Richard Haviland, 2021-02-12 Royalties from the sale of this book are being donated to Autism Speaks And Special Olympics When we've gone without something, it's difficult, if not impossible, to comprehend what impact the void has had. While we can imagine how things might have been different, there's no true point of reference that enables us to say whether it's left us better or worse off, richer or poorer as a person. So it was with the absence of author Richard Haviland's father. Having never really known him, combined with the presence of a caring stepfather, he rarely thought of himself as not having had a father in his life. He didn't spend his childhood or adolescence feeling deprived or cheated. But a series of conversations at work and home prodded Haviland and forced him to consider what could be, not just for him but for his wife, a new baby daughter, and the other children they planned to have. In *Did You Ever Get to Edinburgh?*, Haviland shares the story of the search for his birth father. It chronicles a journey of love and loss, pain and joy and, ultimately, reconciliation with the man he needed most to meet, a completion of the circle of life for the father and son.

[Hawes is] a writer with the exceedingly rare ability to observe sympathetically both particular events and the horizon against which they take place without sentimentalizing her subjects. Hawes is so admirably steadfast in her commitment to bearing witness that one is compelled to consider the story she tells from every possible angle." —The New York Times Book Review A deeply moving work of narrative nonfiction on the tragic shootings at the Mother Emanuel AME church in Charleston, South Carolina from Pulitzer Prize-winning journalist Jennifer Berry Hawes. On June 17, 2015, twelve members of the historically black Emanuel AME Church in Charleston, South Carolina welcomed a young white man to their evening Bible study. He arrived with a pistol, 88 bullets, and hopes of starting a race war. Dylann Roof's massacre of nine innocents during their closing prayer horrified the nation. Two days later, some relatives of the dead stood at Roof's hearing and said, "I forgive you." That grace offered the country a hopeful ending to an awful story. But for the survivors and victims' families, the journey had just begun. In *Grace Will Lead Us Home*, Pulitzer Prize-winning journalist Jennifer Berry Hawes provides a definitive account of the tragedy's aftermath. With unprecedented access to the grieving families and other key figures, Hawes offers a nuanced and moving portrait of the events and emotions that emerged in the massacre's wake. The two adult survivors of the shooting begin to make sense of their lives again. Rifts form between some of the victims' families and the church. A group of relatives fights to end gun violence, capturing the attention of President Obama. And a city in the Deep South must confront its racist past. This is the story of how, beyond the headlines, a community of people begins to heal. An unforgettable and deeply human portrait of grief, faith, and forgiveness, *Grace Will Lead Us Home* is destined to be a classic in the finest tradition of journalism.

ice breaker questions office: *Steps towards a Mindful Organisation* Fabrice Mielke, 2021-03-23 This book presents a guideline for turning any organisation into a more mindful one, allowing it to manage unexpected events and develop stronger resilience. The author conducted empirical research with a German IT company's staff and its leadership in a longitudinal way. The whole team was trained in individual mindfulness competencies. Individual mindfulness is a state of being that can be developed through mindfulness meditation. When combined with social interactions, cultural adaptations and structural changes, collective mindfulness develops. Collective mindfulness allows an organisation to become more agile. The author argues that mindfulness training influences the openness and knowledge-sharing behaviour of an organisation, first on an individual and then a collective level. Such training can generate awareness, increase empathy between the team members, and lead towards a more successful organisation. This study can inspire team managers to improve the work environment as well as academics to update their current level of research in the field of individual and collective mindfulness.

ice breaker questions office: *Asking Smarter Questions* Sam Knowles, 2022-08-08 Insight is the superpower that drives innovation and enables us to understand the world from other peoples' points of view, be they customers or colleagues, advocates or competitors. This new book from data storyteller Sam Knowles explains how to ask smarter questions – questions that, by design, stimulate more useful answers. This is the shortcut to better productivity, fast-tracked innovation, and organisational success – for businesses, universities, charities, and governments. For too long, the simple act of asking questions has been overlooked as almost too trivial to contemplate. Asking Smarter Questions seeks to champion the art of curiosity by setting out a framework to make every question count. The fundamental building blocks of insight are data and information, joined together in new and often unpredictable ways. The way we surface new data and information and make meaningful connections between data points is by asking smarter questions. By taking this approach, you can make your organisation a less confrontational, more collaborative, and more productive environment in which to work – particularly in the more distributed and remote settings that will characterise the 2020s. Managers, directors, and leaders will find the universal principles, expert interviews, and data-driven recommendations a source of inspiration to share with their teams. Asking Smarter Questions is aimed at professionals in businesses and organisations across all sectors, and will help those working in many functions, including market research, intelligence, insight, analytics, strategy, marketing, communications, planning, product development, and innovation.
