Ron Braeshear (co-author), 2022-08-01 Many books and movies have been created by telling the story of my brother, Muhammad Ali. However, before I am called home, I want to share some of my life stories and memories with this book so people can learn more about my family, my brother, and me through the eyes of a member of the Clay/Ali family. I was there from the beginning and witnessed first-hand how our family's lives were changed as 'The Greatest of all Time' emerged from being a fun-loving kid on the streets of Louisville, Kentucky, to becoming an icon recognized around the world. The memories I share in this book are ones that I will treasure forever. Living through these experiences helped shape my life and made me the man I am today. I can say for a fact that no other man took as many punches from the champ as I did as a result of the training and sparring sessions that we had over the years together. It is my hope that after reading my story and accounts of key events in my family's life, you will walk away with an even greater appreciation of the Clay/Ali family name, history and legacy. I encourage you to treasure each day and strive for your own personal greatness. Peace be upon you (As-salamu alaykum) Rahaman Ali a.k.a. Rudolph Arnett Clay

i m so mean i make medicine sick: *The City of Hip-Hop* Rob Swift, Rasul A. Mowatt, 2024-12-17 The City of Hip-Hop positions a unique conceptualization of the history of Hip-Hop, that it was a combination of forces that produced the environment for Hip-Hop to specifically grow in the geographies of New York City and its boroughs. This book argues it was the political forces of the 1970s combined with the economic forces of free market capitalism and privatization of public services, neoliberalism, and the social forces of the deindustrialization of major cities and displacement of populations that led the cultural creation of the "Boogie Down" Bronx. The City of Hip-Hop shows how Hip-Hop is a socio-political reaction that created an alternate reality with a geographic specificity, and it is the interplay with those forces that nurtured it to become the culture force that we know it today in New York, Philadelphia, Boston, Los Angeles, Chicago, London, Manchester, Liverpool, Berlin, São Paulo, Tokyo, Washington D.C., Seattle, Paris, Houston, Dallas, Miami, Atlanta, Detroit, Toronto, Cleveland, Johannesburg, Barcelona, Belfast, Gaza City, and elsewhere. Once those of us as fans of the culture zoom out to see such a bigger picture, a much-needed criticism and retelling of the culture and art of Hip-Hop emerges as our understanding. This book is essential for preservers of the culture, students, scholars, and general readers interested in urban planning, urban design, urban geography, place-making, American Studies, Cultural Studies, Black Studies, and Latin American Studies.

i m so mean i make medicine sick: *The Book of Old Sayings with Some New Sayings* Muneer H. Waheed, 2017-11-28 As a student of philosophy, I took interest in it. History was also a favorite study. I was an A student in English. I liked to read and write. Creative writing was fun to do. Over the years, as I traveled and worked on ships and construction sites, I developed my manhood, you might say. I matured around men who talked filthy, played the dozen, and told a lot of jokes. Of course, I was influenced by some of this. I picked up on a lot of jokes and old sayings, mostly from older men. Throughout the years, I had remembered quite a few. My friends used to call me a philosopher. I had a saying for everything. Over the years, I realized everyone had picked up their share of sayings as well. I started writing them down because they were so many I couldn't remember them. Then I realized the wisdom in them and came up with the idea to put them in a book form for reference. I felt that some could read this book and be educated by all the wisdom. Where else could you find a collection of so many sayings that will leave you with curiosity, laughter, and wisdom?

i m so mean i make medicine sick: Redemption of a Dream Nathan A Sowah, 2017-08-08
Without a doubt, a journey of a thousand miles begins with a single step; but a journey to hell and back, may never be a pleasant story to tell. By all human standards, it is undeniable that rising from the dungeons of bondage to the highest offices in the land is nothing short of a miracle. Similarly, rising from the doldrums of Apartheid to the highest offices in the land is equally, nothing short of a miracle. Similarly, rising from the gas chambers and concentration camps of Auschwitz back to the promise land is equally, nothing short of a miracle. But what is even more miraculous is that, such shameful atrocities and such heinous crimes against humanity have all happened in human society. Nevertheless, such amazing triumphs of good over evil and such astounding achievements of beleaguered people, from the most humble beginnings to the highest levels of human dignity, have also happened in human society. Redemption of a Dream is the story of one race of people, sent on a treacherous journey, centuries ago and yet, the essence of the story came to fulfillment right before our eyes, in this generation of our lifetime. This is a true story of the struggle for dignity among the various races, cultures, colors and religions within the largest melting pot on earth. Find out how the new world became a multi-racial, multi-cultural, multi-colored and multi-religious society, even before the Union was formed. This story also chronicles the reflections, recollections and lamentations of the author. Born and raised in the Gold Coast colony, he came to America to fulfill his dream of higher education. He also recalls his childhood experiences during the first-ever transfer of power from colonial-rule to self-rule in the first-ever Democracy formed in black Africa in 1957. The author strikes an interesting similarity between himself and the father of the 44th President of the United States; each came to America in pursuit of his dream of college education and if all goes well; maybe experience the American Dream and let the chips fall where they may. Find out what happened in each of their separate lives in America. Get to the roots of the struggle; find out the true origin of the black American struggle for dignity. Find out how the stone that the builders rejected, became the cornerstone of the finest mansion in the land, build by slave labor, reserved for nobility and eventually occupied by descendants of the same slaves who built it. I grew up in the small canoe-fishing town of Christiansborg, Osu, on the Atlantic coast of West Africa. As a child, I was fortunate enough to attend the schools that the early Missionaries built during the colonial era. Growing up under the shadow of the infamous Christiansborg Castle; I quickly learnt what many in our community already knew. It was common knowledge that our peaceful and picturesque, seaside neighborhood, was one of the most vicious slave market centers in black Africa; next only to the iniquitous Cape Coast Castle; a few hundred miles west of my hometown and the notorious Elmina Castle, further to the west of my hometown. All three colossal castles, still stand today on the sandy shores and in the salt waters of the Atlantic Ocean; each colonial castle, acting as giant window, looking back in retrospect to the ills of the colonial era and the evils of the slavery era. I decided to write this book, Redemption of a Dream, when America elected its first-ever African American president in almost three centuries. To me, this is the greatest and most significant change that ever happened since the new world was discovered. I wrote this book solely in honor of the brave heroes and legends of The Struggle from slavery to Presidency. Thanks for checking out

my story and God bless.

i m so mean i make medicine sick: Drama in the Bahamas Dave Hannigan, 2016-08-02 On December 11, 1981, Muhammad Ali slumped on a chair in the cramped, windowless locker room of a municipal baseball field outside Nassau. A phalanx of sportswriters had pushed and shoved their way into this tiny, breeze-blocked space. In this most unlikely of settings, they had come to record the last moments of the most storied of all boxing careers. They had come to intrude upon the grief. "It's over," mumbled Ali. "It's over." The show that had entertained and wowed from Zaire to Dublin, from Hamburg to Manila, finally ended its twenty-one-year run, the last performance not so much off-Broadway, more amateur theatre in the boondocks. In *Drama in the Bahamas*, Dave Hannigan tells the occasionally poignant, often troubling, yet always entertaining story behind Ali's last bout. Through interviews with many of those involved, he discovers exactly how and why, a few weeks short of his fortieth birthday, a seriously diminished Ali stepped through the ropes one more time to get beaten up by Trevor Berbick. "Two billion people will be conscious of my fight," said Ali, trotting out the old braggadocio about an event so lacking in luster that a cow bell was pressed in to service to signal the start and end of each round. How had it come to this? Why was he still boxing? Hannigan answers those questions and many more, offering a unique and telling glimpse into the most fascinating sportsman of the twentieth century in the last, strange days of his fistic life. Enrolled in boarding school where he and his siblings, Marty and Liz, are forced to live apart, the once vivacious and fearless Jules retreats inward, preferring to live within his memories – until he meets Alva, a kindred soul caught in her own grief. Fifteen years pass and the siblings remain strangers to one another, bound by tragedy and struggling to recover the family they once were. Jules, still adrift, is anchored only by his desires to be a writer and to reunite with Alva, who turned her back on their friendship on the precipice of it becoming more. But, just as it seems they can make amends for time wasted, invisible forces – whether fate or chance – intervene. A kaleidoscopic family saga told through the fractured lives of the three Moreau siblings, alongside a faltering, recovering love story, *The End of Loneliness* is a stunning meditation on the power of our memories, of what can be lost and what can never be let go. With inimitable compassion and luminous, affecting prose, Benedict Wells contends with what it means to find a way through life, while never giving up hope you will find someone to go with you.

i m so mean i make medicine sick: Erratic Fire, Erratic Passion Jeff Parker, Pasha Malla, 2015-09-10
Erratic Fire, Erratic Passion is a collection of found poems composed of the words of professional athletes. The content of post-game interviews and sports chatter is so often meaningless, if not insufferable, and yet there are athletes like Metta World Peace who transcend lame clichés and rote patter, who use language in surprising ways, who can be funny and shocking and insightful and alarmingly sincere — pure poetry. Muhammad Ali offered dazzling displays of lexical wizardry, and Allen Iverson’s infamous “practice” rant shifted the post-game press conference from the banal to the absurd. This book is a celebration of these rare and exceptional moments. Various poetic forms and line-breaks highlight — or, in the words of Deion Sanders, “deem to set a candor on” — the sophisticated, sublime, and surprising performances of language made by professional athletes.

i m so mean i make medicine sick: We Shook Up the World Tracy Daugherty, 2024-04-30
George Harrison met Muhammad Ali in 1964, when both men were on the cusp of worldwide fame. Ten years later, the two men simultaneously staged comebacks, demonstrating just how much they embodied the promises and perils of their era. In doing so, Tracy Daugherty suggests, they revealed the scope and the limits of political courage and commitment to faith in the modern world. *We Shook Up the World* is the story of these two larger-than-life figures at a momentous time. A unique blend of biography and cultural history, this book goes to the very heart of the zeitgeist that each man inhabited and reinvented in profound and enduring ways. In 1974, deep in the Pennsylvania woods, thirty-two-year-old Muhammad Ali was seeking renewal, training to regain his heavyweight boxing title in a fight with George Foreman, and exploring questions about his politics, his career, and his life. Meanwhile, George Harrison was thirty-one years old. With the Beatles disbanded, his marriage ending, and the loss of his mother still fresh, he traveled to India to revitalize his faith, energy, and musical spirit, seeking renewal at the Hindu holy city of Varanasi. In contemplating how these two complex figures managed to carry the cultural rebelliousness and spiritual yearning of the 1960s into a new era of cataclysmic political, economic, and social change, *We Shook Up the World* offers an intimate perspective on two outsize figures in the nation’s and the world’s cultural history, and a new understanding of their unique contributions to the consciousness of their time and ours.

Though he's a Leb and they control the school, Bani feels at odds with the other students, who just don't seem to care. He is a romantic in a sea of hypermasculinity. Bani must come to terms with his place in this hostile, hopeless world, while dreaming of so much more. Praise for *The Lebs*: 'an open-eyed and highly charismatic novel broiling with fight, tenderness and ambition.' - Big Issue 'The Lebs is a strong and resonant novel that deserves to be widely read.' - Weekend Australian 'The author never lets his superb command of idiom or his eye for the absurd overwhelm a deeply felt exploration of the hurt and damage that can come from encounters with the Australian Other. No one who reads *The Lebs* deserves to come out unscathed.' - The Saturday Paper 'Ahmad's piercing storytelling cuts away at the lace and trimmings of race relations in Australia today.' - The Lifted

i m so mean i make medicine sick: Pearls of Wisdom Mamutty Chola, 2019-07-09 The book — Pearls of wisdom presents a historical and panoramic view of human civilization. It is a compilation of quotes /sayings of prophets, philosophers, thinkers, poets, emperors, politicians and business tycoons; on various aspects of human lives; be it religions, ethics, morals, business, principles of governance, evolution of science and technology, besides quotes on Nature, Earth, Soul, Love, Beauty, Human Minds, Human Hearts, and Eyes. There are quotes about the qualities of animals; like Dog, Horse, Lion and their influence on human lives. There are in all 26 sections chapters as reflected in the Index. On perusal of these quotes following facts emerge: 1) The human race loves to live in peace. The religions, though was intended to achieve peace in society, have unfortunately been one of the main reasons for wars, crimes, destruction, and genocides because of the intolerance among the believers since faith is blind. Rationality had been and is the first casualty. 2) All the religions are the gifts of the East. The gifts of the west are communism and Atheism. 3) Things once considered as blasphemies have come to be accepted as truth. The example of Galileo Galilei is remarkable. 5)The governing principles have been evolutionary. There can never be a uniformed pattern of governance as peoples differ in their thinking and beliefs for that reasons there have been clashes of civilization down the ages. 6)The exploration of our solar systems is the result of endless and insatiable urge in man to unravel nature. The achievements of science and technology belong to the whole of humanity. I have tried to present a snapshot profile of March of human civilization through the voices of the great minds ever walked on mother earth. This compilation will serve as ready reckoner
