i would never cheat bang bus: From Tragedies to Happiness Lori M. Radosny, 2015-02-28
From Tragedies to Happiness: My True Stories is a memoir of my life. I have been through five tragedies that I describe in the book-they are being molested as a child, suffering from deep depression, a suicide attempt, deaths of my parents and brother, Walt, and bankruptcy. I was thinking one day, that I have been through a lot of tragedies in my life, and I am still a happy person today. I wrote the book to let people know that even though they go through one or more tragedies in their life, they can move forward and lead a happy life, as I have. If another tragedy strikes, take care of it the best way you know how and again move forward. I discuss in detail each tragedy. I also have included two-line rhymes regarding the health-care field. I wrote about seventy of them in three days. They just kept coming to me. I also parody some songs that I have adapted to include the health-care field. I have as Chapter 1, the love story of myself and Dave Herzig. We have been together for twenty-five years after meeting in a summer Friday night bowling league in 1989, and we are more in love today than when we first fell in love with each other in 1989. I found a man who loves me when I thought nobody ever would. I made Dave wait 167 days until our first romantic session. He could have left, but he waited for me. He didn't know why I wanted to wait. I needed to know that I could trust him first. He didn't know about my molestation when I was nine years old. I feel the book will help others, and that is why I wrote it.

i would never cheat bang bus: Livelihoods and Learning Caroline Dyer, 2014-05-30 Current paradigms of 'development' generally serve mobile pastoralist groups poorly: their visibility in policy processes is minimal, and their mobility is constructed by the powerful as a 'problem', rather than as a rational livelihood strategy. Increasingly damaged eco-systems, shrinking natural resources, globalisation and urbanisation all put pressure on pastoralist livelihoods. Such processes often worsen, rather than alleviate, poverty and socio-economic marginalisation among pastoralists, but they also precipitate engagement with forms of education that may improve their future livelihood security and social status, and enhance occupational diversification. Opening with a discussion of how the relationships between education, poverty and development have been conceived in dominant development discourses, this book reviews the disappointing international experience of education provision to mobile pastoralist groups. It highlights a lack of sufficient flexibility and relevance to changing livelihoods and, more fundamentally, education's conceptual location within a sedentarist paradigm of development that is antagonistic to mobility as a legitimate livelihood strategy. These global themes are examined in India, where policy and practices of education inclusion for mobile, marginalised groups are critiqued. Empirically-based chapters drawing on ethnographic research, provide detailed insights into how the Rabaris of Kachchh - a pastoralist community in Gujarat, Western India - engage with education as a social and economic development strategy for both adults and children, and show how ethnographic and participatory research approaches can be used for policy advocacy for marginalised groups. Livelihoods and Learning highlights the complex, contested and often inconsistent role of education in development and the social construction of poverty, and calls for a critical reappraisal of the notion of 'education'. The book will be key reading for postgraduates and academics in education, development studies, international and comparative education and research methodology, as well as policy-makers, ministries and related agencies with responsibility for education.
