mckinley classical leadership academy: Transcending the Game Shawn F. Briscoe, 2023-12-14 A pathway to community, growth, and change This collection of inclusive essays explores the role of debate in understanding and critiquing injustice and inequality. Edited by Shawn F. Briscoe, these essays closely examine multiple approaches to debate, considering their respective merits and controversies. This detailed compilation analyzes how debate methodologies are useful in everyday life and whether certain approaches have any value at all. Briscoe provides an in-depth look into the varying styles of debate and contributes to a greater understanding of argument theory by discussing three stylistic approaches: audience-centered, technical/progressive, and nontraditional/performative. The book demonstrates that all three approaches offer students opportunity to engage in a socioemotional learning space, a discipline that prepares students for undergraduate and graduate work, a study that prepares participants for future careers, and a field that investigates current controversies and how to tackle them. Briscoe offers compelling narratives from BIPOC, LGBTQIA, and women authors that explore the personal impact of debate on social equality within this academic discipline, our educational system, and society. The diversity in gender and race of the contributing authors allows for a multitude of perspectives on the complex styles, benefits, and issues discussed in Transcending the Game. Briscoe peels back the mystery that shrouds the benefits of academic, competitive debate from outsiders and insiders alike. A myriad of personal narratives tell stories about the role of debate in their lives; challenge the unproductive

discourse in debate, education, and society; and offer diverse insight into why we debate.

mckinley classical leadership academy: Douglas MacArthur Russell D. Buhite, 2008-04-18 Buhite offers a trenchant evaluation of Douglas MacArthur's career in east Asia and his role in some of the most important military and diplomatic issues of the twentieth century. Concise and highly readable, this biography considers diplomatic fact in light of psychological insight, and asks us to look anew at both MacArthur and American involvement in the region. From Manila to Washington, with Tokyo and Seoul in between, readers follow the course of American foreign diplomacy in East Asia via MacArthur's own career. This fascinating intersection of personality and policy would make for newsreel footage and newspaper headlines, such as when he waded ashore Luzon Island in the Philippines and sent Washington provocative communiqués about the People's Republic of China. Yet, as Buhite shows, grand gestures are not the substance of great foreign policy, and MacArthur's reputation merits critical reassessment. This is a must read for those interested in diplomatic and military history.
