**i see you in sign language: Remnants of the Heart** RoseMarie Dalbow, 2016-12-31  
RoseMarie is a mother of six, a grandmother of ten, and a nurse who worked with special needs children for twenty years. A strong Catholic background and an unwavering faith were the saving grace that enabled her to cope with adversity and tragedy in her life. There was infidelity and divorce, the end of her idyllic world or so she thought. Little did she know that would pale when years later she lost her son and daughter to tragic accidents. In one year she also lost a grandson, almost lost her husband to heart failure, and was diagnosed with three different cancers. Faith, family, and friends played a pivotal role in restoring what felt like a shattered life, heavy with grief and depression, back to normalcy and joy. Ten years after the divorce, a knight in shining armor enters her life and refuses to leave despite her repeated pushing away for two years, until God revealed his plan for them. Miracles abound real tangible miracles, not just a figure of speech. You will laugh and you will cry as you go along on this faith-affirming journey.

**i see you in sign language: Be Opened! The Catholic Church and Deaf Culture** Lana Portolano, 2020-12-09 *Be Opened! The Catholic Church and Deaf Culture* offers readers a people's history of deafness and sign language in the Catholic Church. Paying ample attention to the vocation stories of deaf priests and pastoral workers, Portolano traces the transformation of the Deaf Catholic community from passive recipients of mercy to an active language minority making contributions in today's globally diverse church. Background chapters familiarize readers with early misunderstandings about deaf people in the church and in broader society, along with social and religious issues facing deaf people throughout history. A series of connected narratives demonstrate the strong Catholic foundations of deaf education in sign language, including sixteenth-century monastic schools for deaf children and nineteenth-century French education in sign language as a missionary endeavor. The author explains how nineteenth-century schools for deaf children, especially those founded by orders of religious sisters, established small communities of Deaf Catholics around the globe. A series of portraits illustrates the work of pioneering missionaries in several different countries—"apostles to the Deaf"—who helped to establish and develop deaf culture in these communities through adult religious education and the sacraments in sign language. In several chapters focused on the twentieth century, the author describes key events that sparked a modern transformation in Deaf Catholic culture. As linguists began to recognize sign languages as true human languages, deaf people borrowed the practices of Civil Rights activists to gain equality both as citizens and as members of the church. At the same time, deaf people drew inspiration and cultural validation from key documents of Vatican II, and leadership of the Deaf Catholic community began to come from the deaf community rather than to it through missionaries. Many challenges remain, but this book clearly presents Deaf Catholic culture as an important and highly visible embodiment of Catholic heritage.
