

csun speech pathology masters

csun speech pathology masters programs offer an excellent pathway for students seeking advanced knowledge and clinical expertise in communication disorders. California State University, Northridge (CSUN) is well-regarded for its comprehensive curriculum, experienced faculty, and extensive clinical training opportunities. This article explores the key features of the CSUN speech pathology masters degree, including admission requirements, curriculum structure, clinical practicum, and career prospects. Prospective students will gain valuable insights into what makes CSUN a top choice for speech-language pathology graduate education. Additionally, the article will address certification and licensure preparation, research opportunities, and financial aid options. The following sections provide a detailed breakdown of the program components and the benefits of pursuing a master's degree in speech pathology at CSUN.

- Overview of the CSUN Speech Pathology Masters Program
- Admission Requirements and Application Process
- Curriculum and Coursework
- Clinical Training and Practicum Experience
- Certification, Licensure, and Career Outcomes
- Research and Faculty Expertise
- Financial Aid and Scholarships

Overview of the CSUN Speech Pathology Masters Program

The CSUN speech pathology masters program is designed to prepare students for careers as speech-language pathologists, equipped with a deep understanding of communication disorders and evidence-based intervention strategies. The program emphasizes both theoretical knowledge and hands-on clinical experience, ensuring graduates meet the rigorous standards set by the American Speech-Language-Hearing Association (ASHA). Students benefit from CSUN's state-of-the-art facilities and partnerships with local healthcare and educational organizations. The program typically spans two years, culminating in a Master of Science degree in Speech-Language Pathology.

Program Goals and Learning Outcomes

The primary goals of the CSUN speech pathology masters program include developing clinical competencies, fostering critical thinking skills, and promoting lifelong learning. Graduates are expected to demonstrate proficiency in diagnosing and treating a wide range of speech, language, and swallowing disorders across the lifespan. Upon completion, students will be prepared to engage in professional practice, research, and advocacy within diverse communities.

Admission Requirements and Application Process

Admission to the CSUN speech pathology masters program is competitive, requiring applicants to meet specific academic and professional criteria. Prospective students must submit a detailed application package that reflects their commitment and readiness for graduate-level study in speech-language pathology.

Academic Prerequisites

Applicants must have a bachelor's degree from an accredited institution, ideally in communication sciences and disorders or a related field. The program expects completion of prerequisite coursework, including anatomy and physiology of speech and hearing, phonetics, linguistics, and audiology. A minimum GPA is typically required to ensure academic preparedness.

Application Components

The application process involves several key components:

- Official transcripts from all post-secondary institutions attended
- Letters of recommendation, usually from academic or professional references
- A personal statement outlining career goals and motivation for pursuing speech pathology
- GRE scores, if required by the department
- Resume or curriculum vitae highlighting relevant experience

Curriculum and Coursework

The CSUN speech pathology masters curriculum is structured to provide a balance between foundational knowledge and specialized skills. Courses are delivered through lectures, seminars, and laboratory sessions, incorporating the latest research and clinical practices.

Core Coursework

Students engage in comprehensive coursework covering diverse aspects of communication disorders, such as:

- Introduction to Speech-Language Pathology
- Speech and Hearing Science
- Child Language Disorders
- Adult Neurogenic Communication Disorders
- Voice and Fluency Disorders
- Swallowing Disorders and Dysphagia
- Research Methods and Statistics

Electives and Specializations

In addition to required courses, students may select electives that align with their specific interests, including augmentative and alternative communication, bilingualism, or counseling techniques. This flexibility allows students to tailor their education to future career goals.

Clinical Training and Practicum Experience

Hands-on clinical experience is a cornerstone of the CSUN speech pathology masters program. The clinical practicum enables students to apply theoretical concepts in real-world settings under expert supervision.

Clinical Facilities and Partnerships

CSUN maintains on-campus speech and hearing clinics and collaborates with hospitals, schools, and rehabilitation centers throughout the Los Angeles area. These partnerships provide diverse practicum placements, exposing students to a broad spectrum of client populations and communication disorders.

Practicum Structure and Requirements

Students are required to complete a minimum number of supervised clinical hours consistent with ASHA certification standards. The practicum is designed to develop assessment, diagnosis, and intervention skills through progressively independent practice. Regular feedback and evaluation ensure continuous improvement and professional growth.

Certification, Licensure, and Career Outcomes

The CSUN speech pathology masters program equips graduates to pursue national certification and state licensure, essential for professional practice. The program's alignment with ASHA standards facilitates eligibility for the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP).

Certification and Licensure Process

Graduates must complete a clinical fellowship year (CFY) post-graduation and pass the Praxis examination in speech-language pathology to obtain full certification and licensure. CSUN provides guidance and resources to support students through these requirements.

Career Opportunities

Graduates find employment across various settings, including:

- Public and private schools
- Hospitals and rehabilitation centers
- Private practice clinics
- Early intervention programs
- Research institutions

The demand for qualified speech-language pathologists continues to grow, reflecting the importance of this profession in healthcare and education.

Research and Faculty Expertise

CSUN's speech pathology masters program benefits from a faculty with diverse research interests and clinical specialties. Faculty members contribute to advancing knowledge in areas such as neurogenic disorders, pediatric communication, and augmentative communication technologies.

Opportunities for Student Research

Students have the opportunity to engage in research projects, often collaborating with faculty mentors. Research experience enhances critical thinking and prepares students for potential doctoral studies or specialized clinical practice.

Financial Aid and Scholarships

CSUN offers various financial aid options to support students pursuing the speech pathology masters degree. Scholarships, grants, and assistantships may be available based on academic merit and financial need.

Types of Financial Support

- University-based scholarships for graduate students
- Departmental awards specific to communication disorders
- Federal and state financial aid programs
- Work-study opportunities within clinical or research settings

Prospective students are encouraged to explore all funding resources early in the application process to maximize assistance opportunities.

Frequently Asked Questions

What is the focus of the CSUN Speech Pathology Master's program?

The CSUN Speech Pathology Master's program focuses on preparing students for clinical practice in speech-language pathology, covering areas such as communication disorders, assessment, treatment techniques, and research.

What are the admission requirements for the CSUN Speech Pathology Master's program?

Admission requirements typically include a bachelor's degree, prerequisite coursework in communication sciences and disorders, competitive GPA, letters of recommendation, a statement of purpose, and sometimes GRE scores.

How long does it take to complete the CSUN Speech Pathology Master's program?

The program usually takes about two years of full-time study to complete, including both coursework and clinical practicum experiences.

Does the CSUN Speech Pathology Master's program include clinical practicum experience?

Yes, the program includes extensive supervised clinical practicum experiences to provide hands-on training in diagnosing and treating speech and language disorders.

Is the CSUN Speech Pathology Master's program accredited?

Yes, the program is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA), ensuring it meets professional standards.

What career opportunities are available after graduating from CSUN's Speech Pathology Master's program?

Graduates can work as licensed speech-language pathologists in schools, hospitals, rehabilitation centers, private practice, and research settings.

Are there opportunities for research within the CSUN Speech Pathology Master's program?

Yes, students have opportunities to engage in research projects and collaborate with faculty on studies related to speech and language disorders.

What is the application deadline for the CSUN Speech Pathology Master's program?

Application deadlines vary by year, but typically the program accepts applications for the fall semester, with deadlines around December to January. Prospective students should check the official CSUN website for exact dates.

Does CSUN offer financial aid or scholarships for Speech Pathology Master's students?

Yes, CSUN offers various financial aid options including scholarships, grants, and assistantships to qualified students in the Speech Pathology Master's program.

What is the job placement rate for graduates of the CSUN Speech Pathology Master's program?

CSUN reports a strong job placement rate for its Speech Pathology graduates, with most students securing employment or continuing education within six months of graduation.

Additional Resources

1. Foundations of Speech-Language Pathology at CSUN

This book offers a comprehensive introduction tailored specifically for students pursuing a master's degree in speech pathology at CSUN. It covers fundamental concepts, theories, and clinical practices essential for building a strong foundation in the field. The text integrates CSUN-specific resources and methodologies, making it an ideal guide for new graduate students.

2. Advanced Clinical Techniques in Speech Pathology

A must-read for CSUN master's students, this book delves into advanced diagnostic and therapeutic strategies used in speech-language pathology. It emphasizes evidence-based practices and includes case studies from the CSUN clinical setting. The focus is on enhancing clinical reasoning and intervention skills for diverse populations.

3. Neurogenic Communication Disorders: Insights for CSUN Students

This text explores the complexities of neurogenic communication disorders, including aphasia, dysarthria, and apraxia of speech. Designed with CSUN's curriculum in mind, it provides detailed discussions on assessment and treatment, supported by current research. Students will find it useful for both coursework and clinical practicum.

4. Language Development and Disorders: A CSUN Perspective

Focusing on typical and atypical language development, this book aligns with the coursework in CSUN's speech pathology program. It covers developmental milestones, language delays, and disorders, integrating cultural and linguistic diversity considerations relevant to the CSUN community. Practical strategies for intervention are also included.

5. Augmentative and Alternative Communication (AAC) in Clinical Practice

This resource introduces CSUN students to AAC systems and their application in speech pathology. It discusses assessment methods, device selection, and intervention planning for individuals with complex communication needs. The book includes examples from CSUN clinical cases, emphasizing client-centered approaches.

6. Voice Disorders: Assessment and Treatment Strategies

Targeted at graduate students at CSUN, this book provides a thorough overview of voice disorders, including etiology, diagnosis, and therapy techniques. It integrates both medical and behavioral perspectives and offers practical tools for clinical evaluation. The content is supported by research and clinical experiences from the CSUN Speech-Language Clinic.

7. Childhood Fluency Disorders: Theory and Practice

This text addresses the nature, diagnosis, and treatment of stuttering and other fluency disorders, tailored for CSUN speech pathology students. It highlights theoretical frameworks and evidence-based intervention methods. The book also features case examples from CSUN's clinical practicum to illustrate real-world application.

8. Multicultural Considerations in Speech-Language Pathology

Recognizing the diverse population served by CSUN, this book explores cultural competence in speech-language pathology practice. It discusses how cultural and linguistic differences impact assessment and intervention. The text provides strategies for effective communication and ethical practice within multicultural contexts.

9. Research Methods and Evidence-Based Practice in Speech Pathology

Essential for CSUN master's students, this book guides readers through research design, data analysis, and application of evidence-based practice in speech pathology. It emphasizes critical appraisal of research literature and integration of findings into clinical decision-making. The text includes examples relevant to CSUN's academic and clinical environment.

csun speech pathology masters: *Complete Book of Graduate Programs in the Arts and Sciences* Princeton Review (Firm), 2004-09 Our Best 357 Colleges is the best-selling college guide on the market because it is the voice of the students. Now we let graduate students speak for themselves, too, in these brand-new guides for selecting the ideal business, law, medical, or arts and humanities graduate school. It includes detailed profiles; rankings based on student surveys, like those made popular by our Best 357 Colleges guide; as well as student quotes about classes, professors, the social scene, and more. Plus we cover the ins and outs of admissions and financial aid. Each guide also includes an index of all schools with the most pertinent facts, such as contact information. And we've topped it all off with our school-says section where participating schools can talk back by providing their own profiles. It's a whole new way to find the perfect match in a graduate school.

csun speech pathology masters: The Individualized Music Therapy Assessment Profile Holly Tuesday Baxter, 2007 The IMTAP is an in-depth assessment protocol developed by a team of six experienced music therapists. Designed for use in pediatric and adolescent settings, it provides a clear profile of each client over time. The accompanying CD-ROM allows the therapist to store client details, and to create charts showing progress and areas to work on.

csun speech pathology masters: Outcomes in Speech-Language Pathology Lee Ann C. Golper, Carol M. Frattali, 2012-09-28 An updated reference on outcomes in speech-language pathology Based on the pioneering work of Carol C. Frattali, *Outcomes in Speech-Language Pathology*, Second Edition provides readers with a focused, comprehensive review of current policies, principles, and practices pertaining to outcome measurement in speech-language pathology with particular emphasis on healthcare. It is a unique text that covers outcomes in speech-language pathology practices within the context of contemporary issues across work settings that include clinical practice, applied clinical research, and graduate education. Key Features: The only text that specifically focuses on outcome measurement in speech-language pathology Major themes from the first edition are revisited in light of the impact of contemporary issues and shifts in emphasis in outcomes, including: The prominence of the WHO-ICF as a conceptual model for intervention The impact of public policies and federal mandates Emphasis on value-based, cost-effective clinical healthcare services Growing transparency in organizational performance in accreditation processes The weight currently placed on patient satisfaction and patient-reported outcomes Outcomes assessment across stakeholders in school settings Challenges and revised perspectives on the application of evidence-based practice Increasing demand for applied effectiveness research to inform clinical practices Renewed reliance on single subject experimental designs in SLP intervention research and the application of N=1 research designs to clinical practice The growing emphasis on outcomes in graduate clinical education and supervision as well as in higher education Directors and managers of clinical speech-language pathology programs in healthcare settings as well as clinical staff and supervisors will find this book to be a valuable desk reference and graduate students will use it as a key resource in the course of their studies.

csun speech pathology masters: Speech-language Pathology and Audiology Robert M. McLauchlin, 1986

csun speech pathology masters: The Speech-language Pathologist Arthur M. Guilford, Sandra V. Graham, Jane Scheuerle, 2007 The Speech-Language Pathologist: From Novice to Master Professional is a comprehensive review of practice in all speech-language pathology settings. It addresses personal and professional concerns, as well as formalizes the framework for the developing clinician and the established professional. This text provides expectations of employment from the movement of novice to expert in the work setting. Thoughts for Exploration offer opportunities to personalize this experience. It provides current resources, particularly web sites as additional resources, and provides insights into clinical efficacy.

csun speech pathology masters: Here's How to Do Therapy Debra M. Dwight, 2022-01-07 Includes Videos! The new and significantly updated third edition of Here's How to Do Therapy: Hands-On Core Skills in Speech-Language Pathology is an essential resource on effective evidence-based interventions for both practicing clinicians and students in academic speech-language pathology programs. Unique in design and content, the book provides a logical and manageable approach to enhance clinical skills through guided practice for different types of communication disorders. Part I presents the basic considerations and foundations of the therapeutic process. Twenty-eight fundamental therapeutic skills are presented in a workshop format using organizers, definitions/demonstrations, think-out-loud questions, prompts for practice, post-organizers, and more. Readers are guided through a process for learning and demonstrating each of the 28 specific skills through use of three tools: Therapeutic-Specific Workshop Forms, Video Vignettes, and one Mini-Therapy Session. Part II of the text contains seven Guided Practice chapters, with selected concepts and scripted examples of therapy sessions for receptive and expressive language, social communication for children with autism spectrum disorder (ASD), articulation and phonology, voice, swallowing, resonance, and adult cognitive communication. New to the Third Edition: * Two new Guided Practice chapters: one on adult cognitive disorders and one on dysphagia/swallowing disorders * Additional information on cultural and linguistic diversity, telepractice, AAC, phonological processes, and social communication for children with ASD * Expanded focus on evidence-based practice * Video demonstrations Disclaimer: Please note that ancillary content (such as printable forms) may not be included as published in the original print version of this book.

csun speech pathology masters: A Chronicle and Follow-up Study of the Graduate Program in Speech Pathology and Audiology at California State College of Pennsylvania Carol Lee Nochta, 1980

csun speech pathology masters: The Practitioner's Path in Speech-Language Pathology Wendy Paper-Bernstein, 2017-11-01 The Practitioner's Path in Speech-Language Pathology: The Art of School-Based Practice bridges the gap between theory and practice, evidence-based practice and practice-based evidence, and the science and artistry of speech-language pathology. This book takes a critical look at areas related to wellness, professional development, and growth that can impact the personal self along with the professional self. It examines each area through an overview of inter-disciplinary research in addition to personal narratives illustrating key principles and strategies and offers the reader a professionally balanced perspective. The first section of the book helps us understand the importance of building a foundation for our clinical path through a discussion about scientific and evidence-based principles, different types of knowledge systems, and development of wisdom. The second section of the book helps us understand the importance of supporting our foundation through an introduction to reflection, counsel and care, balance and harmony, growth and detachment. The third section of the book includes chapters that serve as pillars of practice: organizational frameworks, materials and activities, measuring progress, best practices, and the importance of community. The fourth and final section of the book highlights shared vision, clinical expertise, emotional intelligence, leadership trends, the scholarship of teaching and learning, and research dissemination. This book challenges us to consider our own perceptions about the explicit nature of professional practice, and facilitates the development of four attitudes that can have a profound impact on both clinical success and professional satisfaction: a

scientific attitude, a therapeutic attitude, a professional attitude, and a leadership attitude. It contains a blend of clinical evidence and research, practitioner views, common sense, philosophical stances, and historical overviews. The Practitioner's Path in Speech-Language Pathology is designed for students and practitioners who are actively involved with the process of knowledge acquisition, and targets issues we encounter along our path to becoming reflective practitioners, as they relate to the excellence behind and scholarship within teaching and learning.

csun speech pathology masters: An Advanced Review of Speech-Language Pathology

Celeste Roseberry-McKibbin, M. N. Hegde, 2015-09-16 This popular national and international best seller is a must for your library! The fourth edition features new, updated test questions based on the very latest edition of the Praxis examination. It is a comprehensive review, study guide, textbook and reference rolled into one. Only the most current, important, and relevant information is extracted from the entire field of speech-language pathology. Each chapter includes practice questions in multiple-choice formats, along with answers. Quick response codes (QR codes) throughout the chapters can be scanned to lead you immediately to relevant websites with extended information. More than 500 contemporary references have been added, and current topic areas (e.g., telepractice, addressing the needs of medically fragile infants) are addressed. The appendix gives practical test-taking strategies based upon the latest version of the Praxis exam--readers are sure to boost their chances of passing the first time! Experienced professionals will find this resource to be a helpful, quick reference for the very latest updated information in a wide variety of areas.

csun speech pathology masters: *Guide to Successful Private Practice in Speech-language Pathology* American Speech-Language-Hearing Association, 1996

csun speech pathology masters: *Telepractice in Speech-Language Pathology* K. Todd Houston, 2013-10-01

csun speech pathology masters: *Medical Speech-Language Pathology* Lee Ann C. Golper, Bernice K. Klaben, Claire Kane Miller, 2018-08-10 Medical Speech-Language Pathology: A Desk Reference, Fourth Edition is an easily accessible quick reference providing brief definitions, descriptions, and explanations into the vernacular that is integral to those who work in a health care setting. The purpose of this text is to advance the competencies and confidence of speech-language pathology (SLP) clinicians working in medically related settings by familiarizing them with the language, principles, practices, and procedures they will encounter. New to This Edition: Contributions and editing by coauthors Bernice K. Klaben, PhD, and Claire Kane Miller, PhD. Each of these authors brings a master clinician level of knowledge and experience as medical speech-language pathologists. New terminology, abbreviations, and medical tests and procedures. Expanded in this fourth edition is the vastly changed role of the SLP in the neonatal intensive care unit and inpatient services in children's hospitals. Information related specifically to newborns and young children has been added to nearly every chapter. Material has been added related to medical genetics (Chapter 6). The discussion of oncology (Chapter 12) has been expanded to include the current tumor classifications and therapies. The SLP's role with geriatric medicine has expanded in recent decades; thus, a chapter on rehabilitation medicine and geriatrics (Chapter 14) has been given greater attention as clinicians are increasingly participating in palliative care teams. Key Features: Concise, comprehensive, contextual, and well-organized definitions about medical terminology, principles, and practices. Information related to working with children and newborns infused throughout the text. Explanations about how speech-language pathology expertise is integrated into health care services across the gamut of medical disciplines. Knowledge about health care and health services delivery to advance career development. In medical settings, the SLP's treatment decisions are directly related to health and safety as well as communication; thus, clinicians who work in medical speech-language pathology must have a basic understanding of the conditions that have brought patients to the hospital or clinic and what is being done to manage them. This text is intended to provide that basic understanding as a desk reference for practicing clinicians in health care-related facilities, such as hospitals, rehabilitation programs, private practice, outpatient clinics, nursing homes, and home health agencies. It is also intended as a handy

reference for clinicians who work in school and preschool settings, providing services to children with medically related communication and swallowing disorders within their caseloads, to better understand the medical histories, conditions, and the medical management of these children.

csun speech pathology masters: Opportunities in Speech Language Pathology Patricia Larkins Hicks, 2006-10-12 Discusses a variety of speech therapy career options, highlighting working conditions, salaries, benefits, qualifications, educational requirements, and training programs.

csun speech pathology masters: Neurogenic Communication Disorders Linda Worrall, Carol M. Frattali, 2011-01-01 This book is the first to fully define and describe the functional approach to neurogenic communication and swallowing disorders. Featuring contributions from leading experts and researchers worldwide, this volume outlines diverse treatment and assessment strategies using the functional approach, also examining them from a consumer and payer perspective. These strategies are designed to improve the day-to-day life of patients, while providing third parties with the practical outcomes they seek. This outstanding book is ideal for SLPs and graduate students in speech-language pathology programs.

csun speech pathology masters: The Clinical Education and Supervisory Process in Speech-Language Pathology and Audiology Elizabeth McCrea, Judith Brasseur, 2024-06-01 As with the actual practices of speech-language pathologists and audiologists, clinical education and supervision practices work best when they are grounded not only in concept and theory but also in research. Designed to act as a complete guide to both the theory and the research, *The Clinical Education and Supervisory Process in Speech-Language Pathology and Audiology* provides the most up-to-date information on these crucial topics. Following in the footsteps of their mentor, Jean Anderson, Drs. Elizabeth McCrea and Judith Brasseur have taken on the task of assembling important current research and best practices in clinical education and supervision into one comprehensive resource. With their prestigious team of contributing authors, this text represents the culmination of decades of study and real-world best practices. *The Clinical Education and Supervisory Process in Speech-Language Pathology and Audiology* covers clinical education and supervision across five unique constituent groups: clinical educators of graduate students, preceptors of audiology externs, mentors of clinical fellows, supervisors of support personnel, and supervisors of professionals transitioning between work settings. It also includes the latest information on certification and accreditation requirements for preparation in supervision. Topics include Foundations: Anderson's Continuum of Supervision Components of the Process Expectations for Supervision Practical Research in Supervision Literature from other Disciplines Obtaining Feedback About the Supervisory Process The Ethics of Clinical Education and Supervision Supervisor Self-Study and Accountability Interprofessional Education and Practice in Clinical Education and Supervision Chapter appendices add numerous ancillary materials, allowing readers to easily adopt the most successful processes and strategies the research has revealed. Sample scripts of supervisory conferences, self-assessment tools, action plan tools, and analysis systems can all be found inside. *The Clinical Education and Supervisory Process in Speech-Language Pathology and Audiology* is intended as a primary resource for anyone in those professions in any setting who is engaged in the process of clinical education and supervision. With this text as their guide, clinical educators and supervisors will be able to ground their practices in the vast compiled research and study contained within.

csun speech pathology masters: College and University Programs in Speech Pathology and Audiology American Speech and Hearing Association, 1968

csun speech pathology masters: Treatment Resource Manual for Speech Language Pathology Froma P Roth, Colleen K. Worthington, 2010-11-01 TREATMENT RESOURCE MANUAL FOR SPEECH-LANGUAGE PATHOLOGY, International Edition is an ideal text for students entering into a clinical practicum. Not only are basic therapy and information reporting techniques discussed, but intervention strategies for working with unique child and adult client populations are covered in a well-written and concise manner. The new edition has been completely revised and contains

significantly expanded information on language disorders in children including early intervention, response-to-intervention (RTI) service delivery model, metalinguistic skills, and appropriate instructional strategies for the development of writing skills. An expanded discussion of issues in articulation and phonology disorders including treatment models, and goal selection strategies is also included. Updated references, evidence-based practice, and additional resources are provided for all chapters, making the fourth edition of Treatment Resource Manual for Speech-Language Pathology the most comprehensive text available on the treatment of communication disorders.

csun speech pathology masters: A Guide to Clinical Assessment and Professional Report Writing in Speech-Language Pathology Cyndi Stein-Rubin, Renee Fabus, 2011-06-23 A GUIDE TO CLINICAL ASSESSMENT AND PROFESSIONAL REPORT WRITING IN SPEECH-LANGUAGE PATHOLOGY, 1E not only provides guidance for the often overwhelming process of assessing speech and language disorders but also offers robust diagnostic report writing tools in one user-friendly resource. Organized by disorder, this book is the only one to provide a sample report for each of the major communicative disorders discussed. It also includes a chapter devoted to basic report writing skills and grammar. The assessment aspects of the book offer an in-depth chapter on counseling, a detailed and comprehensive chapter on dysphasia for both pediatric and adult populations, and a clear and practical chapter on assessment of accent. Each chapter is written by experts in their area of communication disorders and provides the following information: background and characteristics of the disorder; parameters for assessment; pertinent interview questions; an inventory and explanation of relevant formal and informal assessment measures in narrative and table format; a section on differential diagnosis to assist in teasing out the specific problem; and a sample case history with assessment tools chosen for that vignette along with rationale for making such selections. All this information is woven into a sample diagnostic report and a similar assignment is provided for practice, making this an ideal resource for ESL learners as well as students preparing for the praxis. Every chapter includes a list of key vocabulary and a glossary to familiarize your students with the professional vernacular relevant for writing diagnostic reports. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
