csueastbay financial aid office: Transformative Practices for Minority Student Success Dina C. Maramba, Timothy P. Fong, 2023-07-03 Between 2000 and 2015 the Asian American Pacific Islander population grew from nearly 12 million to over 20 million--at 72% percent recording the fastest growth rate of any major ethnic and racial group in the US. This book, the first to focus wholly on Asian American and Native American Pacific Islander Institutions (AANAPISIs) and their students, offers a corrective to misconceptions about these populations and documents student services and leadership programs, innovative pedagogies, models of community engagement, and collaborations across academic and student affairs that have transformed student outcomes. The contributors stress the importance of disaggregating this population that is composed of over 40 ethnic groups that vary in immigrant histories, languages, religion, educational attainment levels, and socioeconomic status. This book recognizes there is a large population of underserved Asian American and Pacific Islander college students who, given their educational disparities, are in

severe need of attention. The contributors describe effective practices that enable instructors to validate the array of students' specific backgrounds and circumstances within the contexts of developing such skills as writing, leadership and cross-cultural communication for their class cohorts as a whole. They demonstrate that paying attention to the diversity of student experiences in the teaching environment enriches the learning for all. The timeliness of this volume is important because of the keen interest across the nation for creating equitable environments for our increasingly diverse students. This book serves as an important resource for predominantly white institutions who are admitting greater numbers of API and other underrepresented students. It also offers models for other minority serving institutions who face similar complexities of multiple national or ethnic groups within their populations, provides ideas and inspiration for the AANAPISI community, and guidance for institutions considering applying for AANAPISI status and funding. This book is for higher education administrators, faculty, researchers, student affairs practitioners, who can learn from AANAPISIs how to successfully engage and teach students with widely differing cultural backgrounds and educational circumstances.
