why is world literature important: Life Writing as World Literature Helga Lenart-Cheng, Ioana Luca, 2025-05-01 A global array of contributors explore the interplay between translation and circulation, mediums and materialities, and aesthetics and politics in how life writing is shaped by and becomes world literature. We live in the age of popular self-representation in that most people around the globe either produce or consume autobiographical material: memoirs, selfies, blogs, etc. The current volume investigates this global phenomenon and examines how life writing and world literature converge. Why do some personal stories get "picked up," translated, circulated, and taught in classrooms, while others remain moored in local waters? Do autobiographical stories that travel widely have something in common about them? Or is it the other way around, is it our notion of "world literature" that imposes uniform expectations on these diverse texts? And what can we gain from studying these two fields in conjunction? Life Writing as World Literature brings together experts who map regional and local autobiographical traditions from six continents. These scholars explore the dynamic interplay between local and global aesthetics and sociopolitical concerns, presenting case studies that include prison narratives from communist regimes, Japanese diaries, multilingual Caribbean memoirs, Indian auto/biographical comics, and stories by Taiwanese domestic workers. To understand how and why some personal stories enter global dissemination, contributors inquire into translation, market mechanisms, and circulation patterns, while also exploring the affordances of new media and materialities when recording contemporary lives. Life Writing as World Literature brings a fresh perspective to both fields - world literature and life writing - opening up exciting avenues of research.

why is world literature important: *World Literature for the Wretched of the Earth* J. Daniel Elam, 2020-12-01 World Literature for the Wretched of the Earth recovers a genealogy of anticolonial thought that advocated collective inexpertise, unknowing, and unrecognizability. Early-twentieth-century anticolonial thinkers endeavored to imagine a world emancipated from colonial rule, but it was a world they knew they would likely not live to see. Written in exile, in abjection, or in the face of death, anticolonial thought could not afford to base its politics on the hope of eventual success, mastery, or national sovereignty. J. Daniel Elam shows how anticolonial thinkers theorized inconsequential practices of egalitarianism in the service of an impossibility: a world without colonialism. Framed by a suggestive reading of the surprising affinities between Frantz Fanon's political writings and Erich Auerbach's philological project, World Literature for the Wretched of the Earth foregrounds anticolonial theories of reading and critique in the writing of Lala Har Dayal, B. R. Ambedkar, M. K. Gandhi, and Bhagat Singh. These anticolonial activists theorized reading not as a way to cultivate mastery and expertise but as a way, rather, to disavow mastery altogether. To become or remain an inexpert reader, divesting oneself of authorial claims, was to fundamentally challenge the logic of the British Empire and European fascism, which prized self-mastery, authority, and national sovereignty. Bringing together the histories of comparative

literature and anticolonial thought, Elam demonstrates how these early-twentieth-century theories of reading force us to reconsider the commitments of humanistic critique and egalitarian politics in the still-colonial present.

why is world literature important: *How Is World Literature Made?* Gesine Müller, 2021-11-22 The debate over the concept of world literature, which has been taking place with renewed intensity over the last twenty years, is tightly bound up with the issues of global interconnectedness in a polycentric world. Most recently, critiques of globalization-related conceptualizations, in particular, have made themselves heard: to what extent is the concept of world literature too closely connected with the political and economic dynamics of globalization? Such questions cannot be answered simply through theoretical debate. The material side of the production of world literature must therefore be more strongly integrated into the conversation than it has been. Using the example of Latin American literatures, this volume demonstrates the concrete construction processes of world literature. To that purpose, archival materials have been analyzed here: notes, travel reports, and correspondence between publishers and authors. The Latin American examples provide particularly rich information about the processes of institutionalization in the Western world, as well as new perspectives for a contemporary mapping of world literature beyond the established dynamics of canonization.

why is world literature important: Politicising World Literature May Hawas, 2019-04-12 *Politicising World Literature: Egypt, Between Pedagogy and the Public* engages with postcolonial and world literature approaches to examine the worldly imaginary of the novel genre and assert the political imperative to teaching world literature. How does canonising world literature relate to societal, political or academic reform? Alternating between close reading of texts and literary history, this monograph studies a corpus of novels and travelogues in English, Arabic, French, Czech and Italian to historicise Egypt's literary relations with different parts of the world in both the modern period and the pre-modern period. In this rigorous study, May Hawas argues that protagonists, particularly in times of political crises, locate themselves as individuals with communal or political affiliations that supersede, if not actually resist, national affiliations.

why is world literature important: What Is a World? Pheng Cheah, 2015-12-17 *In What Is a World?* Pheng Cheah, a leading theorist of cosmopolitanism, offers the first critical consideration of world literature's cosmopolitan vocation. Addressing the failure of recent theories of world literature to inquire about the meaning of world, Cheah articulates a normative theory of literature's world-making power by creatively synthesizing four philosophical accounts of the world as a temporal process: idealism, Marxist materialism, phenomenology, and deconstruction. Literature opens worlds, he provocatively suggests, because it is a force of receptivity. Cheah compellingly argues for postcolonial literature's exemplarity as world literature through readings of narrative fiction by Michelle Cliff, Amitav Ghosh, Nuruddin Farah, Ninotchka Rosca, and Timothy Mo that show how these texts open up new possibilities for remaking the world by negotiating with the inhuman force that gives time and deploying alternative temporalities to resist capitalist globalization.

why is world literature important: Teaching the Global Middle Ages Geraldine Heng, 2022-10-28 Offers pedagogical techniques for teaching literature and culture of the medieval world, including legends about Alexander and Prester John and contact points such as the Silk Road and the Mongol Empire. Gives syllabus suggestions for undergraduate and graduate courses in literature, history, religion, and languages. Includes a list of resources.

why is world literature important: The Nobel Prize and the Formation of Contemporary World Literature Paul Tenngart, 2023-10-05 An exploration of the history, ambitions, and impact of the Nobel Prize in literature as it gained a central position in 20th-century global literary culture. Few scholars would deny that the Nobel Prize is the most prestigious literary award in the world. But what mechanisms made it possible for 18 Swedish intellectuals to become the world's most influential literary critics? Paul Tenngart argues that the Nobel Prize in literature has become a special kind of international canonization: exerted from a non-central, semi-peripheral position, the

award sometimes confirms and reinforces hierarchical relations between literary languages and cultures, and sometimes disturbs established patterns of dominance and dependence. Drawing from a wide range of contemporary theories and methods, this multifaceted history of the Nobel Prize questions how the Swedish Academy has managed to keep the prize's global status through all the violent international crises of the last 120 years; how the selection of laureates shaped the idea of 'universal' literary values and defined literary quality across languages and cultures; and what impact the prize has had on the distribution and significance of particular works, literatures and languages. *The Nobel Prize and the Formation of Contemporary World Literature* explores the history and impact of the Nobel Prize in literature from the first award in 1901 through recent controversies involving Bob Dylan and #MeToo, arguing that the prize is a unique performative act that has been – and still is – central in our continual and collective construction of world literature.

why is world literature important: *Bulgarian Literature as World Literature* Mihaela P. Harper, Dimitar Kambourov, 2020-11-12 *Bulgarian Literature as World Literature* examines key aspects and manifestations of 20th- and 21st-century Bulgarian literature by way of the global literary landscape. The first volume to bring together in English the perspectives of prominent writers, translators, and scholars of Bulgarian literature and culture, this long-overdue collection identifies correlations between national and world aesthetic ideologies and literary traditions. It situates Bulgarian literature within an array of contexts and foregrounds a complex interplay of changing internal and external forces. These forces shaped not only the first collaborative efforts at the turn of the 20th century to insert Bulgarian literature into the world's literary repository but also the work of contemporary Bulgarian diaspora authors. Mapping histories, geographies, economies, and genetics, the contributors assess the magnitudes and directions of such forces in order to articulate how a distinctly national, minor literature--produced for internal use and nearly invisible globally until the last decade--transforms into world literature today.

why is world literature important: *World Literature as Discovery* Zhang Longxi, 2023-09-15 The rise of world literature is the most noticeable phenomenon in literary studies in the twenty-first century. However, truly well-known and globally circulating works are all canonical works of European or Western literature, while non-European and even minor European literatures remain largely unknown beyond their culture of origin. *World Literature as Discovery: Expanding the World Literary Canon* argues that world literature for our time must go beyond Eurocentrism and expand the canon to include great works from non-European and minor European literatures. As much of the world's literature remains untranslated and unknown, the expansion will be an exciting process of discovery. By discussing fundamental questions around canon, circulation, aesthetic values, translation, cosmopolitanism, and the literary universal, Zhang Longxi proposes a new and liberating concept of world literature that will shape world literature worthy of its name. This book speaks for a more inclusive idea of world literature and shows students and scholars alike that all the literary traditions, particularly non-European traditions, will be able to make important contributions and expand the canon of world literature.

why is world literature important: *The Modern Study of Literature* Richard Green Moulton, 1915
