Bystrom, Barbara Burrell, 2018-12-01 This book examines how women candidates, voters, and office holders shape U.S. political processes and institutions, lending their perspectives to gradually evolve American life and values. This book provides an encyclopedic sourcebook on the evolution of women's involvement in American politics from the colonial era to the present, covering all of the individuals, organizations, cultural forces, political issues, and legal decisions that have collectively served to elevate the role of women at the ballot box, on the campaign trail, in Washington, and in state- and city-level political offices across the country. The in-depth essays document and examine the rising prominence of women as voters, candidates, public officials, and lawmakers, enabling readers to understand how U.S. political processes and institutions have been—and will continue to be—shaped by women and their perspectives on American life and values. The entries cover a range of women politicians and officials; female activists and media figures; relevant organizations and interest groups, such as Emily's List, League of Women Voters, and National Right to Life; key laws, court cases, and events, such as the Nineteenth Amendment, the Equal Rights Amendment, the Seneca Falls Convention, the passage of Title IX, and Roe v. Wade; and other topics, like media coverage of appearance, women's roles as campaign strategists/fundraisers, gender differences in policy priorities, and the gender gap in political ambitions. bella abzug leadership institute: Divided We Stand Marjorie J. Spruill, 2018-08-28 The fascinating true story of the characters in Hulu's *Mrs. America* and a broader portrait of the two women's movements that spurred an enduring rift between liberals and conservatives. The many admirers of 'Mrs. America' . . . will find great satisfaction in [*Divided We Stand*] . . . a clear, compelling and deeply insightful volume. —The Washington Post One of Smithsonian Magazine's Ten Best History Books of the Year In the early 1970s, an ascendant women's rights movement enjoyed strong support from both political parties and considerable success, but was soon challenged by a conservative women's movement formed in opposition. Tensions between the two would explode in 1977 at the congressionally funded National Women's Conference in Houston, Texas. As Bella Abzug, Gloria Steinem, and other feminists endorsed hot-button issues such as abortion rights, the ERA, and gay rights, Phyllis Schlafly and Lottie Beth Hobbs rallied with conservative women to protest federally funded feminism and launch a pro-family movement. *Divided We Stand* reveals how crucial women and women's issues have been in the shaping of today's political culture. After the National Women's Conference, Democrats continued to back women's rights in cooperation with a more diverse feminist movement while the GOP abandoned its previous support for women's rights and defined itself as the party of family values, irrevocably affecting the course of American politics.

bella abzug leadership institute: I Still Believe Anita Hill Amy Richards, Cynthia Greenberg, 2012-12-11 A searing collection of essays looks back at the 1991 Supreme Court confirmation hearings that ignited a national debate about workplace sexual harassment. In the fall of 1991, Anita Hill captured the country's attention when she testified before the U.S. Senate Judiciary Committee describing sexual harassment by Clarence Thomas, who had been her boss and was about to ascend to the Supreme Court. We know what happened next: she was challenged, disbelieved, and humiliated; he was given a lifelong judicial appointment. What is less well-known is how many women and men were inspired by Anita Hill's bravery, how her testimony changed the feminist movement, and how she singlehandedly brought public awareness to the issue of sexual harassment. Twenty years later, this collection brings together three generations to witness, respond to, and analyze Hill's impact, and to present insights in law, politics, and the confluence of race, class, and gender. With original contributions by Anita Hill, Melissa Harris-Perry, Catharine MacKinnon, Patricia J. Williams, Eve Ensler, Ai Jen Poo, Kimberly Crenshaw, Lynn Nottage, Gloria Steinem, Lani Guinier, Lisa Kron, Mary Oliver, Edwidge Danticat, Kevin Powell, and many others. "These timely essays show us how those historic hearings brought sexual harassment (especially in the workplace) into the public eye, while also revealing what still hasn't changed, and reminding us of the intersection of race, class, gender, and power that underlies this contentious issue." —Publishers Weekly

bella abzug leadership institute: The Hollow Parties Daniel Schlozman, Sam Rosenfeld, 2025-10-28 A major history from the Founding to our embittered present that “explains the void” (Politico) at the center of America’s political parties Featured on The Ezra Klein Show and The Weekly Show with Jon Stewart America’s political parties are hollow shells of what they could be, locked in a polarized struggle for power and unrooted as civic organizations. *The Hollow Parties* takes readers from the rise of mass party politics in the Jacksonian era through the years of Barack Obama and Donald Trump. Today’s parties, at once overbearing and ineffectual, have emerged from the interplay of multiple party traditions that reach back to the Founding. Daniel Schlozman and Sam Rosenfeld paint unforgettable portraits of figures such as Martin Van Buren, whose pioneering Democrats invented the machinery of the mass political party, and Abraham Lincoln and other

heroic Republicans of that party's first generation who stood up to the Slave Power. And they show how today's fractious party politics arose from the ashes of the New Deal order in the 1970s. Activists in the wake of the 1968 Democratic National Convention transformed presidential nominations but failed to lay the foundations for robust, movement-driven parties. Instead, modern American conservatism hollowed out the party system, deeming it a mere instrument for power. Party hollowness lies at the heart of our democratic discontents. With historical sweep and political acuity, *The Hollow Parties* offers powerful answers to pressing questions about how the nation's parties became so dysfunctional—and how they might yet realize their promise.

bella abzug leadership institute: *Engaging with Empowerment* Srilatha Batliwala, 2015-09-02 In this fascinating collection of writings, Srilatha Batliwala, feminist thinker and practitioner, explores the many dimensions of what empowerment means for, and to, women. Looking back on a life lived through commitment to a cause—rather than to an organisation or to a sector—and working for it at many levels and locations, she traces the evolution of the concept from the late 1980s till now, unravelling its ambiguities, highlighting insights gained through practice, and analysing how and why it has been depoliticised and reduced by the state and aid agencies. Along the way, Batliwala traverses key sectors, including education for women, politics outside political systems, grassroots movements, energy for sustainable development, and a controversial questioning of a rights-based approach to women's equality.

bella abzug leadership institute: *Transnational LGBT Activism* Ryan R. Thoreson, 2014-11-01 The International Gay and Lesbian Human Rights Commission (IGLHRC) was founded in 1990 as the first NGO devoted to advancing LGBT human rights worldwide. How, this book asks, is that mission translated into practice? What do transnational LGBT human rights advocates do on a day-to-day basis and for whom? Understanding LGBT human rights claims is impossible, Ryan R. Thoreson contends, without knowing the answers to these questions. In *Transnational LGBT Activism*, Thoreson argues that the idea of LGBT human rights is not predetermined but instead is defined by international activists who establish what and who qualifies for protection. He shows how IGLHRC formed and evolved, who is engaged in this work, how they conceptualize LGBT human rights, and how they have institutionalized their views at the United Nations and elsewhere. After a full year of in-depth research in New York City and Cape Town, South Africa, Thoreson is able to reconstruct IGLHRC's early campaigns and highlight decisive shifts in the organization's work from its founding to the present day. Using a number of high-profile campaigns for illustration, he offers insight into why activists have framed particular demands in specific ways and how intergovernmental advocacy shapes the claims that activists ultimately make. The result is a uniquely balanced, empirical response to previous impressionistic and reductive critiques of Western human rights activists—and a clarifying perspective on the nature and practice of global human rights advocacy.

bella abzug leadership institute: *Women and Leadership* Karin Klenke, 2004-01-01 This book examines women's access to leadership roles and how these roles are perceived in society. It represents one of the first scholarly examinations of the burgeoning field of leadership. Using real-life examples and case studies of prominent women, Dr. Klenke explores the complex interactions between gender, leadership, and culture. Topics include the changing conceptions of leadership, women leaders in history, contemporary leadership theories, barriers to women's leadership, and women leaders worldwide. This volume is of primary interest to educators and students involved in women's studies programs as well as in courses in gender and leadership.

bella abzug leadership institute: *Strategic Sisterhood* Rebecca Tuuri, 2018-04-09 When women were denied a major speaking role at the 1963 March on Washington, Dorothy Height, head of the National Council of Negro Women (NCNW), organized her own women's conference for the very next day. Defying the march's male organizers, Height helped harness the womanpower waiting in the wings. Height's careful tactics and quiet determination come to the fore in this first history of the NCNW, the largest black women's organization in the United States at the height of the civil

rights, Black Power, and feminist movements of the 1960s and 1970s. Offering a sweeping view of the NCNW's behind-the-scenes efforts to fight racism, poverty, and sexism in the late twentieth century, Rebecca Tuuri examines how the group teamed with U.S. presidents, foundations, and grassroots activists alike to implement a number of important domestic development and international aid projects. Drawing on original interviews, extensive organizational records, and other rich sources, Tuuri's work narrates the achievements of a set of seemingly moderate, elite activists who were able to use their personal, financial, and social connections to push for change as they facilitated grassroots, cooperative, and radical activism.
