Understanding Sentence Fragments

Sentence fragments are incomplete sentences that lack either a subject, a verb, or a complete thought. They fail to express a full idea, making the writing unclear or awkward. A fragment might be a dependent clause, a phrase, or a single word standing alone without the necessary elements to form a complete sentence. Recognizing sentence fragments is the first step toward improving writing clarity and coherence.

Definition and Characteristics of Fragments

Fragments are groups of words that do not form a complete sentence. They often lack a main verb or subject, or they begin with subordinating conjunctions such as "because," "although," or "when," without completing the thought. For example, "Because of the rain" is a fragment because it leaves the reader expecting more information.

Common Types of Sentence Fragments

Several types of fragments commonly appear in writing:

- **Dependent Clause Fragments:** Clauses that cannot stand alone, e.g., "When we arrived."
- **Phrase Fragments:** Groups of words missing a subject or verb, e.g., "Running down the street."
- **Single-Word Fragments:** Words used as sentences without context, e.g., "Yes."

Identifying Run-On Sentences

Run-on sentences occur when two or more independent clauses are joined without proper punctuation or conjunctions. This error can confuse readers by merging ideas without clear separation, leading to overly long or confusing sentences. Distinguishing run-ons from correctly formed compound or complex sentences is crucial for effective writing.

Definition and Types of Run-On Sentences

A run-on sentence improperly connects independent clauses without the necessary comma and coordinating conjunction or appropriate punctuation such as a semicolon. Two common types are fused sentences and comma splices. A fused sentence joins clauses without any punctuation, while a comma splice uses a comma incorrectly to connect clauses.

Examples of Run-On Sentences

Consider the sentence: "She loves to read she goes to the library often." This is a fused sentence lacking punctuation between two independent clauses. Alternatively, "She loves to read, she goes to the library often" is a comma splice, which also requires correction.

fragments and run ons worksheet: Learning to Teach English and the Language Arts

Peter Smagorinsky, 2020-04-16 Drawing together Smagorinsky's extensive research over a 20-year period, *Learning to Teach English and the Language Arts* explores how beginning teachers' pedagogical concepts are shaped by a variety of influences. Challenging popular thinking about the binary roles of teacher education programs and school-based experiences in the process of learning to teach, Smagorinsky illustrates, through case studies in the disciplines of English and the Language Arts, that teacher education programs and classroom/school contexts are not discrete contexts for learning about teaching, nor are each of these contexts unified in the messages they offer about teaching. He explores the tensions, not only between these contexts and others, but within them to illustrate the social, cultural, contextual, political and historical complexity of learning to teach. Smagorinsky revisits familiar theoretical understandings, including Vygotsky's concept development and Lortie's apprenticeship of observation, to consider their implications for teachers today and to examine what teacher candidates learn during their teacher education experiences and how that learning shapes their development as teachers.

fragments and run ons worksheet: *An Unquiet Pedagogy* Eleanor Kutz, Hephzibah Roskelly, 1991 An Unquiet Pedagogy argues for a new approach to teaching English in the high

school and college classroom, one that reconceives the relationship of literacy and the learner. The title is taken from an essay by Paulo Freire in his book with Donaldo Macedo entitled *Literacy: Reading the Word and the World*. Like Freire, the authors believe that pedagogy must be critical -- that it must examine the assumptions that teachers and students bring to any educational enterprise, that it must take into account the contexts of learners' lives, and that it must question, rather than quietly accept, existing practices. Voices of beginning and experienced teachers are heard often in the book, exploring how such an unquiet pedagogy might come to be. The authors examine the experiences of these teachers, as well as their own, showing how the classroom can become a place of inquiry for both teachers and students and how theory and research that provide an integrated perspective on language, literacy, and culture must inform teaching practice. Their aim is to transform the English classroom into a place where the imagination becomes central and where learners construct knowledge in the development of real literacy.

fragments and run ons worksheet: *Just Say the Word!* G. Robert Jacks, 1996 Over the years, I've heard some wonderful sermons, writes G. Robert Jacks. I've also heard some duds. Some have been so extemporaneous they sounded as if the preacher hadn't prepared anything. Some have been such wondrously crafted literary pieces they sounded as if the preacher wanted to sound wondrously crafted and literary. Some have sounded as though the preacher were giving a lecture or reading a term paper. That's because the preacher had written a lecture or term paper. And some have captured the attention and the imagination and set the spark to ignite faith in the hearer. That's because they were written to be listened to, and to appeal to the sense-world of the hearers. Drawing on nearly thirty years of experience in critiquing sermon delivery, Jacks here offers a practical, hands-on approach to writing sermons that consider listeners first. Jacks gives samples and examples of writing that effectively captures and holds an audience's attention, and he offers practical tips and suggestions intended to help each of us find a preaching style and voice of our own. He also shows how to translate the jargon of theological textbooks into everyday language, suggests methods for rewriting sermons to avoid some of the pomposity of sermonic proclamation, and demonstrates ways to retell biblical narratives in fresh and imaginative ways. *Just Say the Word! Writing for the Ear* is a valuable resource that will help pastors and lay leaders communicate as effectively as possible the faith that is ours to share.
