t j lane interview: News, Public Affairs, and the Public Sphere in a Digital Nation Edgar Simpson, 2014-08-14 Missing from the ongoing conversation about the titanic forces reshaping national journalism is the meaning of daily professional journalism in communities where the majority of Americans live. Edgar Simpson spent a year intimately engaged with all the news streams available in two Midwest counties—one where a daily newspaper had closed and one where a daily newspaper continues to operate—to better understand and illuminate national news trends and translate them to specific communities. *News, Public Affairs, and the Public Sphere in a Digital Nation: Rise of the Audience* outlines the clear implications for representative democracy in the face of a daily professional journalism in retreat. If the U.S. system is to thrive, more resources at the community level must be marshaled to support journalism. Further, citizens will have to become increasingly sophisticated in understanding the type of content they are consuming and, more importantly, what information they are not consuming. This book not only puts the problems in stark terms but offers unique, community-based solutions.

t j lane interview: Harm to Others Brian Van Brunt, 2014-12-16 Harm to Others offers students and clinicians an effective way to increase their knowledge of and training in violence risk and threat assessment, and it also provides a comprehensive examination of current treatment approaches. Although the text includes many examples from K-12 and college/university settings, which are particularly relevant for mental health professionals in school settings, the underlying concepts and suggestions are useful for counselors, psychologists, and social workers who face these issues in their daily practice. In an easy-to-understand, jargon-free manner, Dr. Van Brunt shares his observations, extensive clinical expertise, and the latest research on what clinicians should be aware of when performing risk and threat assessments. In addition, he offers numerous examples from recent mass shootings and rampage violence to help explain the motivations and risk

factors of those who make threats. Two detailed case examples are presented to illustrate key concepts related to assessing dangerousness. Treatment options are then described, using a variety of diverse case studies to demonstrate concrete approaches for clients who have been identified as at risk for violence following a threat assessment. *Requests for digital versions from ACA can be found on www.wiley.com. *To purchase print copies, please visit the ACA website *Reproduction requests for material from books published by ACA should be directed to publications@counseling.org

t j lane interview: High Stakes Paul Kennedy, 2014-09-30 'This history of the Waterhouse dynasty is a cut above the field of racing books that burst from the barriers this time of year' - Sydney Morning Herald Drama, glamour, scandal, success - and very high stakes. The story of Australia's best known horse racing family has it all. When it comes to racing, the name most Australians associate with the racetrack is Waterhouse. This is their compelling story. High Stakes takes us from Bill Waterhouse's introduction to the world as a sixteen-year-old, working as a bookmaker for his father in the late thirties - going on to make money both on and off the track - to the headlines caused by his involvement in the notorious Fine Cotton affair in the eighties. It examines his son Robbie's rise as a respected bookie and a knowledgeable judge of horses, to his spectacular fall, as a result of that same Fine Cotton affair, which led to a life ban from involvement in the racing industry. While the ban was lifted in 2001, he keeps a low profile these days. As Kennedy reveals, the same cannot be said of Robbie's wife, Gai, daughter of the legendary horse trainer TJ Smith. In a male-dominated world, she has gone on to rival her father as one of Australia's best trainers, training horses for a star-studded clientele that has ranged from John Singleton to the Queen of England. Yet as High Stakes shows, the scandal aside, the marriage between Gai and Robbie was always going to be problematic. As the Sydney Morning Herald put it: 'It's not that the Smiths and the Waterhouses were necessarily the Capulets and the Montagues but the country's leading trainer and the world's biggest bookmaker were hardly natural kinsfolk either.' Despite an already colourful history, when their son, Tom, stepped into the family business and became one of the best-known and most controversial bookies the country had ever seen, Kennedy describes how the dramas for the Waterhouse dynasty were only just beginning... This is the book for anyone who wants to know the inside story of contemporary Australian horse racing, a world where premiers and millionaires rub shoulders with gangsters and girls with fancy hats. It's a world of passion, action - and very high stakes.

t j lane interview: Field Research Robert G. Burgess, 2003-09-02 For this the fourth volume in the successful Contemporary Social Research series, Robert Burgess has provided a new resource text which will prove invaluable to those engaged in field research. The material he has chosen is drawn both from sociology and social anthropology; and the readings come from experienced researchers both in the USA and Europe. In addition, Burgess draws upon the work of historians for a special section on the use of historical materials in field research. The focus is upon the strategies, processes and problems of work in the field. Chapters by distinguished social scientists cover gaining entry, note-taking, interviewing and observing. Material on data collection is complemented by discussion of data analysis and theorising. The readings themselves are subdivided into nine sections. The first essay in each section is written by Burgess himself in order to locate the articles in a broader context and to highlight the key issues and the important questions. Burgess has also provided a review of some of the major traditions in field research and a series of brief guides to further reading on the major topics covered in each of the sections. Particular attention has been paid to the use of annotated reading lists and the preparation of a very full bibliography. Field Research: A Sourcebook and Field Manual will be an essential textbook for students of social research or field research at both the undergraduate and post-graduate levels. In addition, it will provide valuable guidance for workers in the social sciences engaged in research in the field.
