illinois art education association: *Authentic Secondary Art Assessment* Cathy Smilan, Richard Siegesmund, 2023-09-11 Offering a contemporary overview of how visual art teachers assess learning in their classrooms, this book provides an outline of the role of assessment in reporting not only student achievement but also how student assessment ties to the intrinsic and external assessments of teacher performance. Compiled using stories from the classrooms of 19 visual art high school teachers who share their approaches to benchmarking student success, the text encourages teachers to consider assessment both for guiding their students to achieve artistic goals and for re-envisioning their own curriculum and instruction. The featured assessment snapshots fall along four strands: Visual Narratives and Visual Literacy; Capturing Empathic Understandings and Social Engagement; Measuring Risk-taking and Ingenuity; and Assessing Collaborative and Integrated Learning Outcomes. Across these sections, teacher contributors offer different perspectives for student assessment, capturing a snapshot of the work of skilled

practitioners and focusing on various aspects of what can be evidenced and analyzed through formative and summative evaluation. The voices of university level art educators are also included to expand the range of context from curriculum and instruction content that is covered in pre-service art methods courses. All sections also conclude with a summary, questions, and discussion points. Including diverse teacher voices as well as presenting assessment perspectives with an eye to the National Core Art Standards (NCAS), this book is ideal for pre-service and in-service secondary art educators, as well as for use in art education teacher certification courses that focus on secondary methods, and art education graduate classes in assessment.

North American Women Artists of the Twentieth Century: A Biographical Dictionary was created to fill a gap of there being a comprehensive reference work like this available, even though the bibliography in English on various aspects of the history of women artists has grown exponentially during the past ten years. As researchers, the editors have been frustrated many times by being unable to locate basic information about many of the artists included in this volume—especially those working outside the United States. This leads directly to another reason for producing this particular kind of reference book—to try and create a better understanding between and among the artists and art audiences in these countries.

His name is John and he is feeling anxious and frightened at his new school, until one student makes John feel accepted by her kindness and generosity. Sometimes all we need is a friend to help guide us in the right direction. I came up with the idea for this book when I was reading Christmas stories to my kids one night before they went to bed. I thought to myself, I am a fifth grade teacher and I could write a book to help kids feel more accepted and safe in a new situation. To keep this book more personal to me, I asked my friend and the art teacher at my school, Abe Lee to illustrate the book. It was fun and entertaining to work with Abe on this book.
