What could be better? Matt Rife is well aware that he's both the most loved and the most controversial comic in America today. And honestly, he thinks that's your problem. Matt reveals (without apology, of course) what led him to becoming comedy's biggest lightning rod before he reached thirty, in a story full of bold and hysterical takes on everything from Justin Bieber tramp stamps and rap battles with ex-cons to Matt's struggles with depression and his many brushes with failure before finally hitting it big. Born in trashy backwoods Ohio, Matt was saved by his foul-mouthed but loving grandpa Steve, who fostered his passion for standup. He started hitting comedy clubs before he could even drink, cutting his teeth in front of crowds who dared him to succeed. Matt honed a brand of razor-sharp, brutally honest standup that took no prisoners—and took him to the most famous stages of Atlanta and LA before he graduated high school. Along the way, he broke the hearts of MILFs everywhere, finally hit puberty at the ripe age of twenty-two, and never, ever backed down. Full of Matt opening up, at his unfiltered best, about his life for the very first time, this book will give his millions of fans everything they want and more—and might even get his insecure enemies to change their minds.

He also addresses current issues such as feminism, charismatic gifts, sexual ethics, environmentalism, other religions, the nature of truth, and civil liberties. matt rife sign language: **Kill Talk** Janet McIntosh, 2025-05-14 The language used by American military personnel can be intense and confrontational, yet the relationship between language and military violence is rarely examined in depth. This groundbreaking book offers a unique perspective on how language facilitates the work of combat infantry-the state's killable killers. Through vivid ethnographic research, Janet McIntosh meticulously traces the nuances of military kill talk as it permeates the vast nervous system of the military, from the first exposure to yelling in Marine Corps basic training to the dark humor and nihilistic expressions found in war zones in Vietnam and the Middle East. McIntosh reveals how military trainers use language to deindividuate, toughen, and masculinize recruits, while infantry soldiers develop distinct linguistic repertoires and attitudes to suppress empathy, dehumanize and racialize the enemy, cope with loss, and dwell in a moral gray zone. Kill Talk also addresses national debates over language use in a diverse world, exploring tensions between calls for sensitivity and restraint in military speech and the perception that these can threaten national security. The book highlights the contradictions between the rhetoric of military honor and moral integrity and the harsh, sometimes depraved, language of combatants, suggesting that these paradoxes enable military violence yet contribute to moral injury. It concludes with an exploration of veteran poets and artists who have found innovative ways to use language and other forms of expression to critique military institutions and begin the process of demilitarizing their psyches.

matt rife sign language: *TheoMedia* Andrew Byers, 2014-08-28 The church can be uncertain of itself in our digital age. Some Christians denounce the twenty-first century's media culture while others embrace the latest gadgets and apps as soon as they appear. Many of us are stumbling along amidst the tweets, status updates, podcasts, and blog posts, wondering if we have ventured into a realm beyond the scope of biblical wisdom. Though there is such a thing as 'new media', Andrew Byers reminds us that the actual concept of media is ancient, theological, and even biblical. In fact, there is such a thing as the media of God. 'TheoMedia' are means by which God communicates and reveals himself - creation, divine speech, inspired writings, the visual symbol of the cross, and more. Christians are actually called to media saturation. But the media that are to most prominently saturate our lives are the media of God. If God creates and uses media, then Scripture provides a theological logic by which we can create and use media in the digital age. This book is not an unqualified endorsement of the latest media products or a tirade against media technology. Instead, Byers calls us to rethink our understanding of media in terms of the media of God in the biblical story of redemption.

Pharma are making us less healthy – all at very high cost. The evil, graft, and corruption in government and large institutions are being revealed to those willing to see and acknowledge the proof that is presented to them. But it seems nobody dares look behind the curtain of religion. When Martin Luther first visited Rome, he was shocked at the corruption and perversion of the Roman Catholic Church he witnessed—so shocked that he started the Protestant Reformation. But the dirty secret is that the deceit, fraud, graft, and corruption in Christianity, as well as other religions, has gotten greater and more pervasive since the beginning of the Protestant Reformation. Because of the Angels pulls back the curtain on Christian religion, reveals the rampant adultery and idolatry, and lays out the simple clear guidance in the Bible that will fulfill Jesus's requests in His High Priestly Prayer (John 17).
