**fort sill basic training graduation 2024: A HERO'S JOURNEY** Mose M. Kinsey, 2024-07-25  
What's a Hero? Heroes come in all shapes, sizes, ages, and Male or Female. They are everyday people in our communities and society. The label Hero is given to someone for many reasons. The first thing that comes to mind are acts of bravery on the battlefield; a Police Officer in the line of duty; a Firefighter pulling someone from a burning building. The word Hero is a very complex term and it has evolved over time. A Hero can be someone whom inspires others to do a common good for themselves and others in their community. One that sets high standards for himself or herself. Someone whose deeds and accomplishments are worthy of praise by others. One that overcame tremendous odds against them and inspired others to do the same. They are people whom are not afraid to stand up for what they believe is right. Someone whom helps when the benefit and praise is knowingly going to someone else. Soldiers whom chose to defend our country while knowing and understanding that they may not survive their journey of service to their Country. By Mose M. Kinsey

**fort sill basic training graduation 2024: Spymaster** Gordon Stewart, 2024-10-07 Germany was the epicenter of the Cold War. Across the Iron Curtain, hundreds of thousands of soldiers faced each other, and if World War III were to break out, contemporaries feared, surely it would happen here. The country's frontline status made it an El Dorado for spies, who gathered information on military targets, penetrated political parties, and trained partisans for stay-behind operations. For the Americans, the Central Intelligence Agency (CIA) came to take the lead in this silent - and sometimes not so silent - contest. In the heyday of the Cold War, the agency's German station employed nearly two thousand officers - in addition to countless spies and informants. Ultimately, this covert empire reported to the CIA station chief in West Germany and his deputy. And for many years, either of those positions was held by Gordon Matthews Stewart. Gordon Stewart was well prepared for this assignment. He studied German history and literature during the 1930s and lived in Munich and Hamburg as a visiting student. Here, he personally witnessed the Nazi takeover, even catching a glimpse of Adolf Hitler at one of his notorious rallies. When the United States entered the war in 1941, the newly established Office of Strategic Services (OSS) recruited him as a specialist on German affairs. In the summer of 1945, he arrived in Germany with an OSS detachment. Eventually, the OSS morphed into the CIA, and Gordon Stewart would run the agency's espionage organization in Germany for some twenty years. From CIA headquarters in Heidelberg, Karlsruhe, Frankfurt, and eventually, Bonn, Mr. Stewart directed all intelligence operations in central Europe. Initially, he hunted down Nazi war criminals, but the Cold War compelled him to bend his efforts toward the Soviet bloc. During the 1950s, Mr. Stewart directed espionage operations against East Germany, organized the training of Ukrainian partisans at U.S. bases in Bavaria, and participated in a scheme to dig a tunnel into East Berlin to eavesdrop on Soviet and East German communications. He also recruited and handled sources inside the West German government, including the chief of the Bundesnachrichtendienst, Reinhard Gehlen; the highest-ranking West German military officer, General Adolf Heusinger; and top policy-makers of the Christian and social democratic parties. Mr.

Stewart's memoirs, introduced by renowned intelligence scholar Thomas Boghardt, offer not only a fascinating look inside the CIA's largest overseas station; they also tell the story of a deeply conscientious and highly accomplished intelligence officer, whose experience, intellect, and moral compass shaped American policy toward Germany and Europe during the turbulent years of the early Cold War.

**fort sill basic training graduation 2024: Uncommon Valor** Dwight Jon Zimmerman, John D. Gresham, 2024-05-01 A fascinating look at six of our bravest soldiers who fought in Afghanistan and Iraq, recipients of the highest military decoration awarded in America. Winner of the Military Writers Society of America's Highest Honor: The Founder's Award Since the Vietnam War ended in 1973, the Medal of Honor, our nation's highest award for valor, has been presented to only eight men for their actions above and beyond the call of duty. Six of the eight were young men who had fought in the current war in Iraq, Afghanistan, or both. All of these medals were awarded posthumously, as all had made the choice to give their lives so that their comrades might live. Uncommon Valor answers the searing question of who these six young soldiers were, and dramatically details how they found themselves in life-or-death situations, and why they responded as they did. For the first time, this book also provides a comprehensive history of the Medal of Honor itself—one marred by controversies, scandals, and theft. Using an extraordinary range of sources, including interviews with family members and friends, teammates and superiors in the military, personal letters, blogs posted within hours of events, personal and official videos and newly declassified documents, Uncommon Valor is a compelling and important work that recounts incredible acts of heroism and lays bare the ultimate sacrifice of our bravest soldiers.

**fort sill basic training graduation 2024: *We See You!*** Daisy M. Jenkins, 2024-08-26 One warm Arizona morning, Daisy Jenkins was talking with God during her daily walk and lamenting to Him about the negativity, vitriol, and hatred permeating US news media. Whatever happened to kindness and goodness? Jenkins wondered. Why didn't newspapers and TV broadcasts ever highlight stories of love and support, especially in the wake of the devastating COVID-19 pandemic? Instead, American society was being bombarded with reporting on the violence, mass shootings, political wrangling, and racial injustice that kept our country angry, mistrustful, and constantly on edge. God, Jenkins said, somebody needs to write more about the positive things happening in our world today. God's answer was immediate: You're a writer. Why don't you write something positive and stop waiting for someone else to do it? As soon as Jenkins heard this call to action, she got to work. This book features thirty amazing men, ranging in age from twenty-two to ninety-eight, with heartfelt and inspiring life stories to share. Their experiences may not be a cure-all for the troubles of this world, but they offer us precious liberation, even for a short while, from negativity. They remind us that when we look for goodness, we will find that it is still alive and well and that it's high time we shine a brighter light on it to reveal the truth that the more we see the goodness around us, the more we allow others to see it within us.

**fort sill basic training graduation 2024: *Voices from Haskell*** Myriam Vuckovic, 2024-08-09

Haskell Institute of Lawrence, Kansas, first opened its doors in 1884 to twenty-two Ponca and Ottawa children, sent there to be taught Anglo-Protestant cultural values. For a century and a quarter since that time, this famous boarding school institution has challenged and touched the lives of tens of thousands of Indian students and their families representing a diverse array of tribal heritages. *Voices from Haskell* chronicles the formative years of this unique institution through the vivid memories and words of the students who attended. Drawing on children's own accounts in letters, diaries, and other first-hand sources, Myriam Vuckovic reveals what Haskell's students really thought about the boarding school experience. By examining the cultural encounters and contests that occurred there, she portrays indigenous youth struggling to retain a sense of dignity and Indian identity-and refusing to become passive victims of assimilation. Vuckovic focuses on issues that directly affected the students, such as curriculum, health, gender differences, and extracurricular activities. She doesn't flinch from the harsh realities of daily life: poor diet, overcrowding, inadequate medical care, and students forced to work to maintain school facilities and often subjected to harsh punishments. In response to this hostile environment, students developed a subculture of accommodation and resistance-sometimes using sign language as a way around the English only rule-that also helped break down barriers between tribes. Many found a positive experience in the education they received and discovered new sources of pride, such as the Native American Church, Haskell's renowned football team, and its equally accomplished school band. Haskell is the only former government boarding school to evolve into a four-year university and still boasts a unique intertribal character, providing a culturally diverse learning environment for more than 1,000 students from 150 tribes every year. The first in-depth study of the school from its founding through the first quarter of the twentieth century, *Voices from Haskell* is a frank look at its history, a tribute to its accomplishments, and a major contribution to studies of the Indian boarding school experience.

**fort sill basic training graduation 2024: The Ageless Call to Serve** Lanny L. Snodgrass, 2024-09-30 "Defying age barriers, Dr. Snodgrass joined as a soldier at 63, shifting from psychiatrist to trailblazer in military thinking. In *The Ageless Call to Serve* he champions the seasoned battlefield, advocating for wisdom over youth in warfare. This thought-provoking narrative traverses military readiness, policy evolution, and the psychological impacts of deploying teenagers into conflict." — Robert J. Schneider, Lieutenant Colonel, USA (Ret.), former Director of Research, Department of Military Psychiatry An 18-year-old in the United States is still barred from buying alcohol, acquiring a pilot's license, or stepping into a casino. Yet, astonishingly, they can be enlisted in the military, trained in weapon handling, and deployed to a war zone. On the other side of the age spectrum, individuals over 39, regardless of their skills or experience, often encounter insurmountable obstacles to enlistment. Break this mold and meet Lanny Snodgrass, who, at the age of 63, became the oldest American to join the Army and complete officer basic training. It was 2003, the Iraq War had just started, and the Pentagon, grappling with a severe shortage of military doctors, momentarily relaxed age requirements. Recognizing an opportunity, Dr. Snodgrass stepped in to serve. With around four decades of experience treating veterans and active-duty military personnel, many teenagers grappling with psychiatric illnesses such as PTSD, depression, and suicidality, Dr. Snodgrass bears unique insight into the perils of sending young soldiers to war. He has seen firsthand the walking wounded, those who have served in multiple deployments and are often on the brink of despair. This book represents a culmination of these experiences. As a late-joining physician and one of the leading experts on PTSD, Dr. Snodgrass poses critical questions about the limits of service and whether these age constraints should be maintained or relaxed. He scrutinizes the age limits on military service, addressing the antiquated criteria that have remained largely unchanged for over a century. If we continue to send our young to war while overlooking the potential of older, willing Americans, tragic consequences will persist. It's not an overstatement, then, to say that *The Ageless Call to Serve* presents a life-and-death proposition on how to build a more resilient, professional military force.
