iberia airlines business class a330: Buying the Big Jets Paul Clark, 2017-07-14 Selecting the right aircraft for an airline operation is a vastly complex process, involving a multitude of skills and considerable knowledge of the business. Buying the Big Jets has been published since 2001 to provide expert guidance to all those involved in aircraft selection strategies. This third edition brings the picture fully up to date, representing the latest developments in aircraft products and best practice in airline fleet planning techniques. It features a new section that addresses the passenger experience and, for the first time, includes regional jet manufacturers who are now extending their product families into the 100-plus seating category. Overall, the third edition looks at a broader selection of analytical approaches than previously and considers how fleet planning for cost-leader airlines differs from that of network carriers. Buying the Big Jets is an industry-specific example of strategic planning and is therefore a vital text for students engaged in graduate or post-graduate studies either in aeronautics or business administration. The book is essential reading for airline planners with fleet planning responsibility, consultancy groups, analysts studying aircraft performance and economics, airline operational personnel, students of air transport, leasing companies, aircraft value appraisers, and all who manage commercial aircraft acquisition programmes and provide strategic advice to decision-makers. It is also a valuable tool for the banking community where insights into aircraft acquisition decisions are vital.

iberia airlines business class a330: Havayollarında hizmet: konfor, faaliyet ve performans ilişkisinin değerlendirilmesi Dr. Tüzün Tolga İNAN, 2019-10-20 17 Aralık 1903 tarihinde Wright Kardeşlerin ilk başarılı motorlu uçuş denemesiyle başlayan sivil havacılık tarihi günümüzde dünyanın en büyük endüstrilerinden biri haline gelmiştir. Her ne kadar 2003 yılına kadar ülkemiz için sivil havacılık büyük bir aşama kaydetmese de, 2003 yılından sonra milat niteliğinde gelişmeler gerçekleşmiştir. Doktor ünvanını aldığım halen sivil havacılık alanında lisanslandırmaya sahip tek Üniversite olan Anadolu Üniversitesi ile başlayan sivil havacılık alanında ihtisas veren Üniversite ve Meslek Yüksekokulları, özellikle 2011 yılından itibaren sayıca üst limitlere ulaşmıştır. Ancak unutmamak gerekir ki, havacılık bir nevi aşkla ifa edilmesi gereken bir meslektir. İçerisinde pilotaj, hat ve bakım teknisyenliği, uçuş hareket yöneticiliği (dispeçerlik), uçuş

ve misafir kontrol uzmanlığı, kabin, hareket, yolcu hizmetleri ve kargo memurluğu olmak üzere birçok iş tanımlı bulundurmaktadır. Kendim için düşündüğüm zaman bana havacılığı sevdiren kişi babam olmuştur. Özellikle sektörel olarak 30 yılın üzerinde Türk Hava Yolları tecrübesinin bulunması ve beni havacılık alanında doktora yapmaya itmesi kariyerim için en önemli adımlardan bir tanesi oldu. Tabii herşey burada anlatmak istediğim kadar güllük gülistanlık olmamakla birlikte, vardiyalı çalışma düzeni ve yoğun tempo havacılığın olmazsa olmazıdır. Bu nedenle öğrencilere ve bu alanda kariyer yapmak isteyenlere tavsiyem, havacılığın para için yapılacak bir meslek olmadığına bilincinde olmaları gerektiğidir. Bu kitabı yayımlama sebeplerimden bir tanesi de kamuoyu tarafından bilinmeyen ya da bilindiği zannedilen bu endüstride hizmet-konfor ve performans parametrelerinin ne olduğunun ve bir havayolu şirketini hangi ölçüde etkilediğini göstermek istememdir. Bu kitap umarım hem akademik hem de sektörel camiada tüm havacılık çalışanlarına ve havacılık sevdalılarına faydalı olacak bir eser olacaktır. Unutmamak gerekir ki burada önemli olan konu 5 yıllık değerler ile 2016 yılında hangi verilerin elde edildiği değil, bu verilerin havacılık şirketleri için öneminin farkına varılması olacaktır.
