i ready teacher toolbox login: Promising Practices in Indigenous Teacher Education Paul Whitinui, Carmen Rodriguez de France, Onowa McIvor, 2017-10-28 This book provides a comprehensive overview of navigating the on-going systemic challenges, hardships, and problems facing many indigenous teacher education programs today, helping to foster a commitment to developing quality indigenous teacher education programs that are sustainable, distinctive and excellent. However, despite a growing cadre of indigenous peoples working in teacher education, there is still a noticeable gap between the uptake of what is being taught in conventional teacher education programs, and how this translates to what we see student teachers doing in the classroom. The often tricky and complex nature of indigenous teacher education programming also means that there are multiple realities, approaches and pathways that require greater communication, collaboration, and cooperation. The very nature of this complexity, the book suggests, requires a strength-based and future-focused approach built on trust, integrity, courage and respect for indigeneity, as well as an understanding of what it means to be indigenous. The examples and experiences presented identify a number of promising practices that work well in current indigenous teacher education programs and beyond. By promoting a greater appreciation for the inclusion of culturally relevant practices in teacher education, the book aims to breathe new life into the hopes, dreams, and aspirations of indigenous teacher education programs moving forward.

The book, which consists of two sections on mindfulness in education and wellness, is intended for a broad audience of educators, researchers, and complementary medicine practitioners. Members of the general public may find appeal and relevance in chapters that advocate transformation in a number of spheres, including K-12 schools, museums, universities, counselling, and everyday lifestyles. Innovative approaches to education, involving meditation and mindfulness, produce numerous advantages for participants in schools, museums, and a variety of self-help contexts of everyday life. In several striking examples, critical stances address a band wagon approach to the application of mindfulness, often by for-profit companies, to purportedly improve quality of education, in contexts where learning has been commodified and ideologies such as neoliberalism have been mandated by politicians and implemented by policy makers. In different international contexts, Buddhist roots of mindfulness are critically reviewed by a number of authors. Chapters on wellness focus on complementary practices, including art therapy, Jin Shin Jyutsu, Iridology, and yoga. Foci in the wellness section include sexual health, prescription drug addiction, obesity, diabetes, cancer, and a variety of common ailments that can be addressed using complementary medicine. New theories, such a polyvagal theory, provide scope for people to become aware of their bodies in different ways and maintain wellbeing through changes in lifestyle, heightened self-awareness, and self-help.

i ready teacher toolbox login: Knowledge Mobilization in TESOL , 2019-01-14 Most debates about the so-called research-practice gap in TESOL have focused on a one-way transfer of research evidence from the context of origin to the context of application. Rather than continuing such debates, Knowledge Mobilization in TESOL: Connecting Research and Practice sheds light on what happens after research is transferred to contexts of practice such as the classroom. It explores whether or not, and under what circumstances, research can make contributions to teachers' professional learning and development. By featuring English language teachers' first-hand accounts of research utilization, the book highlights the complex processes of making research-based knowledge meaningful for pedagogical practice. It shows why the success of any knowledge mobilization project depends on sensitivity to context and teachers' interpretive engagement with research-based recommendations. i ready teacher toolbox login: Walk the Talk, Dress the Part Ed D. Sheryl a. Vasso, McS Cammy Tidwell, 2012-05 Not long after the gospel of Matthew opens, and just as it seems reasonable for Jesus to begin His public ministry, He is whisked away by the Spirit into the desert to be tempted by the devil - three times. Immediately, the schemes of Satan are fully revealed. The defeated one suggested that Jesus' talk could turn stones into bread. Satan proposed that Jesus' walk could be impressive and significant if He were to throw Himself off the pinnacle of the temple. Finally, the devil tried to entice Jesus with the thought of His wardrobe being arrayed with the power of all the kingdoms. Satan tempted Jesus by appealing to the desire to be relevant, significant, and powerful. Aren't these the same appealing areas of vulnerability for us as educators? How natural to want to be relevant while talking to our students, impressive and significant in our profession, and powerful in our classroom kingdoms! Nothing would please the tempter more than to derail our earthly walk, talk, and wardrobe. He doesn't want us to walk the talk or dress the part of being a follower of Christ and a light in a dark and needy world. Like Jesus, we don't need to outsmart or outmuscle Satan. We need to simply out-truth him with the powerful words of God. Sheryl Vasso has spent the last several years directing the Masters of Education Program at Philadelphia Biblical University and traveling the world as a professor of teachers enrolled in

graduate studies. Cammy Tidwell, on the other hand, took an early retirement from the teaching profession to spend time at home with her children. Through the common passion of studying and teaching God's Word, Sheryl and Cammy have united, first as friends, and then as partners in their speaking and writing ministry, Words of Worth, Inc. (www.wordsofworth.com). Both Sheryl and Cammy reside in Newtown, PA.
