i ve been to the mountaintop speech: Texts in Context Michael C. Leff, Fred J. Kauffeld, 1989 This volume is the result of a conference convened at Madison under the title, The Wisconsin Symposium on Public Address: Case Studies in Political Rhetoric. The format was designed to allow maximum concentration on case studies and to promote as much open discussion as possible. The discussion periods proved lively and stimulating, and they contributed greatly to the vitality of the conference. Unfortunately, there was trouble finding a way to reproduce these conversations in a form that would interest or make sense to a reader. An effort was made to retain something of the spirit of exchange and controversy that marked the conference. For that reason, the papers and responses are published in paired sets, each one forming a chapter of this volume. Almost all of these contributions have been revised significantly as a result of comment and criticism generated at the conference. Nevertheless, the basic pattern remains unchanged. The responses all suggest alternative interpretations of the same text or texts, and the reader perhaps can sense how subsequent discussion might follow from a consideration of these differing perspectives. The conference had its origin in conversation and much of its business was conducted through that medium.

i ve been to the mountaintop speech: Before Dawn: A Time of Testing, Humbling, Suffering, and Sacrificing Ralph Riley Cooley, 2017-02-12 Before Dawn He cried so loud. He cried so sad. During his birth, his mother almost lost her life trying to save his. There were so many complications that some people said he would have been better off if he had been still born, rather than to have lived. He was an ugly baby. He cried a lot when strangers held him. They outwardly scorned him, and they secretly abused him. A big brown medicine ball worn over his bulging naval caused him to be cut off from his little friends much of the time. He grew up in a kind, loving, and faithful sharecropper family. But he saw suffering in his family early. When he was just six years old, his family was thrust out of their home and cast into the wilderness. This happened because his parents tried to make progress. They tried to buy some land and break the sharecroppers curse from the family. The wilderness living experience was tough. His mother's faithful prayers helped the family to cope; the barren land, the creeks, the woods, the wild animals, the things that crawled the earth. Meeting miss Dolly, a scary but sad woman, and seeing his brother dangling over fast moving water after falling off the foot log were terrifying experiences for him. Could he pull himself up by his bootstraps? Well, he started a self-assessment program in seventh grade. He left home at age sixteen hitch hiking, down a long, lonely, dangerous highway. He was searching for a schoolhouse.

i ve been to the mountaintop speech: The Teleological Discourse of Barack Obama Richard W. Leeman, 2012-05-11 The Teleological Discourse of Barack Obama, by Richard Leeman, provides an in-depth analysis of President Barack Obama's speeches and writings to explain the power of the 44th president's speaking. This book argues that, from his earliest writings through his latest presidential speeches, Obama has described the world through a teleological lens. Teleology is the philosophy of discovering in the essential nature of humans or countries the telos, or ideal, towards which one should progress. Obama consistently portrays freedom and equality as essential to human nature and the American spirit. Understanding his discourse as teleological helps explain the inspirational and philosophical nature of his rhetoric, as well as his famous patience, perceiving progress where others become frustrated. Teleological discourse is ancient, with its roots in philosophies such as Aristotle's Nicomachean Ethics and Christian theology, and its handprints evident in Lincoln's Gettysburg Address. In order to discover the roots of Obama's teleological perspective, Leeman also examines the speeches of presidents Franklin Roosevelt, John F. Kennedy, and Ronald Reagan, as well as the civil rights discourse of Martin Luther King, Jr., Frederick Douglass, and W. E. B. Du Bois. Although the roots of his teleological discourse run deep, President Obama's particular use of the philosophy is very modern. The Teleological Discourse of Barack

Obama is an essential contribution to the study of American politics and political rhetoric. Watch the author discuss the book [here](#).

i ve been to the mountaintop speech: Deuteronomy for the Church M. Eugene Boring, 2022-06-21 Justice, only justice is Deuteronomy's terse summary of what Yahweh requires of the people of God. What Deuteronomy reveals is that the competence to be God's people, to know God, and to do God's will comes only through hearing the transforming Word of God in Scripture. Deuteronomy sets the scene for hearing God's Word in the wilderness as Moses addresses a new, in-between generation of all Israel. The people of God are no longer in Egypt, nor yet in Canaan. Moses warns them against allowing the past to control them and attempts to equip them to live faithfully in the new situation in which they find themselves. Deuteronomy's core theology, expressed in the Shema (Hear, O Israel: The Lord is our God, the Lord alone), forms the structure of the book: What does it mean to hear? Who is all Israel? And how does the identity of the one Lord shape ethics? To hear the biblical text does not mean passive listening. Hearing means engaging the story of God's Word with our own story. The book explores the three levels of hearing in Deuteronomy: hearing the story in the text--its narrative world; hearing the story behind the text--what really happened; and hearing the story of the text--how the original preaching and teaching became a canonical book that comes to us already translated with a rich history of interpretation in which contemporary readers stand. Deuteronomy for the Church reminds us that Christian believers are included in all Israel, that in reading Deuteronomy we are not merely spectators overhearing what was once said to other people, but that we are addressed as on-stage participants in the story, with the responsibility to discern and improvise what God requires of us in our time and place. Discerning the will of God means deepening our understanding of God's own revelation of the divine character and purpose in history. This responsibility is illuminated by New Testament examples that interpret Deuteronomy in light of God's definitive self-revelation in Christ.

i ve been to the mountaintop speech: Somewhere In The Distance David Soulsby, 2009-08-31 Coming of age in north London during the Swinging Sixties, four friends, each with their own distinct views and outlook on life but drawn tightly together by their mutually exuberant love of rock

'n' roll and the cultural influences of the time, form a strong bond that nurtures their dreams, hopes and aspirations for a brighter, better world free from fighting, hatred, inequality and hypocrisy. But the dark, corrosive side of the Sixties - the assassinations of President John F Kennedy and his brother Robert, the brutal slaying of Martin Luther King, the trauma and shocking events of the Vietnam War and the destructive surge in drugs use - loom large, leaving the foursome with scars that slowly erode their youthful innocence, confidence and naïve swagger. A dramatic helter-skelter journey sees the friends go through an array of human emotions, from humour to pathos, elation to sadness, excitement to disappointment, life-affirming highs to tear-stained lows and, ultimately, heartbreak and disillusionment. Set in the closing stages of the decade, the earlier years are recalled vividly in flashbacks that capture the exhilarating but often painful process of growing up in rapidly-changing, turbulent times.

From there, Cam's hauntings multiply: The constant threat of the Vietnam War draft. Failed relationships—and chemical dependencies—that stack up like empty pill bottles. Unfulfilling career moves. And the nagging feeling that his life is just destined to mean . . . something, anything at all. Something—a powerful word. But these things form a pattern Cam can't see—yet.
