t roy guide service: Troy H. Middleton Frank James Price, 1999-03-01 Troy H. Middleton (1889-1976) was the youngest colonel in the American Expeditionary Force in France during World War I. Later, he served as commander of the Army's 45th Division and then the VIII Corps. During World War II, Middleton spent more time in combat than any other general officer. General Middleton made key tactical decisions in the largest and most complex military action in which the U.S. Army has ever been involved—the Battle of the Bulge. In 1951, Louisiana State University's board of supervisors appointed Middleton president of the university. He had previously served at the school as commandant of cadets, professor of military science, dean, and vice president. While president of LSU, Middleton oversaw a sustained period of growth and academic achievement. Like many other university presidents in the Jim Crow era, throughout his tenure at LSU, he also staunchly upheld his institution's deeply-racist segregationist policies. In this thoroughly researched biography, Frank James Price tells Middleton's life story from his boyhood plantation days in Copiah County, Mississippi, to his public service achievements after his retirement as president of Louisiana State University in 1962. In much of the book, the author, through taped interviews, allows Middleton to tell his own story. In researching the book, Price interviewed and/or corresponded with General Dwight D. Eisenhower, General Omar Bradley, and other personal acquaintances of General Middleton.

t roy guide service: The War at Troy Lindsay Clarke, 2004-09 The War at Troy breathes vigorous new life into the myths of Homer's Illiad, skillfully rejuvenating Paris and Helen, Agamemnon and Clytaemnestra, Achilles, Odysseus and Hector in this startlingly contemporary

drama of the passions. Here two powerful generations of men and women live out their destinies in the timeless zone where myth and history intersect, and where quarrels among immortal gods mirror the conflicts of the human heart. This imaginative retelling will surely benefit from the renewed interest in this classic tale (the movie *Troy* starring Brad Pitt and Orlando Bloom lands in May 2004).

t roy guide service: *Troy House* Ann Benson, 2017-03-09 The architectural history of Troy House in Monmouthshire is positioned at the centre of this extensive new research volume, to support a consideration of how the surrounding land was refashioned over time. Investigating the estate's main components, first individually and then by cross-referencing the findings, extends our current understanding of them as discreet and at the same time interrelating entities. Previously unrecorded historical features are discovered that belong to the house and its landscape, and comprehensive evidence is applied to challenge current understandings. The house and its pleasure gardens, the walled garden, the farm and the surrounding parkland are demonstrated together by this research to be a rare surviving example, in Wales especially, of a complete Tudor estate with Jacobean and Carolean aggrandisement. As such, Troy House occupies a significant place in history.

t roy guide service: *Return to Troy* , 2015-05-26 Return to Troy presents essays by American and European classical scholars on the Director's Cut of *Troy*, a Hollywood film inspired by Homer's *Iliad*. The book addresses major topics that are important for any twenty-first century representation of ancient Greek myth and literature in the visual media, not only in regard to *Troy*: the portrayals of gods, heroes, and women; director Wolfgang Petersen's epic technique; anachronisms and supposed mistakes; the fall of Troy in classical literature and on screen; and the place of the *Iliad* in modern popular culture. Unique features are an interview with the director, a report on the complex filming process by his personal assistant, and rare photographs taken during the original production of *Troy*.

t roy guide service: *The Siege of Troy* Greg Tobin, 2004-04-19 It was the Age of Heroes Valiant warriors like Hector, Ajax, wily Odysseus, and brave Achilles, their exploits in battle, their secret passions and hidden strengths, their friendships and rivalries -these are what legends are made of. It began with a stolen kiss and the abduction of the beautiful Helen, wife of a king. Diplomacy gave way to insults, and soon it fell to Agamemnon to restore the honor of his brother, Menelaus of Sparta, by leading an army of heroes to the gates of the enemy fortress. Combat raged for nine years, neither side able to dominate the other. Until a brave Spartan dreamed up a desperate and daring gambit that just might turn the tide of battle in Sparta's favor. Intrigue, deception, betrayal, and the love of a woman whose face launched a thousand ships brought two great armies to war. The place was Troy . . . and this is the epic story known as The *Iliad*.

t roy guide service: *Troy, Carthage and the Victorians* Rachel Bryant Davies, 2018-03-15 Playful, popular visions of Troy and Carthage, backdrops to the *Iliad* and *Aeneid*'s epic narratives, shine the spotlight on antiquity's starring role in nineteenth-century culture. This is the story of how these ruined cities inspired bold reconstructions of the Trojan War and its aftermath, how archaeological discoveries in the Troad and North Africa sparked dramatic debates, and how their ruins were exploited to conceptualise problematic relationships between past, present and future. Rachel Bryant Davies breaks new ground in the afterlife of classical antiquity by revealing more complex and less constrained interaction with classical knowledge across a broader social spectrum than yet understood, drawing upon methodological developments from disciplines such as history of science and theatre history in order to do so. She also develops a thorough critical framework for understanding classical burlesque and engages in in-depth analysis of a toy-theatre production.
