Elliot Stevens? I am the founder of FunAlligator.com. I was a computer geek while I worked at Silicon Valley. Nowadays I spend my days creating puzzle books keeping alive that passion for 'cracking the code.' My books are crafted with much love and appreciation. Why I created these books? I did experience more focus and mental agility while I was pushing my mental solving skills further. For instance, solving hard Sudoku puzzles or long math calculations in my mind. That made me realize that I could help my brain to be ready to seize the moment when needed if I keep challenging my mind. Once I finished numerous puzzles on the internet, I started creating my own challenges. I said to myself that I should be sharing this opportunity with everybody. Then I was creating abundant puzzles and encapsulated them in books. You will notice the extra mental strength after a bit.
