portland sea dogs statistics: We Average Unbeautiful Watchers Noah Cohan, 2019-07 Sports fandom--often more than religious, political, or regional affiliation--determines how millions of Americans define themselves. In *We Average Unbeautiful Watchers*, Noah Cohan examines contemporary sports culture to show how mass-mediated athletics are in fact richly textured narrative entertainments rather than merely competitive displays. While it may seem that sports narratives are written by athletes and journalists, Cohan demonstrates that fans are not passive consumers but rather function as readers and writers who appropriate those narratives and generate their own stories in building their sense of identity. Critically reading stories of sports fans' self-definition across genres, from the novel and the memoir to the film and the blog post, *We Average Unbeautiful Watchers* recovers sports games as sites where fan-authors theorize interpretation, historicity, and narrative itself. Fan stories demonstrate how unscripted sporting entertainments function as identity-building narratives--which, in turn, enhances our understanding of the way we incorporate a broad range of texts into our own life stories. Building on the work of sports historians, theorists of fan behavior, and critics of American literature, Cohan shows that humanistic methods are urgently needed for developing nuanced critical conversations about athletics. Sports take shape as stories, and it is scholars in the humanities who can best identify how they do so--and why that matters for American culture more broadly.

portland sea dogs statistics: *Who Let Them In?* Joanne Lannin, 2022-06-09 An inspiring look at the women who broke the glass ceiling in sports journalism. Women in sports journalism have faced an uphill battle to succeed within the "old boy" world of sports. The early trailblazers faced colleagues who ignored them, athletes who tried to humiliate them, fans who ridiculed them, and executives who kept them from doing their jobs—challenges many still face today. In *Who Let Them In?* Pathbreaking Women in Sports Journalism, Joanne Lannin recounts the stories of the tenacious and resilient female sportscasters and writers who paved the way for those that followed. Exclusive interviews with such pioneers as CBS Sports' Lesley Visser, NFL Today's Andrea Kremer, and Baseball Hall of Fame inductee Claire Smith reveal the many challenges these women faced as they sought to break down the gender-based barriers that kept them from press boxes, locker rooms, and broadcast booths. And while great strides have been made in the sports world to correct the gender imbalance, Lannin discusses how misogyny and sexual harassment continues to permeate the industry even today. *Who Let Them In?* offers compelling insight into how women sports journalists broke into this male-dominated field and managed to stay there, despite the many obstacles put in their way. It shows the sacrifices and commitment it takes to succeed in sports journalism and discusses what the future may hold for women in a media landscape that continues to evolve almost daily.
