## Understanding IFS Level 1 Training

IFS Level 1 training introduces the Internal Family Systems model, a form of psychotherapy developed by Dr. Richard Schwartz. This model views the mind as composed of multiple subpersonalities or "parts," each with its own perspectives and roles. The training focuses on helping participants recognize these parts and cultivate the Self, a core state of calmness, confidence, and compassion. The Level 1 course lays the groundwork for understanding how to identify and work with various internal parts such as managers, exiles, and firefighters. Participants gain practical skills to facilitate healing and integration within themselves or their clients.

## Overview of the Internal Family Systems Model

The Internal Family Systems approach conceptualizes the psyche as a system of interacting parts. These parts often have conflicting roles, leading to internal tension and distress. The Self is considered the natural leader of this internal family, capable of healing wounded parts and restoring harmony. IFS promotes non-pathologizing, compassionate engagement with all parts rather than suppressing or eliminating them.

## Goals of IFS Level 1 Training

The primary goals include developing a deep understanding of IFS theory, learning basic techniques for identifying and working with parts, and cultivating the qualities of the Self. Trainees are equipped to apply these methods in clinical or personal contexts, enhancing emotional regulation, trauma recovery, and relational dynamics.

The IFS Level 1 training curriculum covers theoretical knowledge, experiential exercises, and practical demonstrations. It typically spans several days and combines lectures, group activities, and supervised practice. The training emphasizes both intellectual comprehension and embodied experience of IFS principles.

**ifs level 1 training: The Perfectionist's Dilemma** Tara Cousineau, 2025-01-07 "A brilliant book...a must-read for the frazzled perfectionist." —Thomas Curran, PhD, leading perfectionism researcher and author of The Perfection Trap Break free of toxic perfectionism by cultivating emotional courage and self-compassion to face life's challenges with a 6-step program. In today's high-pressure society, we are constantly fed a fable of individualism, exceptionalism, determination, and ingenuity and taught a mythology of grin and bear it; no pain, no gain; and hard work pays off, despite the fact that the conditions for success are unpredictable and ever changing. Psychologist Tara Cousineau claims that perfectionism is a paradox: it is the tension created by the need for belonging, a desire for excellence, and a quest for a meaningful and productive life. But perfectionism can be transformed by learning to connect both head and heart, replacing inner algorithms of comparison and criticism with self-acceptance and self-compassion. In The Perfectionist's Dilemma, Cousineau introduces an innovative six-step solution based on the acronym EVOLVE: Embody the present moment. Validate your experience. Open your heart. Love your inner critic. Make a Vow. Spark the Energy of excellence. EVOLVE helps readers overcome perfectionism and cultivate three essential resources—inner worth, inner humanity, and inner leadership. Through storytelling and anecdotes from recovering perfectionists who have participated in Cousineau's workshops, readers can learn to align mind, body, heart, and spirit—to become happy achievers.
