ideas for black history month at church: Resistance Stories from Black History for Kids Rann Miller, 2023-03-07 Black history is a robust and multifaceted chapter in world history that is often watered down. By telling the stories that are often omitted from history, Resistance Stories from Black History for Kids sets out to show that the Black experience is not only defined by marching and boycotting, but also through rebellion and resistance. Learn about little-known facets, events, and figureheads from Black history, including: Vicente Guerrero, the first Black North American president; One Marie Judge and her escape to freedom from George

Washington; Dr. Carter G. Woodson and the real reason he created Black History Month; The history of the 'dap' and its roots in African tradition; Mansa Musa and his travels throughout the continent of Africa; And many more exciting stories! ideas for black history month at church: Understanding African American Rhetoric Ronald L. Jackson II, Elaine B. Richardson, 2014-05-22 This is an extraordinarily well-balanced collection of essays focused on varied expressions of African American Rhetoric; it also is a critical antidote to a preoccupation with Western Rhetoric as the arbiter of what counts for effective rhetoric. Rather than impose Western terminology on African and African American rhetoric, the essays in this volume seek to illumine rhetoric from within its own cultural expression, thereby creating an understanding grounded in the culture's values. The consequence is a richly detailed and well-researched set of essays. The contribution of African American rhetoric can no longer be rendered invisible through neglect of its tradition. The essays in this volume neither seek to displace Western Rhetoric, nor function as an uncritical paen to Afrocentricity and Africology. This volume is both timely and essential; timely in advancing a better understanding of the richly textured history that is expressed through African American discourse, and essential as a counterpoint to the hegemonic influence of Greek and Roman rhetoric as the origin of rhetorical theory and practice. Written in the spirit of a critical rhetoric, this collection eschews traditional focus on public address and instead offers a rich array of texts, in musical and other forms, that address publics.

ideas for black history month at church: Urban Apologetics Eric Mason, 2021-04-06 *Urban Apologetics* examines the legitimate issues that Black communities have with Western Christianity and shows how the gospel of Jesus Christ—rather than popular, socioreligious alternatives—restores our identity. African Americans have long confronted the challenge of dignity destruction caused by white supremacy. While many have found meaning and restoration of dignity in the black church,

others have found it in ethnocentric socioreligious groups and philosophies. These ideologies have grown and developed deep traction in the black community and beyond. Revisionist history, conspiracy theories, and misinformation about Jesus and Christianity are the order of the day. Many young African Americans are disinterested in Christianity and others are leaving the church in search of what these false religious ideas appear to offer, a spirituality more indigenous to their history and ethnicity. Edited by Dr. Eric Mason and featuring a top-notch lineup of contributors, *Urban Apologetics* is the first book focused entirely on cults, religious groups, and ethnocentric ideologies prevalent in the black community. The book is divided into three main parts: Discussions on the unique context for urban apologetics so that you can better understand the cultural arguments against Christianity among the Black community. Detailed information on cults, religious groups, and ethnic identity groups that many urban evangelists encounter—such as the Nation of Islam, Kemetic spirituality, African mysticism, Hebrew Israelites, Black nationalism, and atheism. Specific tools for urban apologetics and community outreach. Ultimately, *Urban Apologetics* applies the gospel to black identity to show that Jesus is the only one who can restore it. This is an essential resource to equip those doing the work of ministry and apology in urban communities with the best available information.

ideas for black history month at church: Common Core Standards and Black History Month Pat Scales, 2014-02-04 *DIVBlack History Month* is a time when all Americans celebrate the rich African American culture in our society. It was Carter G. Woodson, an African American historian, who began a weeklong celebration, called Negro History Week, in 1926 as a way to honor Frederick Douglass and Abraham Lincoln. Now schools, libraries, churches, and communities find special ways to honor the contributions of African Americans during the month of February. One of the best ways to celebrate is by reading books by and about African Americans. Virginia Hamilton's works are among the many children's books that call upon readers to think about slavery, freedom, and heritage. Through her stories, Hamilton instills cultural pride, as well as a sense of family and the importance of friendship. Black History Month is a time to help young readers realize that these universal themes transcend race and that through the power of story, all races are truly united./div

ideas for black history month at church: Prejudice Across America James Waller, 2000

The experiences of a teacher and his white students on a nationwide trek toward racial understanding In 1998 James Waller took twenty-one white college students from Washington state on a month-long journey. *Prejudice Across America* is the record of their interaction with the American Indian, Asian American, African American, Hispanic, and Jewish experiences nationwide. Few books have so directly and humanly captured the moment when whites confront the realities of those living as a minority in America. Waller reports here on this innovative and award-winning trek. In Los Angeles, San Francisco, Chicago, Memphis, New Orleans, Birmingham, Atlanta, and Washington, D.C., his students hear both the official story of prejudice and the street story from people living and dealing with racism on a daily basis. *Prejudice Across America* is as much the journal of these travelers and what they face as it is a sweeping, up-close survey of the nation's racial landscape. The students walk the cheerless halls of a South Side housing project in Chicago, experience the agitated aftermath of the Olympic Games in Atlanta, and attend a briefing with President Clinton's Initiative on Race. All along the way, they hold wide-ranging group discussions and experience the unpredictable adventure of traveling by train, plane, and public transit. Drawing on student journals and on interviews with community leaders and activists throughout the country, Waller paints a compelling and provocative portrait of the nation's prejudice. In addition, *Prejudice Across America*

includes analyses of the obstacles to reconciliation in each of the cities on the tour's itinerary. As they travel, students confront the thorny issues of race in America, face down stereotypical thoughts, prejudicial attitudes and discriminatory behaviors, and uncover more tough questions than easy answers. As Waller and another group of students prepare for a similar trek in 2001, *Prejudice Across America* will allow readers to join them in introspection and self-discovery in the urban reality of an America where diversity isn't simply a buzzword, but a way of life. James Waller is a professor of psychology at Whitworth College in Spokane, Washington. He has also published *Face to Face: The Changing State of Racism Across America* (1998).
