive things that invite or prompt historically-located practices while allowing for resistance and social improvisation. Integrating performance studies with literary and visual analysis, Bernstein offers singular readings of theatrical productions from blackface minstrelsy to *Uncle Tom's Cabin* to *The Wonderful Wizard of Oz*; literary works by Joel Chandler Harris, Harriet Wilson, and Frances Hodgson Burnett; material culture including Topsy pincushions, *Uncle Tom* and *Little Eva* handkerchiefs, and *Raggedy Ann* dolls; and visual texts ranging from fine portraiture to advertisements for lard substitute. Throughout, Bernstein shows how innocence gradually became the exclusive province of white children--until the Civil Rights Movement succeeded not only in legally desegregating public spaces, but in culturally desegregating the concept of childhood itself.

**beloved belindy doll history: Brown Beauty** Laila Haidarali, 2018-09-25 Examines how the media influenced ideas of race and beauty among African American women from the Harlem Renaissance to World War II. Between the Harlem Renaissance and the end of World War II, a complicated discourse emerged surrounding considerations of appearance of African American women and expressions of race, class, and status. Brown Beauty considers how the media created a beauty ideal for these women, emphasizing different representations and expressions of brown skin. Haidarali contends that the idea of brown as a "respectable shade" was carefully constructed through print and visual media in the interwar era. Throughout this period, brownness of skin came to be idealized as the real, representational, and respectable complexion of African American middle class women. Shades of brown became channels that facilitated discussions of race, class, and gender in a way that would develop lasting cultural effects for an ever-modernizing world. Building on an impressive range of visual and media sources—from newspapers, journals, magazines, and newsletters to commercial advertising—Haidarali locates a complex, and sometimes contradictory, set of cultural values at the core of representations of women, envisioned as "brown-skin." She explores how brownness affected socially-mobile New Negro women in the urban environment during the interwar years, showing how the majority of messages on brownness were directed at an aspirant middle-class. By tracing brown's changing meanings across this period, and showing how a visual language of brown grew into a dynamic racial shorthand used to denote modern African American womanhood, Brown Beauty demonstrates the myriad values and judgments, compromises and contradictions involved in the social evaluation of women. This book is an eye-opening account of the intense dynamics between racial identity and the influence mass media has on what, and who we consider beautiful.
