**best school psychology books reddit: The Psychology of the Car** Stefan Gossling, 2017-06-16 The Psychology of the Car explores automotive cultures through the lens of psychology with the goal of achieving a low-carbon transport future. Worldwide there are now more than one billion cars, and their number grows continuously. Yet there is growing evidence that humanity needs to reach 'peak cars' as increased air pollution, noise, accidents, and climate change support a decline in car usage. While many governments agree, the car remains attractive, and endeavors to change transport systems have faced fierce resistance. Based on insights from a wide range of transport behaviors, The Psychology of the Car shows the why of automotive cultures, providing new perspectives essential for understanding its attractiveness and for defining a more desirable transport future. The Psychology of the Car illustrates the growth of global car use over time and its effect on urban transport systems and the global environment. It looks at the adoption of the car into lifestyles, the mobilities turn, and how the car impacts collective and personal identities. The book examines car drivers themselves; their personalities, preferences, and personality disorders relevant to driving. The book looks at the role power, control, dominance, speed, and gender play, as well as the interrelationship between personal freedom and law enforcement. The book explores risk-taking behaviors as accidental death is a central element of car driving. The book addresses how interventions can be successful as well as which interventions are unlikely to work, and concludes with how a more sustainable transport future can be created based on emerging transport trends. - Features deep analyses of individual and collective psychologies of car affection, moving beyond sociology-based interpretations of automobile culture - Illustrates concepts using popular culture examples that expose ideas about automobility - Shows how fewer, smaller and more environmentally friendly cars, as well as low-carbon transport modes, are more socially attractive

**best school psychology books reddit:** *School Psychology and Social Justice* David Shriberg, Samuel Y. Song, Antoinette Halsell Miranda, Kisha Radliff, 2013-01-17 School psychology practice does not exist in a vacuum and is not value-neutral. As the role and function of the school psychologist continues to evolve and expand, social justice provides a needed real-world framework for school psychology students, practitioners, supervisors, and professors to guide their efforts. Culled from years of experience by experts working in a vast array of applied environments and appropriate both for practitioners and for graduate courses in multicultural school psychology and/or the role and function of school psychologists, this book takes the reader through a tour of common school psychology topics and functions through the lens of social justice. Utilizing case examples and concrete suggestions, a critical yet hopeful vision of ways in which school psychologists can work to achieve positive outcomes for students, families, schools, and society is provided.

**best school psychology books reddit:** *Le guide détendu des émotions au travail* Jean-Yves Katelan, Liz Fosslien, Molly West Duffy, 2020-03-24 Ce livre est un véritable guide pour exprimer efficacement vos émotions au bureau, trouver un épanouissement et définir l'équilibre travail-vie personnelle en fonction de vos propres critères. Comment empêcher le râleur du bureau de ruiner votre journée ? Comment profiter de vos vacances sans être obsédé pour les courriels non traités de votre boîte mail ? Si vous êtes patron, que faire lorsque votre nouvel employé est désireux de vous suivre sur Instagram ? Le milieu de travail moderne peut être un champ de mines émotionnel, rempli de structures de pouvoir déroutantes et de règles non écrites. Nous sommes censés être authentiques, mais pas trop authentiques. Professionnels, mais pas rigides. Amicaux, mais pas trop proches. Plus facile à dire qu'à faire ! Consultantes en organisation et personnes normales, les auteures vous aident à comprendre quelles émotions lâcher, quelles émotions garder pour vous, et lesquelles exprimer pour être à la fois plus heureux et plus efficaces. Elles partagent aussi quelques nouvelles stratégies surprenantes, telles que : • Être vulnérable de façon sélective : faites preuve d'honnêteté sur ce que vous ressentez, mais n'encombrez pas les autres avec vos problèmes les plus profonds ; • N'oubliez pas que vos sentiments ne sont pas des faits avérés : ce que nous disons n'est pas toujours ce que nous voulons dire. En cas de conflit ou de mésentente, essayez de parler de vos émotions sans devenir émotif ; • Prenez les choses avec moins de passion dans votre travail : avoir recours à un cachet pour vous calmer peut vous rendre plus serein et plus concentré. En s'inspirant de ce qu'elles ont appris en économie comportementale, en psychologie et à partir de leurs propres expériences dans de nombreuses organisations, les auteures vous montrent comment apporter le meilleur de vous (et vous-même tout entier) chaque jour au travail.

most of all, Today in School Psychology is filled with the innocence, insight, and profound truths of children that have not only taught me a lot, but also inspired me to be a better school psychologist. Because much of my joy is found in having direct contact with students, I hope that these stories resonate with you and bring a smile to your face. As you read the funny things that children say, I hope that you are reminded of why you are an educator. Whether for your own personal inspiration or using them as icebreakers and discussion starters in staff meetings or retreats, I hope that you reflect on how you can be an even better champion for young people—one who always keeps children at the center of your service and professional practice.
