tb landmark construction inc: Your Personal Soldier Theresa Nolan Kriner, 2010-12 Our mission was to get dropped off and walk about 4 clicks around and up and down and sideways (you get the picture) to our rally point. We were setting in an ambush. See, we go out and give the locals rice, blankets, beans, backpacks, etc. The tallytards come like a lunchtime bully and beat up the elder and burn everything we give them.' -Sgt Jordan Kriner When a soldier goes to war, it becomes a mission not only for himself and his brothers in arms but for the mothers, fathers, families, and communities that he leaves at home. Jordan Kriner followed a different path to the military than most. At twenty-four years old, he determined that his destiny was in service to his country, just as it had been for both his parents. Theresa Kriner knew she could not change her son's mind. The military was going to take her son and make him into a soldier. Her job would be to keep him human. Through the letters and reflections of the Kriner family, Your Personal Soldier is the revealing story of a man at war and the family, friends, churches, and communities left behind. As Sergeant Kriner fights for freedom on the frontlines of Afghanistan, his family is left to try to continue living a 'normal' life in the most abnormal of circumstances. Sometimes gritty, sometimes heartfelt, Your Personal Soldier describes the true toll of war.

Captain Frederick Way, Jr., aided by Joseph W. Rutter, gathered together this wealth of information concerning steamboats that shoved river barges laden with coal, petroleum products, chemicals, sand, gravel, and similar bulk commodities from the headwaters of the Ohio River to the jetties of the Mississippi. The steam towboats that performed these services have completely disappeared from the scene, their places having been taken by hundreds of modern diesel-propeller towboats, but this thorough and remarkable reference guide helps preserve their history.
