

# syria human development index

**syria human development index** is a critical measure that reflects the overall well-being and socio-economic progress of the Syrian population. The human development index (HDI) evaluates key dimensions such as life expectancy, education, and per capita income, providing a comprehensive snapshot of the country's development status. Given the prolonged conflict and humanitarian crisis in Syria, understanding the fluctuations and current state of the Syria human development index is essential for policymakers, researchers, and international organizations. This article explores the historical trends, current challenges, and future prospects related to Syria's HDI. It also examines the impact of conflict, displacement, education, healthcare, and economic factors on the human development landscape. Finally, the article highlights key strategies and interventions aimed at improving the Syria human development index in the coming years.

- Overview of the Syria Human Development Index
- Historical Trends and Impact of Conflict
- Dimensions Affecting Syria's Human Development Index
- Current Challenges in Human Development
- Efforts and Strategies to Improve Syria's HDI

## Overview of the Syria Human Development Index

The Syria human development index is a composite statistic used to rank countries based on human development levels. It combines indicators of life expectancy, educational attainment, and income levels to present a broad measure of human well-being. The United Nations Development Programme (UNDP) regularly publishes the HDI, offering insights into how nations develop beyond purely economic factors. For Syria, the HDI provides a vital lens to assess the implications of years of conflict, economic sanctions, and social upheaval on its population's quality of life.

## Definition and Components of HDI

The human development index comprises three main components:

- **Health:** Measured by life expectancy at birth, indicating the ability to live a long and healthy life.

- **Education:** Assessed through mean years of schooling for adults and expected years of schooling for children entering school.
- **Standard of Living:** Evaluated by Gross National Income (GNI) per capita, adjusted for purchasing power parity.

These elements combine to create a composite index ranging from 0 to 1, where higher values reflect higher human development.

## Current HDI Ranking of Syria

As of the latest available data, Syria's human development index has experienced a significant decline compared to pre-conflict years. The country currently ranks in the low to medium human development category, reflecting the severe impact of war and instability on health services, education systems, and economic productivity. This ranking underscores the urgent need for concerted efforts to rebuild and enhance human development indicators across Syria.

## Historical Trends and Impact of Conflict

The trajectory of Syria's human development index has been profoundly shaped by its socio-political history, particularly the ongoing conflict since 2011. Prior to the conflict, Syria had made moderate progress in improving education, healthcare, and income levels. However, the civil war has caused widespread destruction of infrastructure, displacement of millions, and a collapse of public services, all severely affecting the HDI components.

## Pre-Conflict Development Progress

Before 2011, Syria showed steady improvements in human development. Efforts to expand educational access, improve healthcare coverage, and increase economic growth contributed to gradual HDI improvements. The government invested in social services, leading to increased literacy rates and life expectancy.

## Consequences of the Syrian Conflict on HDI

The prolonged conflict has led to:

- Massive population displacement, both internally and externally.
- Destruction of hospitals, schools, and infrastructure.
- Reduced access to healthcare and education.

- Economic collapse, leading to increased poverty and unemployment.
- Declining life expectancy due to violence and healthcare deterioration.

These factors collectively contributed to a sharp decline in Syria's human development index over the past decade.

## **Dimensions Affecting Syria's Human Development Index**

The three core dimensions of the HDI—health, education, and income—have each faced unique challenges in Syria's context. Understanding the specific pressures on these parameters provides a clearer picture of the country's human development status.

### **Health and Life Expectancy**

Health indicators have deteriorated significantly due to the destruction of healthcare infrastructure, shortages of medical supplies, and the exodus of health professionals. Life expectancy at birth has decreased because of increased mortality rates from conflict-related injuries, malnutrition, and lack of access to essential health services.

### **Education and Literacy Rates**

Education has been severely disrupted, with many schools damaged or destroyed. Millions of children are out of school due to displacement, insecurity, and economic hardship. This disruption has led to decreased mean years of schooling and diminished educational outcomes, negatively impacting the education component of the HDI.

### **Income and Economic Conditions**

The Syrian economy has contracted dramatically, with high inflation, unemployment, and loss of productive capacity. The collapse of traditional economic sectors, combined with sanctions and instability, has reduced per capita income and worsened living standards. This economic decline is a major contributor to the low HDI score.

## **Current Challenges in Human Development**

Several ongoing challenges hinder efforts to improve the Syria human development index. These challenges span social, economic, and political

domains and require multifaceted approaches for resolution.

## **Humanitarian Crisis and Displacement**

The displacement of over half of Syria's pre-war population has created severe humanitarian challenges. Refugees and internally displaced persons (IDPs) face limited access to basic services, education, and employment opportunities, all of which adversely affect human development indicators.

## **Damage to Infrastructure and Public Services**

Significant portions of Syria's healthcare and education infrastructure remain damaged or destroyed. Public service delivery is inconsistent, especially in conflict-affected and opposition-controlled areas, limiting access to essential human development services.

## **Economic Instability and Poverty**

Economic instability has led to widespread poverty, food insecurity, and unemployment. The decline in income levels directly impacts living standards and limits the capacity of households to invest in health and education.

## **Social and Political Fragmentation**

The fragmentation of governance and ongoing conflict complicate coordination of development efforts. Political instability reduces the effectiveness of programs aimed at improving human development outcomes.

## **Efforts and Strategies to Improve Syria's HDI**

Despite the challenges, various initiatives and strategies are being pursued to improve the Syria human development index. These efforts involve national authorities, international organizations, and civil society actors working to rebuild and enhance human development indicators.

## **Humanitarian Assistance and Development Programs**

Humanitarian aid focuses on addressing immediate needs such as food, healthcare, and education for vulnerable populations. Development programs aim to restore infrastructure, improve service delivery, and support livelihood opportunities.

## **Education Rehabilitation and Access Enhancement**

Rebuilding schools, training teachers, and creating alternative education pathways for displaced children are key strategies to improve Syria's education outcomes. Increasing access to quality education is critical for long-term human development.

## **Healthcare System Strengthening**

Efforts to restore healthcare facilities, supply essential medicines, and train medical personnel aim to increase life expectancy and improve health indicators. Strengthening the health system is essential for improving the health component of the HDI.

## **Economic Recovery and Livelihood Support**

Promoting economic recovery through job creation, skills training, and support for small businesses helps raise income levels. Economic stabilization contributes directly to improvements in the standard of living dimension of the HDI.

## **Key Strategies to Enhance Syria's Human Development Index**

1. Promote peace and political stability to enable sustainable development.
2. Increase investment in health and education infrastructure.
3. Enhance social protection programs to support vulnerable groups.
4. Facilitate safe return and reintegration of displaced populations.
5. Strengthen governance and coordination among development actors.

## **Frequently Asked Questions**

### **What is the Human Development Index (HDI) of Syria as of the latest report?**

As of the latest UNDP Human Development Report, Syria's HDI is approximately 0.567, placing it in the medium human development category.

## **How has Syria's Human Development Index changed in the past decade?**

Syria's HDI has declined significantly over the past decade due to ongoing conflict, economic instability, and the deterioration of health and education services.

## **What factors have most impacted Syria's HDI in recent years?**

The prolonged civil war, displacement of populations, destruction of infrastructure, reduced access to healthcare and education, and economic challenges have all negatively impacted Syria's HDI.

## **How does Syria's HDI compare to other countries in the Middle East?**

Syria's HDI is lower than many neighboring countries in the Middle East, reflecting the severe impact of conflict and instability on its human development indicators.

## **What components are used to calculate Syria's Human Development Index?**

Syria's HDI is calculated based on three key dimensions: life expectancy at birth (health), mean years of schooling and expected years of schooling (education), and Gross National Income per capita (standard of living).

## **Has Syria made any progress in education despite the conflict affecting its HDI?**

While Syria has faced major setbacks in education due to the conflict, some areas have seen efforts to restore schooling and increase literacy, though overall educational attainment remains lower than pre-conflict levels.

## **What are the prospects for improving Syria's Human Development Index in the near future?**

Improving Syria's HDI depends largely on achieving political stability, rebuilding infrastructure, restoring access to healthcare and education, and revitalizing the economy, all of which will require substantial international support and peace efforts.

## Additional Resources

### 1. *The Human Development Index and Syria: Challenges and Prospects*

This book explores the factors influencing Syria's Human Development Index (HDI) over the past decades. It delves into the impact of conflict, economic sanctions, and social policies on health, education, and income levels. The analysis provides a comprehensive overview of the country's development trajectory and potential pathways for recovery and growth.

### 2. *Syria's Socioeconomic Landscape: A Human Development Perspective*

Focusing on the socioeconomic conditions in Syria, this book examines how education, healthcare, and income distribution have shaped human development outcomes. It highlights disparities within different regions and demographic groups, offering insights into the structural barriers to equitable growth. The work also suggests policy interventions to improve Syria's HDI.

### 3. *Rebuilding Syria: Human Development Challenges Post-Conflict*

This volume addresses the aftermath of the Syrian conflict and its profound effects on human development indicators. It discusses strategies for rebuilding infrastructure, restoring educational systems, and improving healthcare access. The book emphasizes the importance of international cooperation and sustainable development goals in Syria's recovery.

### 4. *Education and Health in Syria: Pillars of Human Development*

This book investigates the critical roles of education and health services in shaping Syria's HDI. It provides statistical data and case studies demonstrating how disruptions in these sectors have affected human capital. The text advocates for targeted reforms to strengthen these pillars and enhance overall human development.

### 5. *Economic Growth and Human Development in Syria: Trends and Implications*

Analyzing economic data alongside human development metrics, this book links economic growth patterns to changes in Syria's HDI. It reviews the impact of trade, employment, and income inequality on development outcomes. The author proposes economic policies aimed at fostering inclusive growth and improving living standards.

### 6. *Gender and Human Development in Syria: An Analytical Approach*

This book explores gender disparities in Syria's human development context, focusing on education, employment, and health access. It highlights the challenges faced by women and girls and the implications for national development. The work calls for gender-sensitive policies to promote equality and enhance Syria's HDI.

### 7. *The Impact of Displacement on Human Development in Syria*

Focusing on internally displaced persons (IDPs) and refugees, this book examines how displacement has affected human development indicators in Syria. It discusses issues related to access to services, economic opportunities, and social integration. The book also explores humanitarian responses and long-term development strategies.

#### 8. *Policy and Governance in Advancing Syria's Human Development Index*

This book evaluates the role of governance, political stability, and policy frameworks in shaping Syria's human development outcomes. It identifies governance challenges and opportunities for reform to promote sustainable human development. The author emphasizes the need for transparent, inclusive policies to support progress.

#### 9. *Environmental Factors and Human Development in Syria*

Examining the intersection of environmental issues and human development, this book discusses how water scarcity, pollution, and climate change impact Syria's HDI. It highlights the importance of environmental sustainability in development planning. The text proposes integrated approaches to address environmental challenges while enhancing human well-being.

**syria human development index: Syria: From National Independence to Proxy War** Linda Matar, Ali Kadri, 2018-10-09 This edited collection aims to analytically reconceptualise the Syrian crisis by examining how and why the country has moved from a stable to a war-torn society. It is written by scholars from a variety of disciplinary backgrounds, all of whom make no attempt to speculate on the future trajectory of the conflict, but aim instead to examine the historical background that has laid the objective conditions for Syria's descent to its current situation. Their work represents an attempt to dissect the multi-layered foundation of the Syrian conflict and to make understanding its complex inner workings accessible to a broader readership. The book is divided into four parts, each of which elaborates on the origins and dynamics of today's crisis from the perspective of a different discipline. When put together, the four parts provide a holistic picture of Syria's developmental trajectory from the early twentieth century through to the present day. Themes addressed include Syria's postcolonial development efforts, its leap into socialism and then into neoliberalism in the late twentieth century, its politics within the resistance front, and finally its food and health security concerns.

**syria human development index: Syria 2011-2013** Azmi Bishara, 2022-12-01 Azmi Bishara's book on the Syrian Revolution is one of the most comprehensive and profound works on the subject published to date. Translated here into English for the first time, the study examines the complex roots of Syria's political and sectarian conflicts from the day revolution erupted on 15th March 2011 to its descent into civil war in the two years that followed. The book unearths and discusses the very first signs of protests from across Daraa, Hama, Aleppo, Damascus, Raqqa, Deir El Zour, Edlib and Homs, and it deals with Syria's ruralization process and the subsequent economic 'liberalization', which eventually led to the revolt against the Baath party. The work is based on high-level interviews, analysis of the country's socio-economic background, and examination of the Syrian regime's strategy and its political and media discourse. Syria's revolution is chronicled in two stages: the peaceful civil stage and the armed stage. Bishara's analysis first centres on the regime's strategy, unveiling despotism, massacres, kidnapping, sectarian tendencies, jihadist violence, the

emergence of warlords, and the chaotic spread of arms. He then turns to the role of the opposition to narrate in detail the events that broke out and exactly how a peaceful protest turned into an armed struggle. The book provides a roadmap to how revolution broke out and is a comprehensive analysis of what drove those early events. Its publication brings renowned Arabic-language scholarship to the English-speaking world.

**syria human development index:** Rebuilding Syria AA.VV, 2019-09-01 Over the last eight years the Syrian conflict has developed into one of the worst humanitarian tragedies of modern times. More than half a million victims, 5 million refugees abroad and 6 million internally displaced: the figures only capture part of Syria's catastrophe. In addition, there is the less quantifiable damage to the country's social fabric. Against this dramatic backdrop, this ISPI Report aims to answer a few crucial questions: how can a country whose society has gone through such traumas and destruction reimagine itself and its future? What conditions would allow those Syrians who were forced to leave their homes to return? And what are the regional and international dynamics and interests that will shape Syria's future? The Report provides the reader with key tools to understand where Syria is headed and what can be done to avoid the worst scenarios.

**syria human development index:** Human Development Report 1994 United Nations Development Programme, 1994 Expounds a new concept of human security- one that focuses on the security of people in their homes, in their jobs, in their communities and in their environment.

**syria human development index:** Syria under Bashar al-Asad Volker Perthes, 2014-08-27 Syria entered a new phase with the death of its long-serving leader, Hafiz al-Asad, and the accession of his son Bashar in 2000. While the new president has disappointed much of the hopes for political opening which he himself has created, Syria is clearly undergoing a process of change. The author analyses the factors of economic and political change in the country, and gives a portrait of its new leadership.

**syria human development index:** Globalization and the Politics of Development in the Middle East Clement Moore Henry, Robert Springborg, 2010-09-06 In this 2010 edition of their book on the economic development of the Middle East and North Africa, Clement Henry and Robert Springborg reflect on what has happened to the region's economy since 2001. How have the various countries in the Middle East responded to the challenges of globalization and to the rise of political Islam, and what changes, for better or for worse, have occurred? Utilizing the country categories they applied in the previous book and further elaborating the significance of the structural power of capital and Islamic finance, they demonstrate how over the past decade the monarchies (as exemplified by Jordan, Morocco and those of the Gulf Cooperation Council) and the conditional democracies (Israel, Turkey and Lebanon) continue to do better than the military dictatorships or 'bullies' (Egypt, Tunisia and now Iran) and 'the bunker states' (Algeria, Iraq, Libya, Sudan, Syria and Yemen).

**syria human development index:** Experiments in Achieving Water and Food Self-Sufficiency in the Middle East Elie Elhadj, 2006 The book aims to quantify and analyze how two water scarce but ideologically different Middle Eastern political economies, Saudi Arabia and Syria, addressed water sector investment between 1980 and 2000. The study examines how narrow-coalitions of decision-makers obsessed by impossible-to-achieve food self-sufficiency goals, lacking environmental consideration and safe political processes contributed to massively waste scarce resources and unsustainable water policies. The book shows that of Saudi Arabia's US\$1,034 billion in oil revenues (1974-2001), 48% was spent on security, plus 10% on the ruling family. Nominal Per capita income dropped by 42% (1981-2000). Syria's per capita income dropped (1985-2000) by 17%, to US\$1,200. Armaments' consumed (1970-1990) 13% of GDP. Agricultural investment was wasteful. Saudis produced wheat at five times the international price, depleted 300 billion m3 of mainly non-renewable groundwater and degraded aquifers' quality. 53% of Saudis have no municipal water connections. Syria's Government return on agricultural investment in 2000 was estimated at US\$150 million loss. Aquifers' quality was degraded, leaving most urban households enduring acute water shortages.

**syria human development index:** Syria from Reform to Revolt Raymond Hinnebusch, Tina

Zintl, 2015-01-02 When Bashar al-Asad smoothly assumed power in July 2000, just seven days after the death of his father, observers were divided on what this would mean for the country's foreign and domestic politics. On the one hand, it seemed everything would stay the same: an Asad on top of a political system controlled by secret services and Baathist one-party rule. On the other hand, it looked like everything would be different: a young president with exposure to Western education who, in his inaugural speech, emphasized his determination to modernize Syria. This volume explores the ways in which Asad's domestic and foreign policy strategies during his first decade in power safeguarded his rule and adapted Syria to the age of globalization. The volume's contributors examine multiple aspects of Asad's rule in the 2000s, from power consolidation within the party and control of the opposition to economic reform, co-opting new private charities, and coping with Iraqi refugees. The Syrian regime temporarily succeeded in reproducing its power and legitimacy, in reconstructing its social base, and in managing regional and international challenges. At the same time, contributors clearly detail the shortcomings, inconsistencies, and risks these policies entailed, illustrating why Syria's tenuous stability came to an abrupt end during the Arab Spring of 2011. This volume presents the work of an international group of scholars from a variety of disciplinary backgrounds. Based on extensive fieldwork and on intimate knowledge of a country whose dynamics often seem complicated and obscure to outside observers, these scholars' insightful snapshots of Bashar al-Asad's decade of authoritarian upgrading provide an indispensable resource for understanding the current crisis and its disastrous consequences.

**syria human development index: The Middle East, 13th Edition** Ellen Lust, 2014 Lust and her outstanding contributors have fully revised the text to take into account the watershed events that have taken place in the Middle East since the 2011 uprisings. The book also adds important coverage with a new thematic chapter on religion, society, and politics in the region, which examines the role of both Islam and Judaism. New to this edition: - Every chapter has been thoroughly revised to cover all of the major changes in the region since the uprisings of 2011 - The Overview section now contains a chapter on religion, society, and politics in the Middle East that examines the role of both Islam and Judaism - Expanded coverage of the role of social movements and activism in the chapter, Actors and Public Opinion. - Country chapters have been revised to more explicitly address religion, society and politics - In light of user feedback, the thematic chapters have been reordered to fit more naturally with teaching progression preferred by most faculty

**syria human development index: Inevitable Democracy in the Arab World** W. Yafi, 2012-07-16 Wissam S. Yafi argues that there are four dynamics leading to inevitable change in the Arab region: geopolitical, geoeconomic, geosocial, and technological. Yafi comes to the conclusion that no system will be able to support the dynamics in place except for democracy.

**syria human development index: Shaping the Developing World** Andy Baker, 2021-01-22 Why are some countries rich and others poor? Colonialism, globalization, bad government, gender inequality, geography, and environmental degradation are just some of the potential answers to this complex question. Using a threefold framework of the West, the South, and the natural world, Shaping the Developing World provides a logical and intuitive structure for categorizing and evaluating the causes of underdevelopment. This interdisciplinary book also describes the social, political, and economic aspects of development and is relevant to students in political science, international studies, geography, sociology, economics, gender studies, and anthropology. The Second Edition has been updated to include the most recent development statistics and to incorporate new research on topics like climate change, democratization, religion and prosperity, the resource curse, and more. This second edition also contains expanded discussions of gender, financial inclusion, crime and police killings, and the Middle East, including the Syrian Civil War.

**syria human development index: Politics and War in Lebanon** Mordechai Nisan, 2017-07-05 Lebanon is an exceptionally misunderstood country; its religious politics are typically misrepresented and denigrated in Western political commentary. *Politics and War in Lebanon* offers a lucid examination of Lebanese society and politics. Mordechai Nisan examines Lebanon in its own

termson its own cultural turf. He then points to the causes of political disintegration in 1975 and explores the capacity of Lebanon to recover and retain its unique national poise. Avoiding disorienting Western stereotypes, Nisan presents Lebanon in its own native frame of reference, as a multi-ethnic country that operates according to its immutable and enigmatic political forms. Lebanon is different from other Arab countries, as demonstrated through its very complex electoral system, its tradition of cross-elite cooperation, and its special sense of Lebanese national identity that differentiates it from its overbearing Syrian neighbor. Nisan explores intra-Maronite Christian feuds, identifies Syria's occupation strategy, analyzes the violence of the Palestinians, and studies Israel's failed policy strategy and the role of Hezbollah in the Lebanese power equation. Lebanon is caught between its special historical identity as a country of poise, creativity, and liberty and the interminable warfare in the streets and villages of the country. Although its future appears dim, its resilience enabled it to prevail in the past, and may yet continue to do so.

**syria human development index:** Civil War in Syria Adam Baczko, Gilles Dorronsoro, Arthur Quesnay, 2018-02-08 The first comprehensive field-based study of the Syrian conflict, introducing a seminal approach to civil wars.

**syria human development index:** The Merchant of Syria Diana Darke, 2018-05-01 Barely literate, and supporting his mother and sisters from the age of ten, Abu Chaker built up a business empire--despite twice losing everything he had. Diana Darke follows his tumultuous journey, from instability in Syria and civil war in Lebanon, to his arrival in England in the 1970s, where he rescued a failing Yorkshire textile mill, Hield Bros, and transformed it into a global brand. The Merchant of Syria tells two parallel stories: the life of a cloth merchant and his resilience, and the rich history of a nation built on trade. Over millennia Syria has seen great conflict and turmoil, but like the remarkable story of Abu Chaker, it continues to survive.

**syria human development index:** *Syria's Conflict Economy* Jeanne Gobat, Ms. Kristina Kostial, 2016-06-29 Five years into the ongoing and tragic conflict, the paper analyzes how Syria's economy and its people have been affected and outlines the challenges in rebuilding the economy. With extreme limitations on information, the findings of the paper are subject to an extraordinary degree of uncertainty. The key messages are: (1) that the devastating civil war has set the country back decades in terms of economic, social and human development. Syria's GDP today is less than half of what it was before the war started and it could take two decades or more for Syria to return to its pre-conflict GDP levels; and that (2) while reconstructing damaged physical infrastructure will be a monumental task, rebuilding Syria's human and social capital will be an even greater and lasting challenge.

**syria human development index: Health Inequity** Abdesslam Boutayeb, Abdellatif Maamri, 2023-01-27 This book is devoted to the crucial issue of health inequities between and within countries. Beside descriptive statistics and health equity analysis, it analyses a multitude of figures to illustrate the huge inequalities in terms of various indicators such as maternal mortality rate, infant mortality ratio, life expectancy, nutritional indicators, rate of adolescent childbearing, and non-communicable diseases, among others. This book will be of interest to students, academic staff, researchers, health decision makers and members of civil society who are concerned about problems of socioeconomic inequalities in general and health inequity in particular.

**syria human development index:** The New Third World Alfonzo Gonzalez, Jim Norwine, 2019-06-26 This book characterizes the Third World at the close of the twentieth century. It provides an excellent interdisciplinary exploration of the meanings, measures, patterns, and problems associated with the concept of the Third World.

**syria human development index: Arab Development Challenges of the New Millennium** Belkacem Laabas, 2017-11-22 This title was first published in 2002. In 2000, a major international conference was organized by the Arab Planning Institute to identify, analyze and compare development challenges facing Arab countries at the dawn of the new millennium. An interdisciplinary team of scholars were brought together from the fields of regional science, development studies, economics, business and government policy and together they addressed

global, regional and domestic challenges and their impact on the Arab region. This volume brings together the best papers presented at this conference. In doing so, it offers up-to-date insights into, and a clearer understanding of this region. It highlights issues including: economic and social implications of globalization; strategic alliances; the implications for Arab countries of emerging technological patterns; the impact of the European Monetary Union and the euro; Arab regional integration; education; and the development of individual Arab country's economies.

**syria human development index:** *Political Handbook of the World 2020-2021* Tom Lansford, 2021-03-23 The Political Handbook of the World by Tom Lansford provides timely, thorough, and accurate political information, with more in-depth coverage of current political controversies than any other reference guide. The updated 2020-2021 edition will continue to be the most authoritative source for finding complete facts and analysis on each country's governmental and political makeup. Compiling in one place more than 200 entries on countries and territories throughout the world, this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system. The Political Handbook of the World 2020-2021 also provides names of key ambassadors and international memberships of each country, plus detailed profiles of more than 30 intergovernmental organizations and UN agencies. And this update will aim to include coverage of current events, issues, crises, and controversies from the course of the last two years.

**syria human development index:** *Financial Markets and Institutions in the Arab Economy* Niḍāl Rashīd Ṣabrī, 2008 This book aims to trace and point out the recent developments occurred in the Arab Economy in the last two decades, including trends toward integration, liberalisation, and globalisation. This book indicates the most recent changes in the Arab Financial Institutions including banks, insurance companies, pension funds and other financial institutions. There is also the discussion of issues in market stability and efficiency in the light of new Arab environment of stock trading. This book is a comprehensive text covering the Arab Financial Sector.
