crazy never have i ever questions: Trapped Under the Sea Neil Swidey, 2015-02-17 The harrowing story of five men who were sent into a dark, airless, miles-long tunnel, hundreds of feet below the ocean, to do a nearly impossible job—with deadly results A quarter-century ago, Boston had the dirtiest harbor in America. The city had been dumping sewage into it for generations, coating the seafloor with a layer of "black mayonnaise." Fisheries collapsed, wildlife fled, and locals referred to floating tampon applicators as "beach whistles." In the 1990s, work began on a state-of-the-art treatment plant and a 10-mile-long tunnel—its endpoint stretching farther from civilization than the earth's deepest ocean trench—to carry waste out of the harbor. With this impressive feat of engineering, Boston was poised to show the country how to rebound from environmental ruin. But when bad decisions and clashing corporations endangered the project, a team of commercial divers was sent on a perilous mission to rescue the stymied cleanup effort. Five divers went in; not all of them came out alive. Drawing on hundreds of interviews and thousands of documents collected over five years of reporting, award-winning writer Neil Swidey takes us deep into the lives of the divers, engineers, politicians, lawyers, and investigators involved in the tragedy and its aftermath, creating a taut, action-packed narrative. The climax comes just after the hard-partying DJ Gillis and his friend Billy Juse trade assignments as they head into the tunnel,

sentencing one of them to death. An intimate portrait of the wreckage left in the wake of lives lost, the book—which Dennis Lehane calls extraordinary and compares with *The Perfect Storm*—is also a morality tale. What is the true cost of these large-scale construction projects, as designers and builders, emboldened by new technology and pressured to address a growing population's rapacious needs, push the limits of the possible? This is a story about human risk—how it is calculated, discounted, and transferred—and the institutional failures that can lead to catastrophe. Suspenseful yet humane, *Trapped Under the Sea* reminds us that behind every bridge, tower, and tunnel—behind the infrastructure that makes modern life possible—lies unsung bravery and extraordinary sacrifice.

crazy never have i ever questions: The Moment Douglas Kennedy, 2011-05-03 #1

International Bestseller “The Moment is utterly engrossing...Kennedy is astonishing at communicating his characters' emotional turmoil, the complexity of their situation, and the coldness of the Cold War...Highly recommended for all types of fiction readers.” —Library Journal (starred review) Thomas Nesbitt is a divorced writer in the midst of a rueful middle age. Living a very private life in Maine, in touch only with his daughter and still trying to recover from the end of a long marriage, his solitude is disrupted one wintry morning by the arrival of a box that is postmarked Berlin. The name on the box—Dussmann—unsettles him completely, for it belongs to the woman with whom he had an intense love affair twenty-six years ago in Berlin at a time when the city was cleaved in two and personal and political allegiances were frequently haunted by the deep shadows of the Cold War. Refusing initially to confront what he might find in that box, Thomas nevertheless is forced to grapple with a past he has never discussed with any living person and in the process relive those months in Berlin when he discovered, for the first and only time in his life, the full, extraordinary force of true love. But Petra Dussmann, the woman to whom he lost his heart, was not just a refugee from a police state, but also someone who lived with an ongoing sorrow that gradually rewrote both their destinies. A love story of great epic sweep and immense emotional power, *The Moment* explores why and how we fall in love—and the way we project on to others that which our hearts so desperately seek.

crazy never have i ever questions: What If? and Why Not? Jen Groover, 2010-03-02 Starting your own business is hard. But the biggest obstacles often have less to do with time and money, and more to do with fear and doubt. In *What If? and Why Not?* serial entrepreneur and small business advocate Jen Groover—creator of the Butler Bag and creator and host of Launcher's Café, an online community for entrepreneurs—shows you how to transform your fears into action by rethinking the negative questions that can lead to failure before you even get started. Being an entrepreneur, Groover says, isn't just about selling a product. It's about personal growth—about taking your vision and bringing it to fruition, and about always pushing yourself to take that vision further. What gets in your way isn't the money you don't have, or what you don't know about the industry you want to get into—it's believing you can't do it, that you don't have the power or the resources you need to make your dream into a reality. Groover walks you step by step through ten negative “What If?” questions—What if I don't know what I'm doing? What if I don't have the money? What if I fail?—and how to turn them around by asking yourself: What if I can learn? What if I don't need much money? What if I succeed? She also asks “What Not?: Why not find a mentor or take a class? Why not ask for investors? Why not try? With dozens of personal stories from successful entrepreneurs in areas as
