if i were an animal quiz: *The Animal's Companion* Jacky Colliss Harvey, 2019-04-02 A unique and compelling exploration of why humans need animal companions -- from dogs and cats to horses, birds, and reptiles -- through the eyes of a New York Times bestselling historical detective author. In *The Animal's Companion*, the acclaimed social anthropologist and author of *Red: A History of the Redhead* turns her keen eye for cultural investigation toward uncovering why humans have such a strong desire to share everyday life with pets. It's a history that can be traced back to a cave in France where anthropologists discovered evidence of a boy and his dog taking a walk together -- 26,000 years ago. From those preserved foot and paw prints, Jacky Colliss Harvey draws on literary, artistic, and archaeological evidence to sweep readers through centuries and across continents to examine how our relationships with our pets have developed, but also stayed very much the same. Through delightful stories of the most famous, endearing, and sometimes eccentric pet owners throughout history, Colliss Harvey examines the when, the how, and the why of our connection to the animals we take into our lives, and suggests fascinating new insights into one of the most long-standing of all human love affairs.
