ta interview questions and answers: It's Not TV Felix Gillette, John Koblin, 2022-11-01 "A read so riveting, it's not hard to imagine watching it unfold on Sunday nights." —The Associated Press "An incisive account that is more than a rosy victory lap for one of TV's most influential channels." —Eric Deggans, NPR's "Books We Love" "It's Not TV proves to be a lively companion to all these shows." —Andrew O'Hagan, The New York Review of Books The inside story of HBO, the start-up company that reinvented television—by two veteran media reporters HBO changed how stories could be told on TV. The Sopranos, Sex and the City, The Wire, Game of Thrones. The network's meteoric rise heralded the second golden age of television with serialized shows that examined and reflected American anxieties, fears, and secret passions through complicated characters who were flawed and often unlikable. HBO's own behind-the-scenes story is as complex, compelling, and innovative as the dramas the network created, driven by unorthodox executives who pushed the boundaries of what viewers understood as television at the turn of the century. Originally conceived by a small upstart group of entrepreneurs to bring Hollywood movies into living rooms across America, the scrappy network grew into one of the most influential and respected players in Hollywood. It's Not TV is the deeply reported, definitive story of one of America's most daring and popular cultural institutions, laying bare HBO's growth, dominance, and vulnerability within the capricious media landscape over the past fifty years. Through the visionary executives, showrunners, and producers who shaped HBO, seasoned journalists Gillette and Koblin bring to life a dynamic cast of characters who drove the company's creative innovation in astonishing ways—outmaneuvering copycat competitors, taming Hollywood studios, transforming 1980s comedians and athletes like Chris Rock and Mike Tyson into superstars, and in the late 1990s and 2000s elevating the commercial-free, serialized drama to a revered art form. But in the midst of all its success, HBO was also defined by misbehaving executives, internal power struggles, and a few crucial miscalculations. As data-driven models like Netflix have taken over streaming, HBO's artful, instinctual, and humanistic approach to storytelling is in jeopardy. Taking readers into the boardrooms and behind the camera, It's Not TV tells the surprising, fascinating story of HBO's ascent, its groundbreaking influence on American business, technology, and popular culture, and its increasingly precarious position in the very market it created.

ta interview questions and answers: Indigenous Language for Social Change Communication in the Global South Tshepang Bright Molale, Abiodun Salawu, Mohammad Sahid Ullah, Enrique Uribe-Jongbloed, 2023-05-22 Indigenous Language for Social Change Communication in the Global South brings together voices from the margins to engage in dialogue about common social change issues in Latin America, Africa, and Asia. This book argues that resistance and social movements, expressed in music and songs and exchanged via radio, remain fundamental to ensure that the linguistic and cultural diversity of the world progresses despite colonizing pressures. Contributors present cases that explore how indigenous communities use mediums such as the radio to help support their language, identity, and expand their own social change. ta interview questions and answers: *Cosmopolitan English and Transliteracy* Xiaoye You,

2016-08-31 Winner, CCCC Research Impact Award, 2018 Despite the vast number of multilingual speakers in the United States and the pervasive influence of globalization, writing studies in this country is still inextricably linked to a nationalistic, monolingual English ideology. In *Cosmopolitan English and Transliteracy*, Xiaoye You addresses this issue by proposing that writing studies programs adopt a cosmopolitan perspective. Emphasizing local and global forms of citizenship and identification, You merges a humanistic vision with the rigor of social science, arguing that linguistic and cultural differences can be explored to recover human connections normally severed by geographical and semiotic borders. You examines several areas of writing affected by globalization. He then turns to the composition classroom, highlighting the challenges and possibilities of crossing cultural boundaries in academic discourse before introducing a pedagogy aimed at fostering American students' translingual and transcultural sensibilities. Included is a model for training writing teachers in the context of globalization, which aims to help instructors gain practical knowledge about the needs and resources of multilingual writers through communication technologies and cross-cultural partnerships. By introducing cosmopolitan perspectives into the composition classroom, You challenges traditional assumptions about language, identity, and literacy as they relate to writing studies. Innovative and provocative, *Cosmopolitan English and Transliteracy* charts a new way forward for writing programs, with a call to focus on global rather than national identity.

ta interview questions and answers: *Communicate* Janice A. Smith, Colleen M. Meyers, Amy J. Burkhalter, 2007-07-13 Written for all types of ITA programs an independent study course, a brief workshop, or extensive training this versatile text provides essential information for ITAs to develop strong teaching skills that ensure effective communication in the undergraduate classroom. The authors take the perspective that incoming ITAs are responsible for their own learning and teaching style. Each of the text's ten units includes work on English proficiency, teaching skills, and cultural awareness. Each unit centers around a common rhetorical teaching task in U.S. university classrooms: introducing oneself, introducing a syllabus, explaining a visual, defining a term, teaching a process, fielding questions, explaining complex topics at a basic level, presenting information over several class periods, and leading a discussion. Undergraduate textbook materials for fifteen academic fields are included in the appendix to provide ITAs with content relevant for practicing teaching and language skills. Because ITA programs vary in structure and number of training hours, the authors include a To the Instructor section, which is full of recommendations for the many ways the text can be used.
