icivics taxation answer key: Taxation Interview Questions and Answers - English Navneet Singh, Here are some common taxation interview questions along with their sample answers to help you prepare for a tax-related interview: 1. What are the different types of taxes? Answer: Taxes can generally be classified into two main types: Direct Taxes: These are paid directly by individuals or organizations to the government, such as Income Tax, Corporate Tax, Wealth Tax, and Capital Gains Tax. Indirect Taxes: These are collected by intermediaries (such as retailers) from consumers and then paid to the government, such as Goods and Services Tax (GST), VAT, Excise Duty, and Customs Duty. 2. What is the difference between tax avoidance and tax evasion? Answer: Tax Avoidance: It is the legal use of tax laws to reduce one's tax liability. This involves smart financial planning to take advantage of exemptions, deductions, and loopholes. Tax Evasion: It is the illegal practice of not paying taxes by underreporting income, inflating deductions, or hiding money in offshore accounts. 3. What is a Tax Deducted at Source (TDS)? Answer: TDS is a means of collecting income tax in India under the Income Tax Act. When certain types of payments, such as salary, interest, or rent, are made, a percentage of the amount is deducted by the payer and deposited with the government. The deducted amount is credited to the taxpayer's account, which reduces the tax liability when filing an annual return. 4. What are the main differences between direct and indirect taxes? Answer: Direct Tax: Paid directly to the government by the taxpayer. The tax burden falls on the individual or entity, such as income tax or corporate tax. Indirect Tax: Collected by an intermediary (such as a retailer) from the taxpayer, like GST. The final burden falls on the consumer. 5. What is Capital Gains Tax? Answer: Capital Gains Tax is a tax on the profit earned from the sale of an asset, such as property or stocks. There are two types of capital gains: Short-Term Capital Gains (STCG): Profits made from the

sale of an asset held for a short period (usually less than a year). Long-Term Capital Gains (LTCG): Profits made from the sale of an asset held for a longer duration.

6. What is GST? Answer: GST (Goods and Services Tax) is a comprehensive, multi-stage, destination-based tax that is levied on every value addition. It replaced several indirect taxes like excise duty, VAT, and service tax. There are three components of GST: CGST: Central GST, collected by the central government. SGST: State GST, collected by the state government. IGST: Integrated GST, collected on inter-state supplies by the central government.

7. What are the key differences between Gross Total Income and Total Taxable Income? Answer: Gross Total Income: It is the aggregate of income under all heads (salary, house property, business income, etc.) before applying deductions under Chapter VI-A of the Income Tax Act. Total Taxable Income: This is the income that remains after applying eligible deductions and exemptions, on which tax liability is computed.

8. What is the difference between Excise Duty and Customs Duty? Answer: Excise Duty: This is a tax levied on goods produced within a country. Customs Duty: This is a tax levied on goods imported into or exported out of a country.

9. What is Advance Tax? Answer: Advance Tax is the tax that is paid in advance by taxpayers instead of a lump sum payment at the end of the fiscal year. It is paid if the taxpayer's tax liability exceeds a specified limit, usually paid in four instalments (quarterly).

10. What is Deferred Tax? Answer: Deferred Tax arises due to differences between accounting income and taxable income. For example, depreciation might be calculated differently in accounting records and tax returns, leading to a deferred tax asset or liability.

11. What is the purpose of the Double Taxation Avoidance Agreement (DTAA)? Answer: The DTAA is a tax treaty between two or more countries to avoid double taxation. It ensures that taxpayers do not have to pay tax twice on the same income in both countries. This is particularly important for individuals or companies that operate in multiple countries.

12. What is Tax Audit? Answer: A Tax Audit is an examination of a taxpayer's books of accounts conducted to ensure that the taxpayer has correctly filed the tax returns. It is mandatory if a taxpayer's turnover or gross receipts exceed a certain limit as per the Income Tax Act.

13. What is the difference between Tax Credit and Tax Deduction? Answer: Tax Credit: Reduces your total tax liability directly. If you have a \$100 tax credit, it reduces your tax due by \$100. Tax Deduction: Reduces your taxable income. For example, if you have a \$100 deduction and your income is \$1,000, it reduces your taxable income to \$900.

14. What is a PAN and why is it important? Answer: PAN (Permanent Account Number) is a unique identification number issued by the Income Tax Department in India. It is mandatory for all individuals and entities who file tax returns. PAN is used to track taxable transactions and prevent tax evasion.

15. How do you calculate taxable income? Answer: To calculate taxable income, you can follow these steps: Add up all the income under different heads (salary, house property, business/profession, capital gains, other sources). Apply exemptions (like HRA, Leave Travel Allowance) and deductions (under Section 80C, 80D, etc.). The result after exemptions and deductions is the taxable income.
