**illegal pete s nutrition information: Dispossession** Pete Daniel, 2013-03-29 Between 1940 and 1974, the number of African American farmers fell from 681,790 to just 45,594--a drop of 93 percent. In his hard-hitting book, historian Pete Daniel analyzes this decline and chronicles black farmers' fierce struggles to remain on the land in the face of discrimination by bureaucrats in the U.S. Department of Agriculture. He exposes the shameful fact that at the very moment civil rights laws promised to end discrimination, hundreds of thousands of black farmers lost their hold on the land as they were denied loans, information, and access to the programs essential to survival in a capital-intensive farm structure. More than a matter of neglect of these farmers and their rights, this passive nullification consisted of a blizzard of bureaucratic obfuscation, blatant acts of discrimination and cronyism, violence, and intimidation. *Dispossession* recovers a lost chapter of the black experience in the American South, presenting a counternarrative to the conventional story of the progress achieved by the civil rights movement.

**illegal pete s nutrition information: Sports and Scandals** Edward J. Lordan, 2014-06-11 Sports are inspiring and uplifting. They can also bring out some of the worst characteristics in human nature: narcissism, prejudice, greed. This book looks at the major sports scandals in modern American history, from the Black Sox fix of 1919 to the current concussion crisis in the NFL. With today's digital media and the tremendous amount of money involved in sports, scandals are becoming more frequent and more damaging. How should a sports league respond to a scandal, act to protect the integrity of their organization, and address their many audiences—the fans, the media, and other players—when things go wrong? This book covers the big three sports—football, baseball, and basketball—to illuminate some of the biggest scandals in the history of American sports, using case studies to explain the scandals and the organizations' responses to crises. The work examines the major sports scandals in the 20th and 21st centuries, including the Black Sox fix of 1919, the institutional racism faced by Jackie Robinson in the late 1940s, the point-shaving scheme in 1950s-era college basketball, and unresolved crises that continue to damage sports today. Author Edward J. Lordan describes the historic conditions surrounding the scandals and administrators' responses to identifying, addressing and, when possible, resolving these crises.
