fort sill basic training start dates 2024: *A HERO'S JOURNEY* Mose M. Kinsey, 2024-07-25 What's a Hero? Heroes come in all shapes, sizes, ages, and Male or Female. They are everyday people in our communities and society. The label Hero is given to someone for many reasons. The first thing that comes to mind are acts of bravery on the battlefield; a Police Officer in the line of duty; a Firefighter pulling someone from a burning or building. The word Hero is a very complex term and it has evolved over time. A Hero can be someone whom inspires others to do a common good for themselves and others in their community. One that sets high standards for himself or herself. Someone whose deeds and accomplishments are worthy of praise by others. One that overcame tremendous odds against them and inspired others to do the same. They are people whom are not afraid to stand up for what they believe is right. Someone whom helps when the benefit and praise is knowingly going to someone else. Soldiers whom chose to defend our country while knowing and understanding that they may not survive their journey of service to their Country. By Mose M. Kinsey

fort sill basic training start dates 2024: *Spymaster* Gordon Stewart, 2024-10-07 Germany was the epicenter of the Cold War. Across the Iron Curtain, hundreds of thousands of soldiers faced each other, and if World War III were to break out, contemporaries feared, surely it would happen here. The country's frontline status made it an El Dorado for spies, who gathered information on military targets, penetrated political parties, and trained partisans for stay-behind operations. For the Americans, the Central Intelligence Agency (CIA) came to take the lead in this silent - and sometimes not so silent - contest. In the heyday of the Cold War, the agency's German station employed nearly two thousand officers - in addition to countless spies and informants. Ultimately, this covert empire reported to the CIA station chief in West Germany and his deputy. And for many years, either of those positions was held by Gordon Matthews Stewart. Gordon Stewart was well prepared for this assignment. He studied German history and literature during the 1930s and lived in Munich and Hamburg as a visiting student. Here, he personally witnessed the Nazi takeover, even catching a glimpse of Adolf Hitler at one of his notorious rallies. When the United States entered the war in 1941, the newly established Office of Strategic Services (OSS) recruited him as a specialist on

German affairs. In the summer of 1945, he arrived in Germany with an OSS detachment. Eventually, the OSS morphed into the CIA, and Gordon Stewart would run the agency's espionage organization in Germany for some twenty years. From CIA headquarters in Heidelberg, Karlsruhe, Frankfurt, and eventually, Bonn, Mr. Stewart directed all intelligence operations in central Europe. Initially, he hunted down Nazi war criminals, but the Cold War compelled him to bend his efforts toward the Soviet bloc. During the 1950s, Mr. Stewart directed espionage operations against East Germany, organized the training of Ukrainian partisans at U.S. bases in Bavaria, and participated in a scheme to dig a tunnel into East Berlin to eavesdrop on Soviet and East German communications. He also recruited and handled sources inside the West German government, including the chief of the Bundesnachrichtendienst, Reinhard Gehlen; the highest-ranking West German military officer, General Adolf Heusinger; and top policy-makers of the Christian and social democratic parties. Mr. Stewart's memoirs, introduced by renowned intelligence scholar Thomas Boghardt, offer not only a fascinating look inside the CIA's largest overseas station; they also tell the story of a deeply conscientious and highly accomplished intelligence officer, whose experience, intellect, and moral compass shaped American policy toward Germany and Europe during the turbulent years of the early Cold War.

fort sill basic training start dates 2024: Fuses and Firepower James Harris, 2024-09-12 In the annals of history, where tales of valor and sacrifice are often synonymous with the front lines of battle, there exists an equally compelling narrative of those whose courage and dedication made the victories of war possible. *Fuses and Firepower: Stories of George and Marie Menkoff and the 385th Bomb Group* is such a historical fiction anthology narrative based on extensive research, shedding light on the unsung heroes of World War II—those who worked tirelessly behind the scenes,

ensuring that the machinery of war operated with precision and effectiveness. This book is a tribute to Corporal George Menkoff, an ordnance specialist in the 8th Air Force, who served with the 385th Bomb Group, 550th Squadron, from July 1943 until the war's end. George's role was both critical and dangerous, loading bombs into the formidable B-17 Flying Fortresses that would deliver devastating blows to enemy targets. His expertise, precision, and unwavering commitment were vital to the success of countless missions. Yet, his story, like those of so many others in his position, is often overshadowed by the more visible acts of heroism in the skies above. But George's story is not just about the bombs he loaded or the missions he supported; it is also a story of endurance and love on the home front. Marie Menkoff, his wife, exemplifies the strength and resilience of the countless women who maintained the fabric of society during the war. Her experiences, her hopes and fears, and her unwavering support for George paint a vivid picture of life on the home front, a life filled with its own battles and triumphs. Together, George and Marie's stories offer a profound reminder of the interconnectedness of war—the front lines and the home front, the bombs and the letters, the fear and the hope. Their lives, woven into the broader tapestry of the 385th Bomb Group's history, remind us that war is not just about the battles fought but also about the human spirit that endures them. As you turn these pages, you will be transported to a time when the world was at war, and ordinary people like George and Marie did extraordinary things. May their stories serve as a lasting testament to the quiet bravery and steadfast resolve of those who served, both in the air and on the ground, and to the enduring power of love and duty in the face of unimaginable challenges.

fort sill basic training start dates 2024: The War in Ukraine Egle Elena Murauskaite, 2024-07-22 Since 2014 the conflict in Ukraine has escalated from an internal crisis into an ongoing full scale conventional war. The extensive public documentation and commentary on these unfolding events present an opportunity for empirical research yet untainted by hindsight perspectives. Drawing on an extensive regional network of local stakeholders and experts, this book combines

theoretical insights with practical reflections on the efficacy of a selected range of tools employed by the West to assist Ukraine, such as the provision of military assistance, troop training, intelligence sharing, information campaigns, early crisis signaling by aircraft carrier deployments, and coalition building efforts. Bridging the gap in open-source studies between academic research and practitioner assessments, the authors discuss how these specific measures correspond with theoretical assessments of the effects they are due to produce, as well as with the expectations about their performance held by the deploying policy makers and their audience. As the war continues to unfold, and the reality on the ground, as well as emerging new data, mean a constantly shifting landscape, this volume will be a valuable resource for anyone interested in the conflict in Ukraine.

fort sill basic training start dates 2024: *Bazooka Charlie* James P. Busha, Carol Apacki, 2023-05-28 A revealing biography of Lt. Col. Charles Bazooka Charlie Carpenter, a U.S. Army pilot who served in WWII and is most known for destroying several enemy armored vehicles in his bazooka-equipped L-4 Grasshopper light observation aircraft. Major Charles Carpenter made headlines during the Second World War when he affixed six bazookas to his tiny Piper L-4 observation plane and began attacking German tanks. "Bazooka Charlie" and his plane "Rosie the Rocketeer" were profiled in a variety of military and civilian publications, including the iconic Stars & Stripes. The major was a high school educator in the civilian world, teaching history and coaching football. In 1945, the dashing pilot was forced out of the cockpit and into a hospital bed by Hodgkin's lymphoma, which was discovered in his neck. In addition to the enemy and terminal cancer, Carpenter also battled cynicism and guilt, particularly in regard to the state of his marriage, which was on the brink of failure by the time he returned home from Europe. Charles Carpenter died in 1966, having resumed his career, salvaged his marriage, and long outlived the timeline afforded him by his doctors in the initial prognosis. This revealing biography of the famous pilot was made possible through the collaboration of noted aviation author and magazine editor Jim Busha, and Carpenter's daughter, Carol Apacki. Along with memories of her father in his postwar years, Carol provided a treasure trove of wartime correspondence between Charles and his wife, Elda Carpenter.

fort sill basic training start dates 2024: *North Carolina's Experience during the First World War* Shepherd W. McKinley, Steve Sabol, 2024-01-12 As America's involvement in World War I approached its centennial, state-level histories and commemoration of the Great War abounded. While North Carolina's role in the First World War has yet to attract such intense scholarly interest, a much-needed picture of the wartime Tar Heel state has nevertheless begun to emerge from newly published firsthand accounts of the war and sustained attention to the state's wartime politicians. The essays in *North Carolina's Experience during the First World War*, skillfully edited by Shepherd W. McKinley and Steven Sabol, provide in-depth interpretation of the state's involvement in WWI. As topics range from soldiers and the military, to women and the home front, to politics and labor issues, a detailed picture emerges of the war's influence on the developing modern state and the ascendant bureaucratic social order. As this anthology makes clear, wars provide the opportunity for unsettling old patterns of power and culture. Unlike the Civil War and Second World War, however, the First World War would have relatively little effect on North Carolina's race relations, class arrangements, gender roles, economic order, and political leadership. What changed more dramatically was the relationship between business and government. Indeed, government took an unprecedented place in the fabric of society and the economy as the "war to end all wars" left its indelible mark on the individuals and families who served. SHEPHERD W. MCKINLEY is a senior lecturer in the Department of History at the University of North Carolina at Charlotte. He is the author of *Stinking Stones and Rocks of Gold: Phosphate, Fertilizer, and Industrialization in Postbellum South Carolina* and *North Carolina: New Directions for an Old Land*. STEVEN SABOL is an associate professor of history at the University of North Carolina at Charlotte. He is the author of *Russian Colonization and the Genesis of Kazak National Consciousness*.

fort sill basic training start dates 2024: *In a Time of War* Bill Murphy, 2008-09-16 The dramatic story of West Point's class of 2002, the first in a generation to graduate during wartime. They came to West Point in a time of peace, but soon after the start of their senior year, their lives were transformed by September 11. The following June, when President George W. Bush spoke at their commencement and declared that America would take the battle to the enemy, the men and women in the class of 2002 understood that they would be fighting on the front lines. In this stirring account of the five years following their graduation from West Point, the class experiences firsthand both the rewards and the costs of leading soldiers in the war on terror. *In a Time of War* focuses on two members of the class of 2002 in particular: Todd Bryant, an amiable, funny Californian for whom military service was a family tradition; and Drew Sloan, the hardworking son of liberal parents from Arkansas who is determined to serve his country. On the battlefields of Iraq and Afghanistan, Todd, Drew, and their classmates—the army's newest and youngest officers—lead their troops into harm's way again and again. Meticulously reported, sweeping in scope, Bill Murphy Jr.'s powerful book follows these brave and idealistic officers—and their families—as they experience the harrowing reality of the modern battlefield. *In a Time of War* tells a vivid and sometimes heartbreaking story about courage, honor, and what war really means to the soldiers whose lives it defines.
