tasha k interview about will smith: Female Masculinities and the Gender Wars Finn Mackay, 2021-09-23 "Thoughtful and often moving." Gaby Hinsliff, The Guardian Female Masculinities and the Gender Wars provides important theoretical background and context to the 'gender wars' or 'TERF wars' - the fracture at the forefront of the LGBTQ international conversation. Using queer and female masculinities as a lens, Finn Mackay investigates the current generational shift that is refusing the previous assumed fixity of sex, gender and sexual identity. Transgender and trans rights movements are currently experiencing political backlash from within certain lesbian and lesbian feminist groups, resulting in a situation in which these two minority communities are frequently pitted against one another or perceived as diametrically opposed. Uniquely, Finn Mackay approaches this debate through the context of female masculinity, butch and transmasculine lesbian masculinities. There has been increasing interest in the study of masculinity, influenced by a popular

discourse around so-called 'toxic masculinity', the rise of men's rights activism and theory and critical work on Trump's America and the MeToo movement. An increasingly important topic in political science and sociological academia, this book aims to break new ground in the discussion of the politics of gender and identity.

tasha k interview about will smith: *Oxford Textbook of Correctional Psychiatry* Professor Robert Trestman L, Professor Kenneth Appelbaum, Professor Jeffrey Metzner, 2015-02-26
Correctional psychiatry has received increasing recognition as an area of practice with unique skills and knowledge. The Oxford Textbook of Correctional Psychiatry brings together American and international experts to provide a comprehensive overview of the field. Students and psychiatric residents will find basic information that prepares them for clinical rotations, and psychiatrists working in jails and prisons will find a detailed review of the complex issues that arise in these settings. The Oxford Textbook of Correctional Psychiatry contains 71 chapters divided into 14 sections. The first three sections address history, structure, and processes including chapters on case law, human rights, ethics, organization and funding of systems, and stages of patient management that cover initial assessments through re-entry. The next three sections review in turn a broad array of management issues, emergencies, and psychopharmacology topics. Among other topics, these sections include chapters on sleep, detoxification, reassessment of community diagnoses and treatments, diversion programs, levels of care, malingering, substance use within facilities, and formulary management. Section seven has chapters on common psychiatric disorders, relevant medical disorders, and pain management. Sections eight through ten focus on psychotherapeutic options, suicide risk management, and addictions treatment. Chapters on aggression, self-injury, and other behavioral challenges appear in Section eleven. Section twelve reviews unique assessment and treatment needs of many distinct population groups. Special topics such as forensics, psychological testing, sexual assaults, quality improvement, training, and research, appear in Section thirteen, followed by a section devoted to current resources in correctional healthcare. The range of topics covered and the number of prominent contributors set this book apart from other available resources. Readers at all stages of their careers will gain the depth of understanding and practical information they need to approach all of the common clinical, organizational, and ethical challenges they face.
