tampa buccaneers training camp: Hugh Culverhouse and the Tampa Bay Buccaneers Denis M. Crawford, 2011-09-29 From 1976 until 1994, the Tampa Bay Buccaneers lost far more games than they won. The Bucs' status as a sporting punch line belied the fact that they were led by arguably the most important owner of that era. Known as the Vice-Commissioner, Hugh F. Culverhouse, Sr., wielded his financial acumen as a weapon, keeping other NFL owners in line through the economic downturn of the 1980s, two work stoppages, and a multimillion dollar lawsuit from a rival league. Culverhouse's near-Dickensian frugality also led, directly and indirectly, to the Steve Young-Joe Montana quarterback controversy; Doug Williams' triumph in Super Bowl XXII; and the largest fourth-quarter collapse in NFL history. Over two dozen interviews with Culverhouse's allies and adversaries inform this thorough and balanced chronicle of the man and his team.

tampa buccaneers training camp: Tales from the Bucs Sideline Chris Harris, Joey Johnston, 2004 Plenty of sports franchises have stories that flow from hopelessness to prosperity. That was the backdrop when the Tampa Bay Buccaneers became world champions, but how many others had to perform with an accompanying laugh track? How many used the number one overall draft pick on a player (Bo Jackson) who surveyed the scene, shrugged his shoulders, and decided to play baseball? How many essentially gave away their battered and star-crossed quarterback (Steve Young), suddenly jump-starting his route to the Hall of Fame? How many had a coach (John McKay), who, when asked what he thought of his team's execution, wryly replied, I'm in favor of it? How many work in an antiquated training facility (One Buc Place) that hosts exterminators more often than the owners? For nearly a generation, they were the Yucks. Then they transformed themselves from frogs into princes. Tales from the Bucs Sideline is their story, warts and all. From winless wonders to world champions, from hapless players too embarrassed to show their faces in public to superstars who are constantly in your face. One and off the field, this is the story of how a franchise can transform from woeful to wonderful, complete with all the unforgettable (and forgettable) moments and characters.

tampa buccaneers training camp: Crackback! Fitzgerald Hill, 2012 Every Saturday in the autumn, millions of Americans watch college football. They visit leafy campuses, tailgate with friends, and then sit down to enjoy one of the country's oldest and most beloved sporting traditions.

They also witness one of the country's most visible tableaux of racial inequity. Some 120 colleges and universities field teams in the NCAA's top tier of the sport, known as the Football Bowl Subdivision. But only a small fraction of those teams are coached by African-Americans or other minorities. Yet there seems to be little focus on this issue in today's society, even from the African-American community itself. Why is it that the National Football League has advanced so much farther in giving opportunities to minority coaches? Dr. Fitzgerald Hill, along with award-winning sportswriter, Mark Purdy, attack the racial dynamics of the important Crackback syndrome, in which minority coaches are led to believe they actually do have a fair chance at every job opening-only to be blindsided at the last minute by hidden forces that undermine their dreams. There is hope for the future, but first we have to be willing to look closely at a sensitive topic. That is why Crackback is necessary for everyone, especially college football fans-of any color or team.
