Common Korean Words for Besties

In Korean, several words capture the idea of "besties" or close friends, each with slight nuances. The most straightforward term for best friend is 친구 (*chingu*), which means "friend." However, to specifically indicate a best friend or close companion, Koreans use different expressions depending on the context and level of intimacy.

친한 친구 (Chinhan Chingu)

The phrase 친한 친구 translates to "close friend" or "intimate friend." This term is commonly used to describe someone with whom you share a strong bond, often similar to the English "best friend."

최친 (Jeolchin)

최친 is a shortened form of 최고 친구, meaning "best friend" or "dearest friend." This term is widely used in casual speech and social media among younger generations to refer to their closest friends or besties.

베베 (Beppeu)

베베 is a Korean slang abbreviation derived from the English phrase "best friend." It is popular among teenagers and young adults in informal settings and online conversations.

친구 사이 (Chingu Sai)

The phrase 친구 사이 means "between friends" and is often used to describe the relationship or closeness between two friends, implying a bond that can range from casual to very close.

- 친구 (chingu) – friend
- 친구 사이 (chinhhan chingu) – close friend
- 제일친 (jeolchin) – best friend
- 베베 (beppeu) – best friend (slang)
- 단짝 (danjjak) – bosom buddy or inseparable friend

Cultural Significance of Friendship in Korea

Friendship holds an important place in Korean society, often influenced by Confucian values emphasizing respect, loyalty, and harmony. The concept of besties or close friends in Korea goes beyond casual acquaintance and involves mutual trust, support, and long-term commitment.

Importance of Loyalty and Trust

Koreans value loyalty highly in friendships. Close friends, or besties, are expected to be reliable and supportive during both good and bad times. This cultural expectation strengthens the bonds between best friends and creates lifelong relationships.

Group Dynamics and Friendship

In Korea, friendships often exist within groups rather than just between individuals. These groups, such as classmates or colleagues, form tight-knit circles where besties emerge naturally through shared experiences and social activities.

Language Reflecting Hierarchy and Respect

The Korean language itself reflects social hierarchies, so even among friends, the way one addresses another may change depending on age and social status. This nuance influences how besties

communicate, often balancing casual and respectful tones.

Expressions and Phrases to Use with Besties

Using the right expressions can deepen your connection with Korean besties and make interactions more natural. Several common phrases express affection, gratitude, and camaraderie among close friends.

칭구야 (Chinguya)

This is a casual way to call a friend, often used among besties. The suffix **야** is attached to a name or noun to indicate familiarity and affection.

고맙고, 베페우! (Gomawo, Beppeu!)

This phrase means "Thank you, bestie!" and is a friendly way to show appreciation to your close friend.

우리 항상 함께 하자 (Uri hangsang hamkke haja)

Translating to "Let's always be together," this phrase expresses a desire to maintain a lasting friendship with your bestie.

넌 내 절친이야 (Neoneun nae jeolchiniya)

This means "You are my best friend," a straightforward and heartfelt expression to affirm your bond.

- 칭구야, 잘 지냈어? (Chinguya, jal jinaesseo?) – Hey friend, how have you been?
- 네랑 있을 때 재미있어 (Neorang isseumyeon jeulgeowo) – I have fun when I'm with you.
- 언제 다시 만날까? (Uri eonje dasi manna?) – When will we meet again?

How to Address Your Bestie in Different Contexts

The manner of addressing best friends in Korean varies based on formality, age, and social context. Understanding these differences is essential for respectful and effective communication.

Informal Settings

Among peers of the same age, especially young people, informal terms like 친구 or simply using the name with the suffix 님 or 이 is common. Slang terms like 짱 and casual nicknames are also popular.

Formal or Respectful Contexts

When addressing older friends or in more formal situations, Koreans may avoid overly casual language. Instead, they use polite speech endings or refer to the friend by their full name or title to maintain respect.

Written Communication

Texting or online chatting between besties often includes slang, emojis, and shortened forms like ㅇㅇ. However, in written letters or formal communication, more respectful language is preferred.

Lily: I love you so much I'm going to destroy everyone in your life that matters and force you to depend and love only me. Harper: That sounds beautiful. I love you. Meanwhile, it's the perpetually "gawkward" Lily--who accessorizes every ensemble with a pair of tattered fairy wings--who finds herself flying alongside the queen bees of Pathways. besties in korean language: *Bad Friends* Ancco, 2018-10-16 Included on Publishers Weekly's Best of 2018 list! A story of the enduring quality of female friendship amid a gritty landscape of abuse. "Against gorgeous, starkly sketched city scenes of South Korean alleyways and hostess bars, the rebellions and secret longings of '90s teenager Pearl and her group of "bad friends" play out in this imported debut discovery."—Publishers Weekly Jinju is bad. She smokes, drinks, runs away from home, and has no qualms about making her parents worry. Her mother and sister beg her to be a better student, sister, daughter; her beleaguered father expresses his concerns with his fists. *Bad Friends* is set in the 1990s in a South Korea torn between tradition and Western modernity and haunted by an air of generalized gloom. Cycles of abuse abound as the characters enact violence within their power structures: parents beat children, teachers beat students, older students beat younger students. But at each moment that the duress verges on bleakness, Ancco pulls back with soft moments of friendship between Jinju and her best friend, Pearl. What unfolds is a story of female friendship, a Ferrante-esque connection formed through youthful excess, malaise, and struggle that stays with the young women into adulthood. Served by a dry and precise line, *Bad Friends* viscerally captures the adolescent years of two young women who want and know they deserve something different but, ultimately, are unable to follow through. In a culture where young women are at a systemic disadvantage, Ancco creates a testimonial to female friendship as a powerful tool for survival. Jinju forgets her worst adolescent memories, but she cannot ever shake the memory of her friendship with Pearl during her most tumultuous years.
