## Program Overview and Structure

The McLaren Greater Lansing Internal Medicine Residency is a three-year postgraduate training program designed to equip physicians with the knowledge and skills necessary for comprehensive internal medicine practice. The program is accredited by the Accreditation Council for Graduate Medical Education (ACGME), ensuring adherence to rigorous educational standards. Residents gain experience in inpatient and outpatient settings, managing a wide range of medical conditions under the supervision of experienced faculty. The residency emphasizes a patient-centered approach, fostering the development of clinical reasoning, procedural skills, and professionalism.

## Program Goals and Objectives

The primary goal of the McLaren Greater Lansing Internal Medicine Residency is to train residents to become competent, compassionate internists capable of providing high-quality care. The program objectives include developing proficiency in diagnosing and managing common and complex medical diseases, promoting lifelong learning, and encouraging scholarly activities. Residents are also trained to work effectively within interdisciplinary teams and to communicate clearly with patients and

colleagues.

## **Training Sites and Facilities**

Training takes place at McLaren Greater Lansing Hospital and affiliated outpatient clinics. The hospital is equipped with state-of-the-art technology and offers diverse clinical experiences in general medicine, critical care, cardiology, endocrinology, infectious diseases, and other subspecialties. The outpatient clinics provide continuity of care opportunities, allowing residents to manage chronic illnesses and preventive care. Access to advanced diagnostic and treatment resources enhances the learning environment.

## **Curriculum and Clinical Training**

The curriculum of the McLaren Greater Lansing Internal Medicine Residency is designed to provide comprehensive exposure to all aspects of internal medicine. It combines didactic teaching, hands-on clinical rotations, and case-based learning to ensure well-rounded training. The program integrates core rotations in general medicine with subspecialty experiences and elective options, allowing residents to tailor their education to their interests and career goals.

## **Core Clinical Rotations**

Residents complete mandatory rotations in key areas such as:

- General Medicine Inpatient Services
- Intensive Care Unit (ICU)
- Cardiology
- Endocrinology
- Gastroenterology
- Infectious Diseases
- Rheumatology
- Nephrology

These rotations provide extensive exposure to a variety of patient populations and disease processes, ensuring residents develop diagnostic acumen and treatment skills.

## **Outpatient Continuity Clinic**

The outpatient continuity clinic is a vital component of the residency, enabling residents to follow patients longitudinally and manage chronic conditions. This experience cultivates skills in preventive medicine, patient education, and long-term care coordination. Residents develop relationships with patients and gain insight into the social determinants of health.

## **Didactic Sessions and Conferences**

Weekly conferences, including morning reports, grand rounds, morbidity and mortality conferences, and journal clubs, supplement clinical training. These sessions reinforce evidence-based medicine, clinical guidelines, and emerging research. Faculty-led lectures and interactive case discussions foster critical thinking and medical knowledge.

## **Faculty and Mentorship**

The residency program benefits from a dedicated team of experienced faculty members committed to resident education and professional development. Faculty physicians represent a broad range of internal medicine subspecialties, providing expert guidance and mentorship throughout the training period. Their clinical expertise and academic involvement enrich the learning environment.

## **Role of Faculty in Resident Training**

Faculty members supervise clinical care, offer constructive feedback, and assist in career planning. They facilitate skill development in patient management, procedural techniques, and clinical reasoning. Faculty also support residents in scholarly projects, presentations, and board exam preparation.

## **Mentorship Programs**

The program encourages mentorship relationships between residents and faculty to promote personal growth and career advancement. Mentors help residents navigate professional challenges, explore subspecialty interests, and identify research opportunities. This mentorship fosters a supportive and collaborative residency culture.

## **Research and Academic Opportunities**

Research is a valued component of the McLaren Greater Lansing Internal Medicine Residency, offering residents opportunities to engage in scholarly activities. Participation in research enhances critical thinking, evidence-based practice, and academic productivity. The program supports resident involvement in clinical research, quality improvement projects, and case reports.

## **Research Resources and Support**

Residents have access to institutional resources including research coordinators, statistical support, and medical library services. Faculty mentors provide guidance in study design, data analysis, and manuscript preparation. The program encourages presentations at local and national conferences to showcase resident scholarship.

## **Quality Improvement and Patient Safety**

In addition to traditional research, residents participate in quality improvement initiatives aimed at enhancing patient care and safety. These projects promote system-based practice skills and interprofessional collaboration. Residents learn to identify gaps in care and implement effective solutions.

## **Resident Life and Support Services**

The McLaren Greater Lansing Internal Medicine Residency fosters a supportive environment that promotes resident wellness and professional balance. The program emphasizes work-life integration, mental health resources, and opportunities for social engagement. Residents benefit from a collegial atmosphere that encourages teamwork and mutual respect.

## **Wellness Programs**

Wellness initiatives include access to counseling services, stress management workshops, and wellness activities. The program prioritizes resident well-being to prevent burnout and enhance job satisfaction. Regular check-ins and open communication channels support emotional health.

## **Housing and Community**

Lansing offers affordable housing options and a vibrant community with cultural, recreational, and educational amenities. The residency provides guidance on relocation and local resources to ease the transition for new residents. Social events and resident committees foster camaraderie and networking.

## **Application Process and Eligibility**

Prospective applicants to the McLaren Greater Lansing Internal Medicine Residency must meet established eligibility criteria and complete a competitive application process. The program participates in the National Resident Matching Program (NRMP) and follows standard timelines for application submission and interviews.

## **Eligibility Requirements**

Applicants must have graduated from an accredited medical school, possess a valid ECFMG certification if international medical graduates, and have completed required examinations such as USMLE or COMLEX. Strong academic performance, clinical experience, and professionalism are essential considerations.

## **Application Components**

1. Completed ERAS application with personal statement
2. Curriculum vitae highlighting clinical and research experiences
3. Letters of recommendation from clinical faculty
4. Medical school transcripts
5. USMLE or COMLEX scores

Selected candidates are invited for interviews to assess their fit with the program's culture and goals. The residency seeks motivated, compassionate individuals dedicated to internal medicine excellence.

**mclaren greater lansing internal medicine residency:** *Internal Medicine* Benjamin Galen, 2012 The transition from medical student to physician is one of the most important events in the life of a young doctor. From the moment medical school graduates step foot on the internal medicine ward as real doctors, they will be leaving behind civilian life forever. Hereafter, patients, family and friends will look to the new doctor for help and healing, counting on years of study and training to have provided the tools to diagnose and treat disease. Residency is a challenging time because doctors are charged with learning as much as they can, but are also hospital employees with a job to perform. The hope of this guide is that an intern will be able to navigate the rocky waters of internship whether remaining in internal medicine residency or matriculating to another field such as dermatology, neurology, anesthesiology, or radiology. This guide is not a practical how-to, as a residency program should provide such support. It is, however, designed to help interns maneuver the pitfalls of the workplace, navigate interpersonal interactions and utilize the best tools and practices during the course of their internship.

**mclaren greater lansing internal medicine residency:** *Intern Survival Guide* Thein Tun Aung, Shelini Sooklal, Swezinmar Oo, 2014-05-16 This book was conceptualized after observing the struggles of interns during the first months of residency. As new medical graduates or foreign graduates, the transition to residency can be a daunting one. The tips and advice suggested in this book initially started out as a 2-page list. After rave reviews from interns at our hospital, it was expanded to include practical advice on a range of situations encountered by interns daily. The authors hope these pointers can empower new interns to approach the coming months with confidence and ever-increasing competence.

**mclaren greater lansing internal medicine residency:** **Training Physicians** Claire H. Kohrman, Ronald Andersen, Mary Margaret Clements, 1994 The authors explore numerous factors that significantly changed internal medicine training programs. Based on extensive interviews with chairmen, program directors, practitioners, and faculty, the authors show how the economic,

legislative, and regulative environment has dramatically changed the hospital environment, shortening hospital stays and shifting care to ambulatory settings.

IMG Guide, Applicant Applicant Guide, 2015-05-26 In Collaboration between the Applicant Guide and the IMG Guide we present to you the most complete and up-to-date IMG friendly internal medicine residency programs list with full match selection criteria and requirements for these programs. This book is essentially written for international medical graduates seeking residency in the US. The idea of writing this book came from our insight that many IMGs every year don't match because they don't know where to apply. Most of the time, they end applying to programs that don't have IMGs or those that don't match their criteria hence they end losing money with no interviews earned. The information was gathered from program directors, coordinators, chiefs, faculty and residents. It includes Programs names, Programs codes, States, Addresses, Phones, Faxes, Percentage of IMGs in the programs, Minimum USMLE Step 1 and Step 2 Score Requirements, Attempts on any step, CS requirement at time of application, USCE Requirements, Cut-Off time since graduation, Programs offering couple match and Visas Sponsored or accepted.
