taylor starling post fight interview: The Black Athlete in West Virginia Bob Barnett, Dana Brooks, Ronald Althouse, 2020-04-23 This chronicle of sports at West Virginia's 40 black high schools and three black colleges illuminates many issues in race relations and the struggle for social justice within the state and nation. Despite having inadequate resources, the black schools' sports teams thrived during segregation and helped tie the state's scattered black communities together. West Virginia hosted the nation's first state-wide black high school basketball tournament, which flourished for 33 years, and both Bluefield State and West Virginia State won athletic championships in the prestigious Colored Intercollegiate Athletic Association (now Central Intercollegiate Athletic Association). Black schools were gradually closed after the 1954 Brown v. Board of Education decision, and the desegregation of schools in West Virginia was an important step toward equality. For black athletes and their communities, the path to inclusion came with many costs.

taylor starling post fight interview: Excelsior, You Fathead! Eugene B. Bergmann, 2006-01-01 Jean Shepherd (1921-1999), master humorist, is best known for his creation A Christmas Story, the popular movie about the child who wants a BB gun for Christmas and nearly shoots his eye out. What else did Shepherd do? He is considered by many to be the Mark Twain and James Thurber of his day. For many thousands of fans, for decades, "Shep" talked on the radio late at night, keeping them up way past their bedtimes. He entertained without a script, improvising like a jazz musician, on any and every subject you can imagine. He invented and remains the master of talk radio. Shepherd perpetrated one of the great literary hoaxes of all time, promoting a nonexistent book and author, and then brought the book into existence. He wrote 23 short stories for Playboy, four times winning their humor of the year award, and also interviewed The Beatles for the magazine. He authored several popular books of humor and satire, created several television series and acted in several plays. He is the model for the character played by Jason Robards in the play and movie A Thousand Clowns, as well as the inspiration for the Shel Silverstein song made famous by Johnny Cash, "A Boy Named Sue." Readers will learn the significance of innumerable Shepherd words and phrases, such as "Excelsior, you fathead " and observe his constant confrontations with the America he loved. They will get to know and understand this multitalented genius by peeking behind the wall he built for himself - a wall to hide a different and less agreeable persona. Through interviews with his friends, co-workers and creative associates, such as musician David Amram, cartoonist and playwright Jules Feiffer, publisher and broadcaster Paul Krassner, and author Norman Mailer, the book explains a complex and unique genius of our time. "Shepherd pretty much invented talk radio ... What I got of him was a wonder at the world one man could create. I am awed now by his achievement as I was then." - Richard Corliss, Time magazine online

taylor starling post fight interview: Baby, You are My Religion Marie Cartier, 2014-09-11

Baby, You Are My Religion argues that American butch-femme bar culture of the mid-20th Century should be interpreted as a sacred space for its community. Before Stonewall—when homosexuals were still deemed mentally ill—these bars were the only place where many could have any community at all. Baby, You are My Religion explores this community as a site of a lived corporeal theology and political space. It reveals that religious institutions such as the Metropolitan Community Church were founded in such bars, that traditional and non-traditional religious activities took place there, and that religious ceremonies such as marriage were often conducted within the bars by staff. Baby, You are My Religion examines how these bars became not only ecclesiastical sites but also provided the fertile ground for the birth of the struggle for gay and lesbian civil rights before Stonewall.

taylor starling post fight interview: Scottish Art since 1960 Craig Richardson, 2017-07-05
Craig Richardson here addresses key areas of cultural politics and identity in a way that not only illuminates the development of Scottish art, but teases out another strand of the plurality of developments which led to the success of artists throughout the UK in the 1990s. It is of the highest relevance whether one's perspective is that of the development of the Scottish art, British art or European art of this period. The book adds significantly to our knowledge of the art of this period in a way that will aid not only our historical understanding but our understanding of the dynamics of art practice today. Providing an analysis and including discussion (interviewing artists, curators and critics and accessing non-catalogued personal archives) towards a new chronology, Richardson here examines and proposes a sequence of precisely denoted 'exemplary' works which outlines a self-conscious definition of the interrogative term 'Scottish art.' Among the artists whose work is discussed are John Latham, Simon Starling, Alan Johnston, Roderick Buchanan, Glen Onwin, Christine Borland, William Johnstone, Joan Eardley, Alexander Moffat, Douglas Gordon, Alan Smith, Graeme Fagen, Ross Sinclair and many others. The discussion culminates in a critically original demonstration of the scope for further research and practice within the subject, facilitating national cultural debate on the character of Scottish-national visual art.

taylor starling post fight interview: The Uprising of Women in Philanthropy Ndana Bofu-Tawamba, Ruby Bright, Stephanie Clohesy, Christine Grumm, Musimbi Kanyoro, Helen LaKelly Hunt, Ana Oliveira, Laura Risimini, Jane Sloane, Jessica Tomlin, 2024-08-22
The Uprising of Women in Philanthropy tells the inspiring, never-before-told, story of the Global Women's Funding Movement—considered the women's movement's greatest secret—and how it enabled women from all walks of life to harness the power of money to free themselves from oppression. Brimming with feminist epiphanies, this social justice playbook is an urgent call for women's collective leadership to guide humanity through the gravest of challenges, overcoming patriarchy's multi-millennium reign through the uprising of women leaders and philanthropists. Founded during the second-wave women's movement of the early 1970s, small groups of women across the world, independent of each other, had the same epiphany: it will take a movement of women to raise the money needed to fund women's freedom. Since then, the Global Women's Funding Movement has grown into a global network of radically generous, risk-taking philanthropists who collectively wield financial might to

win seismic gender equality victories. The authors document the Women Effect that results from gender equality and women's collective leadership, including improved public health and reproductive justice, expanded public education, stronger democracies, resilient economies, climate recovery and enduring peace. The Global Women's Funding Movement is guided by its Feminist Funding Principles and, through them, it has innovated the most effective philanthropic practices, including trust-based philanthropy. The Uprising of Women in Philanthropy is for those interested in focusing the power of philanthropy on leveraging systemic social justice victories and gender equality gains. The long-practiced Feminist Funding Principles imparted by the authors is a recipe for the feminist alchemy needed to transform society for the betterment of all.

taylor starling post fight interview: Personalising Trauma Treatment Michael J Scott, 2022-03-30 Personalising Trauma Treatment is about helping trauma victims back to their old selves and focuses on altering the perception of the centrality of the trauma. In this book, clients are taught to rediscover their sense of self by reframing the trauma. Within this new framework the focus is on the client's mental time travel from the trauma to today and reimagining their future. The therapeutic targets are the thoughts and images (cognitions) that interfere with day-to-day functioning. It does not assume that arrested information processing lies at the heart of the development of PTSD, with a consequent need for the client to re-live the trauma. For those clients who were abused in childhood, their experiences are viewed through a particular central window, but other 'windows' may make for more appropriate engagement with their personal world and a reimagining of their view of themselves. Treatment delivery options from telephone consultation, group work and videoconferencing are discussed. With illustrative examples, the author highlights the pathway to recovery for a wide range of clients with the comorbidity often found in real-world settings. The book will be essential reading for therapists and other mental health professionals working with trauma survivors.

taylor starling post fight interview: Culture of the Internet Sara Kiesler, 2014-02-04 As we begin a new century, the astonishing spread of nationally and internationally accessible computer-based communication networks has touched the imagination of people everywhere. Suddenly, the Internet is in everyday parlance, featured in talk shows, in special business technology sections of major newspapers, and on the covers of national magazines. If the Internet is a new world of social behavior it is also a new world for those who study social behavior. This volume is a compendium of essays and research reports representing how researchers are thinking about the social processes of electronic communication and its effects in society. Taken together, the chapters comprise a first gathering of social psychological research on electronic communication and the Internet. The authors of these chapters work in different disciplines and have different goals, research methods, and styles. For some, the emergence and use of new technologies represent a new perspective on social and behavioral processes of longstanding interest in their disciplines. Others want to draw on social science theories to understand technology. A third group holds to a more activist program, seeking guidance through research to improve social interventions using technology in domains such as education, mental health, and work productivity. Each of these goals has influenced the research questions, methods, and inferences of the authors and the look and feel of the chapters in this book. Intended primarily for researchers who seek exposure to diverse approaches to studying the human side of electronic communication and the Internet, this volume has three purposes: * to illustrate how scientists are thinking about the social processes and effects of electronic communication; * to encourage research-based contributions to current debates on electronic communication design, applications, and policies; and * to suggest, by example, how studies of electronic communication can contribute to social science itself.

taylor starling post fight interview: Think/Point/Shoot Annette Danto, Mobina Hashmi, Lonnie Isabel, 2016-10-04 Think/Point/Shoot gives students a thorough overview of the role of ethics in modern media creation. Case studies emphasize the critical issues in global media ethics today in all stages of media creation from preproduction research and development, to production and post production. This volume features practicing filmmakers, journalists, and media creators who provide insight into dealing with real-world ethical dilemmas. For this era, digital imagery, sounds, and web communication have opened doors to sharing thoughts and ideas instantaneously to potentially vast audiences. This presents exciting opportunities, but also serious ethical, legal, and social challenges. The cases and exercises found in this book are applicable to the current media field while still remaining grounded in strong ethical theory. Think/Point/Shoot explains the challenge of communicating a story to a worldwide audience while maintaining ethical standards. A companion website provides additional resources for students and instructors: media ethics game chapter summaries and case studies important forms Instructors will also find: classroom exercises PowerPoints video from the Global Media Ethics Conference from March 2013

taylor starling post fight interview: New Approaches to Rhetoric Patricia A. Sullivan, Steven R. Goldzwig, 2003-12-23 New Approaches to Rhetoric provides fresh perspectives on the study of rhetoric and its ability to affect change in today's society. Although traditional approaches (e.g., neo-Aristotelian) to the study of rhetoric have utility for the twenty-first century, communication in a complex, mass-mediated postmodern age calls for new critical approaches. The contributors of this volume, including James Darsey, Kathryn M. Olson and G. Thomas Goodnight, George Cheney, Dana Cloud, and Barry Brummett, explore possibilities for bridging rhetorical studies of the past with rhetorical studies of the future. The original essays invite students to join rhetorical theorists and critics in an ongoing dialogue concerning what it means to study communication in a postmodern world. Divided into three Parts, New Approaches to Rhetoric challenges and expands the definitions, approaches, and assumptions governing rhetorical scholarship. Part I, Rhetorics, Ethics, and Values, addresses, in different ways, a central question for the study of rhetoric today: How, and under what conditions, will moral arguments be articulated in the 21st century? Part II, Rhetoric, Institutions, and Contexts, features real-life case studies, showing students the function of rhetoric in today's world. Part III, Rhetorics, Cultures, and Ideologies, encourages students to examine ideological approaches to criticism and issues associated with class, race, and gender. Features of this volume: Original, never-before-published pieces by leading rhetorical theorists and critics including James Darsey, Kathryn Olson and G. Thomas Goodnight, George Cheney, Dana Cloud and Marouf Hasian, and John M. Murphy and Thomas R. Burkholder, among others Each part opens with a brief introduction to frame discussion for students. Topics and case studies will appeal to students and scholars (e.g., film, Disney, political keynote addresses, autobiography, labor union discourse). Barry Brummett's Conclusion speculates on what the collection suggests about rhetoric in the 21st century and offers ideas to guide students as they contemplate the future of rhetorical studies. New Approaches to Rhetoric is ideal for upper-level undergraduate and graduate courses in Rhetoric and in Political Communication in departments of Communication, English, and Political Science. This book is suitable for use as either a primary or supplemental course text and will be invaluable as a general reference for scholars of rhetoric, social movements, and public sphere studies.

taylor starling post fight interview: Hardboiled and High Heeled Linda Mizejewski, 2004-06 Can a gumshoe wear high heels? In a genre long dominated by men, women are now taking their place-as authors and as characters-alongside hardboiled legends like Sam Spade and Mike Hammer. *Hardboiled and High Heeled* examines the meteoric rise of the female detective in contemporary film, television, and literature. Epitomized by such icons as Clarice Starling of *Silence of the Lambs*, Agent Scully of *The X-Files*, and Cagney and Lacey, and the heroines in best-selling novels by Sue Grafton and Patricia Cornwell, the woman detective has become a top-selling commodity with a hungry fan base. The number of female investigator novels has tripled every five years since 1985. Today, there are nearly 700 women writers of detective fiction, and more than 800 book series devoted to female detectives. In this book, Linda Mizejewski - author of *Ziegfeld Girl* - examines the far-reaching appeal of the woman detective. She argues that the female detective attracts a wide range of fans - straight and gay, male and female - by rebuking tradition and overturning gender stereotypes. Richly illustrated and written with a fan's love of the genre, *Hardboiled and High Heeled* is an essential introduction to women in detective fiction, from past to present, from pulp fiction to blockbuster films.

taylor starling post fight interview: *Hannibal Lecter's Forms, Formulations, and Transformations* Jessica Balanzategui, Naja Later, 2020-12-17 This book examines how the iconic character Hannibal Lecter has been revised and redeveloped across different screen media texts. Hannibal The Cannibal Lecter has become one of Western culture's most influential and enduring models of monstrosity since his emergence in 1981 in *Red Dragon*, Thomas Harris' first Lecter book. Lecter is now at the centre of an extensive cross-mediated mythology, the most recent incarnation of which is Bryan Fuller's television program, *Hannibal* (NBC, 2013-2015). This acclaimed series is the focus of *Hannibal Lecter's Forms, Formulations, and Transformations*, which examines how Fuller's program harnesses the iconic character to experiment with traditional boundaries of genre, medium, taste, and narrative form. Featuring chapters from established and emerging screen and popular culture scholars from around the world, the book outlines how the show operates as a striking experiment with televisual form and formula. The book also explores how this experimentation is embodied by the boundary-defying character, the savage cannibalistic serial killer, practicing psychiatrist, and cultured art enthusiast, Hannibal Lecter. The chapters in this book were originally published as a special issue of the journal, *Quarterly Review of Film and Video*.
