Ashburn, Virginia 20147 (571) 223-2230 OnceandFutureWoman@Peoplepc.com We are introduced to a woman who has had a weekend tryst at the Mayflower Hotel in Washington, DC. When she awakens, the man has left and the woman finds a handwritten note from him that devastates her. Feeling betrayed, and without thinking, she leaves the hotel in a hurry and is promptly mowed down in the street by a Harley. A handsome stranger stoops down to feel her pulse points to find out whether she is alive or dead, then fumbles through her purse that has been wrenched from her grasp because of the accident. He is shocked to discover her identity. Moving to the toney suburbs of Washington, we meet the privileged Frances Bittle Adler and her handsome husband, Bill, a high-placed executive, and we meet their four children three gorgeous girls and one handsome son ages 13 to 21. Frances, a college professor, is quite accomplished, and Bill seems to be the ideal husband. But, a malady that has plagued Fran for some time now comes to the fore and causes Bill to have to rush his wife to the hospital the morning after Christmas. We move back to the scene of the first woman's accident and find that debris has been cleaned up and the handsome stranger has disappeared along with the woman's purse. At Washington General Hospital, we find that the woman has survived her ordeal largely because of the efforts of Dr. Pete Gregory, a handsome six-foot-six piece of manhood, who appraises her of her injuries and of what steps he will have to take in order to get her back to normalcy. Intermittently, the woman lapses into unconsciousness and has peculiar dreams. In another part of the same hospital, Frances is examined, and protests having to be admitted for tests, but Bill assures her that he and the kids will be fine without her. After a while, the two of them realize that the other bed in the room is occupied by a wizened old woman with grayish cat eyes, Hester Culpepper Rockefeller, who doesn't seem to know where she, who she is, or even what day it is. Francine Hacker, a very attractive, tall African American nurse, comes to attend to the old woman, Hester, who promptly repels her by calling her every name in the book, including the N word. Cut to 1944, and we are made aware of Hester's background and motivations for her behavior. Chapter XIII reveals a great deal about the life of the woman involved in the accident, especially about her relationship with her grandmother, Millie, and about the woman touched by miracles. In the ensuing chapters, we learn that Bill is not the man he seems to be. We are made privy to Francine Hacker's enigmatic life. Now, because Hester has passed on, the two women, Fran and LaDeane, are made roommates and, thus, begin a relationship that will last for quite some time. They also get to know nurse Hacker extremely well. And, when LaDeane is released from the hospital, both Frances and Hacker petition to come and see her in her office. LaDeane wonders who will come to see her first as both Hacker and Frances are needy. Because Bill, a bi-coastal husband, has been offered a very powerful position with another corporation headquartered in Washington, DC, he prepares to move back East from Los Angeles where his old company is headquartered. Another chapter marks a special time in Bill's life; now he gets to visit his new offices in a prestigious part of Northwest Washington, DC, and having familiarized himself with the layout and having made himself acquainted with those who will work for

fourth of july trivia questions and answers free: Part of Our Lives Wayne A. Wiegand, 2015-09-10 Despite dire predictions in the late twentieth century that public libraries would not survive the turn of the millennium, their numbers have only increased. Two of three Americans frequent a public library at least once a year, and nearly that many are registered borrowers. Although library authorities have argued that the public library functions primarily as a civic institution necessary for maintaining democracy, generations of library patrons tell a different story. In *Part of Our Lives*, Wayne A. Wiegand delves into the heart of why Americans love their libraries. The book traces the history of the public library, featuring records and testimonies from as early as 1850. Rather than analyzing the words of library founders and managers, Wiegand listens to the voices of everyday patrons who cherished libraries. Drawing on newspaper articles, memoirs, and biographies, *Part of Our Lives* paints a clear and engaging picture of Americans who value libraries not only as civic institutions, but also as public places that promote and maintain community. Whether as a public space, a place for accessing information, or a home for reading material that helps patrons make sense of the world around them, the public library has a rich history of meaning for millions of Americans. From colonial times through the recent technological revolution, libraries have continuously adapted to better serve the needs of their communities. Wiegand demonstrates that, although cultural authorities (including some librarians) have often disparaged reading books considered not serious, the commonplace reading materials users obtained from public libraries have had a transformative effect for many, including people such as Ronald Reagan, Bill Moyers, Edgwin Danticat, Philip Roth, Toni Morrison, Sonia Sotomayor, and Oprah Winfrey. A bold challenge to conventional thinking about the American public library, *Part of Our Lives* is an insightful look into one of America's most beloved cultural institutions.
