Exam Pattern and Syllabus Overview

The exam pattern and syllabus for post office exams provide a structured framework for the questions that candidates can expect. Understanding this framework is essential for efficient preparation and scoring well.

Exam Structure

Typically, the post office exam is an objective-type test with multiple-choice questions. The number of questions, marking scheme, and duration differ based on the specific post. For example, Postal Assistant exams usually have sections on General Knowledge, Mathematics, English Language, and Reasoning, whereas GDS exams may focus more on basic arithmetic and language skills.

Marking Scheme and Duration

The marking scheme usually awards one mark for each correct answer with negative marking applicable in some exams, penalizing incorrect responses by a fraction of the total marks. The total duration ranges from 60 to 90 minutes, requiring candidates to manage their time effectively across sections.

Syllabus Highlights

The syllabus aligns closely with the question types discussed previously. Candidates should focus on the following key areas:

1. Quantitative Aptitude: Arithmetic operations, data interpretation, and problem-solving.
