The Historical Origins of the Papacy

The pope is traditionally considered the successor to Saint Peter, one of Jesus Christ's apostles, who is believed to have been the first bishop of Rome. This spiritual lineage established the foundation for the pope's role as a religious leader.

Early Development of Papal Authority

By the fourth century, after Emperor Constantine legalized Christianity through the Edict of Milan in 313 CE, the bishop of Rome's influence expanded significantly. The Council of Nicaea in 325 CE further cemented the church's hierarchical structure, with the pope gaining recognition as a central figure in Christian leadership.

Establishment of the Papal States
