

IDEAL PARENT FIGURE THERAPY

IDEAL PARENT FIGURE THERAPY IS A SPECIALIZED THERAPEUTIC APPROACH DESIGNED TO ADDRESS EMOTIONAL WOUNDS AND DEVELOPMENTAL GAPS CAUSED BY ABSENT, NEGLECTFUL, OR DYSFUNCTIONAL PARENTAL FIGURES. THIS THERAPY FOCUSES ON CREATING AND INTERNALIZING A NURTURING, SUPPORTIVE, AND CONSISTENT "IDEAL PARENT FIGURE" WITHIN THE CLIENT'S PSYCHE TO FOSTER HEALING AND PROMOTE PSYCHOLOGICAL WELL-BEING. IT IS PARTICULARLY EFFECTIVE FOR INDIVIDUALS STRUGGLING WITH CHILDHOOD TRAUMA, ATTACHMENT DISORDERS, OR UNRESOLVED EMOTIONAL CONFLICTS STEMMING FROM EARLY LIFE EXPERIENCES. BY ENGAGING IN IDEAL PARENT FIGURE THERAPY, CLIENTS LEARN TO REPAIR INTERNALIZED NEGATIVE SELF-CONCEPTS AND CULTIVATE A STABLE INTERNAL ENVIRONMENT THAT COMPENSATES FOR PAST DEFICIENCIES. THIS ARTICLE EXPLORES THE PRINCIPLES, TECHNIQUES, BENEFITS, AND APPLICATIONS OF IDEAL PARENT FIGURE THERAPY IN DETAIL. READERS WILL GAIN A COMPREHENSIVE UNDERSTANDING OF HOW THIS THERAPEUTIC MODEL SUPPORTS EMOTIONAL GROWTH AND RESILIENCE. THE FOLLOWING SECTIONS WILL GUIDE YOU THROUGH THE FOUNDATIONAL CONCEPTS, THERAPEUTIC PROCESS, TARGET POPULATIONS, AND PRACTICAL CONSIDERATIONS IN IDEAL PARENT FIGURE THERAPY.

UNDERSTANDING IDEAL PARENT FIGURE THERAPY

IDEAL PARENT FIGURE THERAPY IS GROUNDED IN THE PSYCHOLOGICAL UNDERSTANDING THAT EARLY CHILDHOOD EXPERIENCES WITH CAREGIVERS SIGNIFICANTLY SHAPE AN INDIVIDUAL'S EMOTIONAL DEVELOPMENT. WHEN PARENTAL FIGURES ARE ABSENT, INCONSISTENT, OR HARMFUL, INDIVIDUALS MAY INTERNALIZE NEGATIVE BELIEFS ABOUT THEMSELVES AND OTHERS. THIS THERAPY AIMS TO COUNTERACT THOSE DETRIMENTAL INTERNALIZATIONS BY FOSTERING AN INTERNAL REPRESENTATION OF A CARING, PROTECTIVE, AND LOVING PARENT FIGURE. THE PROCESS HELPS CLIENTS DEVELOP EMOTIONAL SECURITY AND SELF-COMPASSION, WHICH ARE CRITICAL FOR HEALTHY FUNCTIONING.

HISTORICAL BACKGROUND AND THEORETICAL FOUNDATIONS

THE CONCEPT OF IDEAL PARENT FIGURE THERAPY IS INFLUENCED BY ATTACHMENT THEORY, PSYCHODYNAMIC PRINCIPLES, AND INNER CHILD WORK. ATTACHMENT THEORY EMPHASIZES THE IMPORTANCE OF SECURE CAREGIVER BONDS, WHILE PSYCHODYNAMIC THERAPY EXPLORES UNCONSCIOUS PROCESSES RELATED TO EARLY EXPERIENCES. INNER CHILD WORK FOCUSES ON HEALING CHILDHOOD WOUNDS BY RECONNECTING WITH AND NURTURING THE CHILD WITHIN. COMBINING THESE APPROACHES, IDEAL PARENT FIGURE THERAPY PROVIDES A FRAMEWORK TO REBUILD OR ESTABLISH POSITIVE INTERNAL PARENTAL MODELS.

KEY CONCEPTS IN IDEAL PARENT FIGURE THERAPY

SEVERAL CORE CONCEPTS UNDERPIN THE EFFECTIVENESS OF IDEAL PARENT FIGURE THERAPY. THESE INCLUDE:

- **INTERNALIZATION:** THE PROCESS BY WHICH THE CLIENT FORMS AN INTERNAL IMAGE OF A NURTURING PARENT FIGURE.

- **ATTACHMENT REPAIR:** ADDRESSING INSECURE OR DISORGANIZED ATTACHMENT PATTERNS THROUGH THERAPEUTIC INTERVENTIONS.
- **EMOTIONAL REGULATION:** ENHANCING THE CLIENT'S ABILITY TO MANAGE EMOTIONS BY PROVIDING A STABLE INTERNAL SUPPORT SYSTEM.
- **SELF-COMPASSION:** CULTIVATING KINDNESS TOWARD ONESELF TO COUNTERACT SELF-CRITICISM ROOTED IN CHILDHOOD DEFICITS.

CORE TECHNIQUES AND THERAPEUTIC APPROACHES

IDEAL PARENT FIGURE THERAPY EMPLOYS A VARIETY OF TECHNIQUES TAILORED TO THE CLIENT'S NEEDS, FOCUSING ON CREATING AND STRENGTHENING THE INTERNAL IDEAL PARENT FIGURE. THERAPISTS INTEGRATE EXPRESSIVE, COGNITIVE, AND RELATIONAL METHODS TO FACILITATE THIS PROCESS. THE THERAPY IS TYPICALLY CONDUCTED IN INDIVIDUAL SESSIONS BUT CAN BE ADAPTED FOR GROUP SETTINGS.

VISUALIZATION AND GUIDED IMAGERY

VISUALIZATION IS A PRIMARY TECHNIQUE USED TO HELP CLIENTS IMAGINE AND CONNECT WITH THEIR IDEAL PARENT FIGURE. THROUGH GUIDED IMAGERY EXERCISES, CLIENTS PICTURE A CARING, WISE, AND PROTECTIVE FIGURE WHO PROVIDES COMFORT, GUIDANCE, AND UNCONDITIONAL ACCEPTANCE. THIS TECHNIQUE HELPS ACTIVATE POSITIVE EMOTIONS AND BUILDS A SENSE OF SAFETY WITHIN THE CLIENT'S INNER WORLD.

DIALOGUE AND ROLE-PLAYING

THERAPISTS OFTEN ENCOURAGE CLIENTS TO ENGAGE IN IMAGINED DIALOGUES WITH THEIR IDEAL PARENT FIGURE. THIS COMMUNICATION ALLOWS CLIENTS TO EXPRESS UNMET NEEDS, RECEIVE REASSURING RESPONSES, AND PRACTICE SELF-SOOTHING STRATEGIES. ROLE-PLAYING EXERCISES MAY ALSO HELP CLIENTS EMBODY THE QUALITIES OF THE IDEAL PARENT TO STRENGTHEN INTERNAL CAREGIVING CAPACITIES.

INNER CHILD WORK AND EMOTIONAL PROCESSING

IDEAL PARENT FIGURE THERAPY FREQUENTLY INCORPORATES INNER CHILD WORK, WHERE CLIENTS REVISIT PAST EXPERIENCES AND EMOTIONS ASSOCIATED WITH CHILDHOOD WOUNDS. THE THERAPIST GUIDES THE CLIENT IN NURTURING AND COMFORTING THEIR INNER CHILD THROUGH THE PRESENCE OF THE IDEAL PARENT FIGURE, FACILITATING EMOTIONAL PROCESSING AND HEALING.

JOURNALING AND REFLECTIVE EXERCISES

WRITTEN EXERCISES SUPPORT THE THERAPEUTIC PROCESS BY ALLOWING CLIENTS TO EXPLORE THEIR FEELINGS, TRACK PROGRESS, AND DEEPEN THE RELATIONSHIP WITH THEIR IDEAL PARENT FIGURE. JOURNALING PROMPTS MIGHT INCLUDE DESCRIBING THE CHARACTERISTICS OF THE IDEAL PARENT OR RECOUNTING MOMENTS WHEN THE INTERNAL FIGURE PROVIDED SUPPORT.

BENEFITS AND OUTCOMES OF IDEAL PARENT FIGURE THERAPY

ENGAGING IN IDEAL PARENT FIGURE THERAPY YIELDS NUMEROUS PSYCHOLOGICAL AND EMOTIONAL BENEFITS. IT IS EFFECTIVE IN REPAIRING INTERNAL RELATIONAL DEFICITS AND PROMOTING LONG-TERM MENTAL HEALTH IMPROVEMENTS. THE THERAPY SUPPORTS CLIENTS IN DEVELOPING RESILIENCE AND HEALTHIER INTERPERSONAL RELATIONSHIPS.

EMOTIONAL HEALING AND SELF-ACCEPTANCE

ONE OF THE MOST SIGNIFICANT OUTCOMES IS EMOTIONAL HEALING FROM CHILDHOOD NEGLECT OR TRAUMA. BY INTERNALIZING AN IDEAL PARENT FIGURE, CLIENTS LEARN TO ACCEPT THEMSELVES MORE FULLY AND REDUCE FEELINGS OF SHAME, GUILT, AND UNWORTHINESS.

IMPROVED ATTACHMENT AND RELATIONSHIP PATTERNS

IDEAL PARENT FIGURE THERAPY HELPS CLIENTS DEVELOP SECURE ATTACHMENT MODELS, WHICH TRANSFER INTO THEIR ADULT RELATIONSHIPS. CLIENTS OFTEN EXPERIENCE ENHANCED TRUST, EMPATHY, AND COMMUNICATION SKILLS WITH OTHERS FOLLOWING THERAPY.

INCREASED EMOTIONAL REGULATION AND COPING SKILLS

CLIENTS GAIN TOOLS TO REGULATE DIFFICULT EMOTIONS AND COPE WITH STRESS MORE EFFECTIVELY. THE INTERNALIZED IDEAL PARENT FIGURE SERVES AS A STABLE RESOURCE TO MANAGE ANXIETY, DEPRESSION, AND OTHER EMOTIONAL CHALLENGES.

ENHANCED SELF-COMPASSION AND INNER STRENGTH

THE THERAPY FOSTERS GREATER SELF-COMPASSION, ALLOWING CLIENTS TO APPROACH THEMSELVES WITH KINDNESS RATHER THAN HARSH JUDGMENT. THIS SHIFT STRENGTHENS THEIR INNER RESILIENCE AND CAPACITY FOR PERSONAL GROWTH.

APPLICATIONS AND TARGET POPULATIONS

IDEAL PARENT FIGURE THERAPY IS APPLICABLE ACROSS A DIVERSE RANGE OF CLINICAL SETTINGS AND POPULATIONS. IT IS PARTICULARLY BENEFICIAL FOR THOSE WITH COMPLEX EMOTIONAL HISTORIES AND DEVELOPMENTAL TRAUMA.

INDIVIDUALS WITH CHILDHOOD TRAUMA AND NEGLECT

PEOPLE WHO HAVE EXPERIENCED NEGLECT, ABUSE, OR INCONSISTENT CAREGIVING DURING CHILDHOOD ARE PRIME CANDIDATES FOR IDEAL PARENT FIGURE THERAPY. THE APPROACH HELPS ADDRESS THE DEEP EMOTIONAL WOUNDS AND ATTACHMENT DISRUPTIONS CAUSED BY SUCH EXPERIENCES.

CLIENTS WITH ATTACHMENT DISORDERS AND EMOTIONAL DYSREGULATION

THOSE DIAGNOSED WITH ATTACHMENT DISORDERS, INCLUDING REACTIVE ATTACHMENT DISORDER OR DISORGANIZED ATTACHMENT, BENEFIT FROM THE STRUCTURED NURTURING ENVIRONMENT THIS THERAPY PROVIDES. IT ASSISTS IN DEVELOPING EMOTIONAL STABILITY AND SECURE INTERNAL MODELS.

ADULT SURVIVORS OF DYSFUNCTIONAL FAMILY DYNAMICS

ADULTS WHO GREW UP IN DYSFUNCTIONAL FAMILIES, CHARACTERIZED BY PARENTAL ABSENCE, ADDICTION, OR MENTAL ILLNESS, OFTEN FACE CHALLENGES IN FORMING HEALTHY RELATIONSHIPS. IDEAL PARENT FIGURE THERAPY FACILITATES HEALING AND PROMOTES HEALTHIER INTERPERSONAL FUNCTIONING.

USE IN COMPLEMENTARY THERAPEUTIC MODALITIES

IDEAL PARENT FIGURE THERAPY CAN BE INTEGRATED WITH OTHER THERAPEUTIC APPROACHES SUCH AS COGNITIVE-BEHAVIORAL THERAPY (CBT), DIALECTICAL BEHAVIOR THERAPY (DBT), AND TRAUMA-FOCUSED THERAPIES TO ENHANCE OVERALL TREATMENT OUTCOMES.

CHALLENGES AND CONSIDERATIONS IN THERAPY

WHILE IDEAL PARENT FIGURE THERAPY OFFERS SUBSTANTIAL BENEFITS, THERAPISTS AND CLIENTS MAY ENCOUNTER CERTAIN CHALLENGES THAT REQUIRE CAREFUL ATTENTION DURING TREATMENT.

ESTABLISHING TRUST AND SAFETY

CLIENTS WITH HISTORIES OF TRAUMA OR ATTACHMENT DISRUPTIONS MAY INITIALLY STRUGGLE TO ESTABLISH TRUST WITH THE THERAPIST AND THE THERAPEUTIC PROCESS. CREATING A SAFE AND SUPPORTIVE ENVIRONMENT IS ESSENTIAL FOR EFFECTIVE THERAPY.

INDIVIDUAL VARIABILITY IN RESPONSE

NOT ALL CLIENTS RESPOND EQUALLY TO INTERNALIZATION TECHNIQUES OR VISUALIZATION EXERCISES. THERAPISTS MUST TAILOR INTERVENTIONS TO EACH CLIENT'S UNIQUE PSYCHOLOGICAL MAKEUP AND READINESS FOR CHANGE.

INTEGRATION WITH EXISTING THERAPIES

COORDINATING IDEAL PARENT FIGURE THERAPY WITH OTHER ONGOING TREATMENTS REQUIRES CLEAR COMMUNICATION AND STRATEGIC PLANNING TO MAXIMIZE THERAPEUTIC SYNERGY AND PREVENT CONFLICTING APPROACHES.

POTENTIAL FOR EMOTIONAL OVERWHELM

REVISITING CHILDHOOD WOUNDS AND ENGAGING DEEPLY WITH INTERNAL FIGURES CAN EVOKE INTENSE EMOTIONS. THERAPISTS MUST MONITOR CLIENTS' EMOTIONAL STATES AND PROVIDE APPROPRIATE SUPPORT AND PACING.

- ENSURING CONSISTENT THERAPIST SUPPORT THROUGHOUT THE PROCESS
- USING GROUNDING TECHNIQUES TO MANAGE EMOTIONAL INTENSITY
- ADAPTING EXERCISES TO CLIENT COMFORT LEVELS
- EVALUATING PROGRESS REGULARLY TO ADJUST THERAPEUTIC GOALS

Elliott PhD, 2016-09-13 Winner of the 2018 International Society for the Study of Trauma and Dissociation (ISSTD) Pierre Janet Writing Award. A comprehensive treatment approach for the repair and resolution of attachment disturbances in adults, for use in clinical settings. With contributions by Paula Morgan-Johnson, Paula Sacks, Caroline R. Baltzer, James Hickey, Andrea Cole, Jan Bloom, and Deirdre Fay. *Attachment Disturbances in Adults* is a landmark resource for (1) understanding attachment, its development, and the most clinically relevant findings from attachment research, and (2) using this understanding to inform systematic, comprehensive, and clinically effective and efficient treatment of attachment disturbances in adults. It offers an innovative therapeutic model and set of methods for treating adult patients with dismissing, anxious-preoccupied, or disorganized attachment. In rich detail, it integrates historical and leading-edge attachment research into practical, effective treatment protocols for each type of insecure attachment. Case transcripts and many sample therapist phrasings illustrate how to apply the methods in practice. Part I, Foundational Concepts, features a comprehensive overview of the field of attachment, including its history, seminal ideas, and existing knowledge about the development of attachment bonds and behaviors. Part II, Assessment, addresses the assessment of attachment disturbances. It includes an overview of attachment assessment for the clinician and a trove of practical recommendations for assessing patients' attachment behavior and status both outside of and within the therapeutic relationship. In Part III, Treatment, the authors not only review existing treatment approaches for attachment disorders in adults, but also introduce an unprecedented, powerful new treatment method. This method, the Three Pillars model, is built on three essential clinical ingredients: Systematically utilizing ideal parent figure imagery to develop a new positive, stable internal working model of secure attachment Fostering a range of metacognitive skills Fostering nonverbal and verbal collaborative behavior in treatment Used together, these interdependent pillars form a unified and profoundly effective method of treatment for attachment disturbances in adults—a must for any clinician. In Part IV, Type-Specific Treatment, readers will learn specific variations of the three treatment pillars to maximize efficacy with each type of insecure attachment. Finally, Part V, A Treatment Guide and Expected Outcomes, describes treatment in a step-by-step format and provides a success-assessment guide for the Three Pillars approach. This book is a comprehensive educational resource and a deeply practical clinical guide. It offers clinicians a complete set of tools for effective and efficient treatment of adult patients with attachment disturbances.

ideal parent figure therapy: [Progressive Counting Within a Phase Model of Trauma-Informed Treatment](#) Ricky Greenwald, 2013-06-07 Clinicians recognize trauma & loss as a prominent source of clients' problems. Progressive counting represents a significant advance in trauma treatment, because it is about as efficient, effective, and well-tolerated as EMDR while being far simpler for therapists to master and do well. PC's value has already been supported by two open trials and a controlled study. Are you ready to provide therapy that routinely affects profound healing and

lasting change? This book will show you how.

ideal parent figure therapy: *Schema-Focused Working Methods for Arts and Body-Based Therapies* Suzanne Haeyen, 2024-05-20 This book introduces schema-focused working methods for arts and body-based therapies, offering therapists practice-based tools to help their clients strengthen healthy patterns, self-management, and well-being on their path to recovery. Containing 158 schema-focused working methods for different arts and body-based therapies, such as art therapy, dance therapy, drama therapy, music therapy, and body-based or psychomotor therapy, this book offers new ideas and tools for therapists to strengthen their client's adaptive schema modes: the Healthy Adult and the Happy Child. By linking arts and body-based therapies to schema-focused therapy and positive psychology, the goal is to strengthen the client's healthy patterns in emotion regulation and establish a healthier well-being. The theoretical framework in the introduction and the scientific evidence for arts and psychomotor therapies, combined with the practice-based examples, allow for a text that is broad enough for graduate creative therapy programs and specific enough to serve as a shelf reference for those in practice.

ideal parent figure therapy: *Psycho-Legal Concepts for Parenting in Child Custody and Child Protection Vol. 4* Don Tustin, 2024-12-01 This book provides an overview of changes in legislation in Australia concerning both family law and child protection law. The topic is important as the

Australian Government has identified that the rate of mental disorder in some cohorts of children is high and rising. These cohorts of children live in families where they are vulnerable because they are exposed to risk factors that can be changed by a coordinated effort from parents, therapists, and lawyers. The aim of the book is to identify psycho-legal concepts that need to be understood by professionals who work in the fields of child custody and child protection, and to bring these concepts together to improve coordination between the two fields of practice. The purpose of the book is to be a practice manual for professionals from the disciplines of law, social work, and psychologists who work in specialized legal roles dealing with families where children are vulnerable to developing mental health difficulties. Volume 4 of the book provides a perspective from a mental health clinician about concepts and principles that arise in Australian family-oriented courts, and that need to be shared between disciplines. This book proposes that some concepts be identified as psycho-legal as the concepts need to be shared between disciplines who work with court-involved families. The book also proposes that psycho-legal concepts be shared between the jurisdictions of child custody and child protection. In this book, proposals are made to improve collaboration between disciplines and to maximize the best interests of children.

This book is designed to be the most comprehensive reference book in the dissociation field and aims to provide a scholarly foundation for understanding dissociation, dissociative disorders, current issues and perspectives within the field, theoretical formulations, and empirical findings. Chapters have been thoroughly updated to include recent developments in the field, including: the complex nature of conceptualization, etiology, and neurobiology; the various manifestations of dissociation in clinical and non-clinical forms; and different perspectives on how dissociation should be understood. This book is essential for clinicians, researchers, theoreticians, students of clinical psychology psychiatry, and psychotherapy, and those with an interest or curiosity in dissociation in the various ways it can be conceived and studied.

ideal parent figure therapy: *Ethical Issues in the Psychotherapies* Martin Lakin, 1988-02-11 Mental health professionals face many complex questions in the course of their work with clients and patients. Among the most difficult are dilemmas that involve ethical issues. This book presents a forthright exploration of these dilemmas and the ethical considerations they raise. Drawing on extensive interviews, the author identifies common ethical problems that practitioners encounter. What happens, for example, when personal interests intrude into therapy? How can the therapist make an accurate assessment of his or her appropriateness as a care provider for a particular patient? What about confidentiality? How are problematic financial arrangements best addressed? The author goes on to show how these dilemmas may be intensified by the unique assumptions of different therapeutic orientations--individual, group, family, marital, and organizational--and how professionals can learn from such experiences to better understand and apply their particular approach. This analysis--and the words of the therapists themselves--provide

both a guide to practice and a unique store of experience for the growing number of researchers and students concerned with ethical problems in psychotherapy.

ideal parent figure therapy: *Interactive Group Therapy* Jay Earley, 2013-10-28 Interactive Group Therapy is a complete guide to group psychotherapy based on the author's unique integrated approach. Dr. Earley integrates from interpersonal group therapy a focus on the feeling reactions and relationships among group members, from psychodynamic approaches, an appreciation of unconscious processes and childhood origins, and from Gestalt therapy, the importance of awareness, contact, and experimentation. The book develops an action-oriented leadership style for group-centered groups and a new interpersonal understanding of the therapeutic change process in group therapy, leading to an approach that has impressive depth and creativity. It covers both short-term and long-term groups, making it a valuable book for those interested in brief therapies. The primary focus of Interactive Group Therapy is to provide practical guidelines for leading groups. It offers detailed suggestions for structuring groups, creating a therapeutic group climate, promoting interpersonal work, and helping group members develop awareness and responsibility. It discusses how to handle conflict, foster therapeutic change, work with difficult clients, adopt the best leadership attitude, understand group process, and a host of other clinical issues. In addition to rich clinical examples and case histories, this book also presents transcripts of group sessions, annotated to illustrate both theory and technique. The author's thorough presentation of his approach, its theoretical underpinnings, and its application to actual groups make this a valuable resource for graduate students in the mental health professions and psychotherapists of all levels of experience.

Fereday, 2018-05-01 This book is a personal account of the enduring value of an appropriate psychotherapeutic intervention, and is set within the author's lifespan to date. It is also a unique view of how it feels to be the subject of a published case study. Following a long period of resistance to the therapeutic process, a direct channel to the author's unconscious is established via the art of the written word. It is a first person, chronological account of the psychological signposts that relentlessly point the author toward an unavoidable therapeutic encounter, one that will ultimately have the strength to contain her frightening experience of mental disturbance. The reader is afforded the opportunity to watch the story unfold, and to draw their own academic conclusions. Some of the psychological processes are presented in 'real' time, and will help to illustrate the link between experience, theory and practice in psychotherapy.

ideal parent figure therapy: *Pet Loss and Human Emotion, second edition* Cheri Barton Ross, 2013-05-13 This updated edition of Pet Loss and Human Emotion is a step-by-step guide to leading clients through this special kind of grief. Includes resources and a section on pet loss and natural disasters. As society accepts that grieving over the death of a loved one is not only normal, but healthy and necessary, grieving over the loss of a pet is often seen differently. Expressed feelings often go unvalidated when in truth, pet loss is a unique form of grief that can be quite intense and debilitating, increasing an individual's vulnerability to subsequent stress and leaving them feeling isolated and misunderstood. Pet loss needs to be addressed by therapists and others in the helping professions, to better enable them to help their clients through the loss of their companion animals. This unique guide is written for all professionals helping clients deal with the

loss of a pet, and serves as a practical introduction to the field of human-animal bonding. Citing several case studies, it describes various techniques for helping clients when the bond with a pet is broken.

ideal parent figure therapy: The Good Lives Model of Correctional Rehabilitation Tony Ward, Gwenda M. Willis, David S. Prescott, Stijn Vandeveld, Mary Barnao, Wouter Wanzeele, 2025-08-24 The book examines the Good Lives Model (GLM) of correctional rehabilitation and its dual aims of risk reduction and well-being enhancement for individuals who have committed crimes. It describes the use of individuals' prioritized values in intervention plans and to capitalize on and further develop their strengths and reduce the risk for future offending. The book directly addresses the differences between purely risk-oriented rehabilitation correctional models (e.g., Risk-Need-Responsivity Model) and strength-based approaches (e.g., GLM) and the clinical advantages of using the latter. It updates the GLM in the context of recent work in evolutionary biology, quality of life and well-being, cognitive neuroscience, developmental psychology, human rights, naturalistic ethics, criminology, desistance research, and theoretical reformulations of dynamic risk and protective factors. Case studies illustrate the detailed application of GLM evidence-based practice plans to adults convicted of crimes and demonstrate the effectiveness of GLM intervention strategies. Key areas of coverage include: GLM community and within-prison intervention strategies. Incorporating dynamic risk factors into GLM case formulations. Incorporating desistance research in postrelease planning and practice. Policy implications of the GLM. The Good Lives Model of Correctional Rehabilitation is a must-have resource for clinicians, therapists, and other professionals as well as researchers, professors, and graduate students in developmental psychology, family studies, forensic psychology, criminology/criminal justice, public health, psychotherapy/counseling, psychiatry, social work, educational policy and politics, health psychology, nursing, and behavioral therapy/rehabilitation.

Chapters discuss the full scope of incomplete pathological mourning for attachment trauma, including for the first time in the field Failure to Mourn and Preoccupation with Personal Suffering. Seasoned clinical researchers and psychotherapists provide a snapshot of their clients' unique attachment characteristics and defensive exclusion strategies as assessed by the AAP, and discuss how to use this information in treatment, as well as how to present the AAP results

to their clients. This book introduces readers to how the AAP can be used with adolescents, adults, and couples, and in custody evaluation and foster care.

ideal parent figure therapy: *Healers, Harmed & Harmful* Conrad Weiser, 1994 'At a time when clergy misconduct is broadly reported, Conrad Weiser offers a straight forward, theoretically orthodox, and practical way of both understanding and addressing the issues. Leadership laity, and clergy would be served well by reading and reflecting on Weiser's wisdom.' Fr. Canice Connors, OFM

ideal parent figure therapy: *Unlocking the Emotional Brain* Bruce Ecker, Robin Ticic, Laurel Hulley, 2024-04-22 This highly influential volume, now in a much-expanded second edition, delivers major advances for psychotherapy, all empirically grounded in memory reconsolidation neuroscience. A great increase of therapeutic effectiveness can be gained, thanks to a clear map of the brain's innate core process of transformational change—a process that does not require use of any particular system or techniques and is therefore remarkably versatile. Twenty-six case examples show the decisive ending of a vast range of major symptoms, including depression, anxiety, panic, shame, self-devaluing, anger, perfectionism, alcohol abuse, sexual aversion, compulsive eating and obesity, paralyzed self-expression, and teen ADHD—all transformed through deeply resolving underlying disturbances such as complex trauma, lifelong oppression by systemic racism and homophobia, childhood sexual molestation, parental narcissistic domination, violent assault trauma, natural disaster trauma, and childhood traumatic aloneness and neglect. This is a transdiagnostic, transtheoretical, lucid understanding of therapeutic action, based, for the first time in the history of the psychotherapy field, on rigorous empirical knowledge of an internal mechanism of change, and it achieves a fundamental unification of the confusingly fragmented psychotherapy field: diverse systems no longer seem to belong to different worlds, because they now form a wonderful repertoire of options for facilitating the same core process of transformational change, as shown in case examples from AEDP, Coherence Therapy, EFT, EMDR, IFS, IPNB, ISTDP, psychedelic-assisted therapy, and SE. It's now clear why therapy systems that differ strikingly in technique and theory can produce the same quality of liberating change. Practitioners who value deep connection with their clients are richly rewarded by the experiential depth that this core process accesses, where no awareness had previously reached, whether sessions are done in person or via online video. It is an embarrassment of riches, because in addition we gain the decisive resolution of several longstanding, polarizing debates regarding the nature of symptom production, the prevalence of attachment issues, the operation of traumatic memory, the functions of the client-therapist relationship, the role of emotional arousal in the process of change, and the relative importance of specific versus non-specific factors.

ideal parent figure therapy: Sexual Grounding Therapy Geoff Lamb, 2021-05-16 This important book explores the history of sexuality and the breadth of support available to people experiencing sex and relationship challenges, presenting a model of psychosexual therapy that's contextualised in the past, present and future and examined within a developmental and relational framework. Sexual Grounding Therapy focusses on the work of Willem Poppeliers, who developed his unique approach to sex and relationship issues in the 1990s. Geoff Lamb explores the model's historical context; offers a comparison with other contemporary approaches, both mainstream and alternative; describes the model and its application in detail; and looks at future directions for this innovative work. While Poppeliers' approach to psychosexual therapy is radical, Geoff's book emphasises and goes beyond this, taking a controversial stance on such topics as sexuality and religion, psychotherapy and science, and the position of both psychotherapy and psychosexual therapy in today's society. Sexual Grounding Therapy explores how people's needs at each stage of their lifelong psychosexual development relate to any current sex and relationship problems they may be experiencing. It will be invaluable, not only to professionals – counsellors, psychotherapists and others whose work involves sex and relationships – but also to readers who are interested in exploring their own self-development and relationships from a historical, social and family perspective.
