## Overview of the IELTS Test

The IELTS test is an internationally recognized English language proficiency exam designed to assess the language skills of non-native English speakers. It is widely accepted for academic, professional, and immigration purposes. The test evaluates four primary language skills: Listening, Reading, Writing, and Speaking. Each section has specific formats and scoring criteria, making it essential for candidates to understand the structure thoroughly before preparation.

## Test Format

The IELTS test exists in two versions: Academic and General Training. Both versions share the Listening and Speaking sections, but the Reading and Writing components differ to suit the test taker's goals. The total test time is approximately 2 hours and 45 minutes. The Listening section consists of four recordings, the Reading section includes 40 questions, the Writing section requires two tasks, and the Speaking section is a face-to-

face interview.

## **Scoring System**

IELTS scores range from 0 to 9 bands, representing different levels of English proficiency. Each section is scored individually, and the overall band score is an average of the four sections.
