This product aims to support dogs' health while aligning with ethical values regarding animal welfare and environmental conservation. Wild Earth offers a variety of dry kibble products that are free from common allergens and artificial additives, making it suitable for dogs with sensitivities or specific dietary needs.

Brand Philosophy and Mission

The core philosophy of Wild Earth centers on sustainability, health, and innovation. The company prioritizes reducing the carbon footprint associated with pet food production by eliminating animal agriculture's environmental impact. Through scientific research and ingredient innovation, Wild Earth seeks to deliver high-quality vegan dog food that meets or

exceeds the nutritional standards established by veterinary nutritionists and regulatory bodies.

Nutritional Benefits of Wild Earth Vegan Dog Food

Wild Earth vegan dog food is designed to provide comprehensive nutrition tailored to canine dietary requirements. It contains all essential amino acids, vitamins, minerals, and fatty acids necessary for maintaining a healthy and active lifestyle in dogs. The formulation considers protein quality and digestibility, ensuring that dogs receive adequate protein from plant sources such as yeast protein and legumes.

High-Quality Plant-Based Protein

The primary protein source in Wild Earth vegan dog food is a proprietary fermented yeast protein, which offers a complete amino acid profile comparable to animal proteins. This protein is highly digestible and supports muscle maintenance, immune function, and overall vitality.

Essential Vitamins and Minerals

To ensure nutritional completeness, Wild Earth includes a blend of vitamins and minerals such as vitamin B12, taurine, L-carnitine, calcium, and phosphorus. These nutrients are critical for cardiovascular health, bone strength, and neurological function, especially since some are traditionally associated with animal products.

Fatty Acids and Fiber

The dog food includes sources of omega-3 and omega-6 fatty acids derived from flaxseed and algae, promoting healthy skin and coat. Additionally, dietary fiber from various plant fibers supports digestive health and regular bowel movements.

Ingredients and Formulation

The ingredient composition of Wild Earth vegan dog food reflects a thoughtful balance of nutrition and palatability. The product avoids common allergens such as soy, corn, and wheat, reducing the risk of allergic reactions in sensitive dogs. The formulation emphasizes natural and sustainable ingredients that contribute to both health and environmental goals.

Key Ingredients

- Fermented yeast protein – main protein source
- Oats and chickpeas – provide carbohydrates and fiber
- Flaxseed – source of omega-3 fatty acids
- Algae oil – enhances fatty acid profile
- Pea protein – additional plant-based protein
- Natural vitamins and minerals – ensure complete nutrition

Formulation Process

Wild Earth utilizes cutting-edge fermentation technology to produce its yeast protein, which is sustainable and resource-efficient. The dry kibble is crafted to maintain nutrient integrity and palatability, with regular quality testing to meet AAFCO (Association of American Feed Control Officials) standards for complete and balanced nutrition.

Health Impacts on Dogs

Studies and anecdotal evidence suggest that dogs can thrive on a well-formulated vegan diet such as Wild Earth vegan dog food. Properly balanced plant-based diets can support normal growth, energy levels, and overall health. However, monitoring by veterinarians is recommended to ensure individual nutritional needs are met.

Digestive Health

The high fiber content and absence of animal fats can improve digestive regularity and reduce the incidence of gastrointestinal issues. Many dogs experience easier digestion and less stool odor when fed vegan diets.

Allergy and Sensitivity Management

Since Wild Earth vegan dog food excludes common animal proteins and allergens, it can be beneficial for dogs with food sensitivities or allergies. This diet may reduce skin irritation, itching, and other allergy-related symptoms.

Considerations and Monitoring

While many dogs do well on vegan diets, some may require supplementation or adjustments based on specific health conditions. Regular veterinary check-ups and blood work are advisable to ensure optimal health and nutrient absorption.

Environmental and Ethical Advantages

One of the primary motivations for choosing wild earth vegan dog food is its positive environmental impact. Animal agriculture is a significant contributor to greenhouse gas emissions, land use, and water consumption. By selecting plant-based dog food, pet owners contribute to reducing these environmental burdens.

Sustainability Benefits

Wild Earth's production process uses fewer natural resources, reduces carbon emissions, and minimizes waste compared to traditional meat-based pet foods. This approach aligns with global sustainability goals and promotes responsible pet ownership.

Animal Welfare Considerations

By avoiding animal-derived ingredients, Wild Earth vegan dog food eliminates the ethical concerns related to animal farming and slaughter. This appeals to pet owners who prioritize compassion and humane treatment of animals in all aspects of their lives.

wild earth vegan dog food: The Plant-Powered Dog Diana Laverdure-Dunetz, 2023-01-24 A vegan diet for dogs?! But aren't dogs carnivores? Can dogs really get all the nutrients they need, even protein, without eating meat? Would switching my dog to a plant-based diet be too expensive to sustain? In her newest book, The Plant-Powered Dog, Canine Nutritionist Diana Laverdure-Dunetz, MS, along with W. Jean Dodds, DVM reference the most up-to-date scientific research to explain the detailed nutritional needs of our canine companions and explore the many benefits of switching to a plant-based diet, including increasing longevity and preventing chronic disease. It's no coincidence that staggering numbers of modern companion dogs suffer from one or more chronic inflammatory diseases. Our canine companions have fallen victim to the same lifestyle-related conditions that are skyrocketing among people living in developed societies. As a culture, we and our companion animals are overfed and undernourished, and we are all traveling down the same dangerous inflammatory path. Fortunately, we have control over dietary choices that affect health! The more research that is done in the field of epigenetics, the more we learn that a plant-based diet is superior for promoting optimum gene expression, disease prevention and longevity. The best part is that you don't have to choose between your dog's health and compassion for all animals and our planet. This book will give you a solid foundation for understanding how epigenetic factors such as the foods you

put in your dog's bowl (and on your own plate) regulate gene expression to help promote either optimum health or chronic disease. The Plant-Powered Dog is in-depth guide that provides: • Action Steps to Ensure Success • Individual Chapters Offering Plant-Based Solutions for Chronic Diseases (including Cancer and Diabetes) • Nutrient Comparison Charts • Blank Recipe Creation Charts • Sample Recipes (with photos) • Extensive Resources and Cited Works There is just no denying it: Plant-based nutrition is not a fad, for ourselves or our canine companions. It is the healthy, sustainable diet of the future.

wild earth vegan dog food: Pet Nation Mark Cushing, 2021-09-21 Now in paperback and with an update about pets during COVID. In the last 20 years pets have gone from the backyard to sleeping on our beds, then showing up in every corner of America. Pet Nation tells the story of this seismic shift and the economic, media, legal, political, and social dramas springing from this cultural transformation. Since 1998 the pet population in the U.S. has almost doubled -- about two-thirds of the country now owns a pet. No longer left to wander the neighborhood, dogs and cats eat special food, get individualized medical attention, and even fly in the cabin. As founder of the Animal Policy Group, Mark Cushing provides an inside look at the rise of Pet Nation, tracking the myriad ways pets are acquired (a Canine Freedom Train runs south to north), reporting on pet rights legislation (and the unseen problems that come with elevating their status), pet healthcare (revealing the truth and myths about large scale breeders), and discovering that despite what many organizations would have us believe, there is a shortage of dogs. Insightful, surprising, and full of great stories, Pet Nation opens our eyes to the big changes happening in front of us right now. It shows us not only what our love of animals says about pets, it shows us what it says about ourselves.

wild earth vegan dog food: The Clean Pet Food Revolution Ernie Ward, Alice Oven, 2019-12-09 Did you know that a quarter of all the meat consumed in the United States is eaten by our pets? That's the equivalent to the amount devoured by 26 million Americans, and it makes U.S. cats and dogs equal to the fifth largest country in terms of animal protein consumption. Yet the impact pet food has on the environment and climate change, how healthy or necessary it is for our animal companions, or how it impacts the welfare of the farmed animals who become that food are barely known or ignored--even by animal lovers! The Clean Pet Food Revolution lifts the lid on the current pet food industry: its claims of what constitutes a natural diet for pets, its shocking record on animal welfare, and its devastating effect on the environment and climate change. The book explodes myths about grain-free diets, protein intake, and what our pets want. Finally, it details the many exciting scientific developments in alternative proteins--whether from plants, fungi, insects, or cell-based meat products--that promise not only to completely change what we feed our cats and dogs but to reduce greenhouse gas emissions, end farmed-animal slaughter, and make our pets healthier. Written by specialists in veterinary science, biotech, and animal welfare, The Clean Pet Food Revolution is a thoroughly researched and compellingly written excoriation of an unsustainable present and a fascinating glimpse of future possibilities.

wild earth vegan dog food: The Plant-based and Vegan Handbook Yanoula Athanassakis, Renan Larue, William O'Donohue, 2024-09-17 The Plant-based and Vegan Handbook is the first of its kind to bring together interlocking - and sometimes conflicting - perspectives focused on veganism and plant-based living. As an interdisciplinary volume the noted contributors are from the fields of medicine, psychiatry, environmental studies, sociology, marine ecology, philosophy, agriculture, psychology, animal studies, religion, economics, literature, business, and law. Despite a range of individual preferences, these authors advance a scientific argument for a societal move away from the current model of human and nonhuman animal relationships. In our Anthropocene era experts not only debate about how human beings will , survive on Earth, but more particularly are more concerned with how they will thrive. As evidenced by the authors in this collection, it will involve a reconsideration of the way our species relates to the planet and to other species. This volume can serve as a critical reference work, especially for students and scholars working in both emerging and established fields such as psychology, medicine, animal studies, food studies, environmental studies, philosophy, animal ethics, and marine ecology.

wild earth vegan dog food: VOICES OF KINDNESS AND COMPASSION John Vallimarescu, 2025-01-22 (1/22/2025) John Vallimarescu writes: 100% of the revenues from this eBook are earmarked for Sunset Farms Sanctuary in Cove, Arkansas! I began collecting these 38 written interviews (See Table of Contents) with vegans of all professions and all ages from Australia, England, France, Germany, Italy, Scotland, Slovenia, Sweden, Tanzania, and the United States on a public @interviewswithvegans TikTok channel as a fundraising vehicle for Sunset Farms Sanctuary (sunsetfarmssanctuary.org) in Cove, Arkansas, on whose Board of Directors I serve. A forever home for 129 animals (73 ruminants: 36 sheep, 9 cows, 28 goats), pigs, 2 emus, an alpaca, dogs, cats, turkeys, hens, roosters, and geese rescued from abuse, neglect, abandonment, and often tragically shortened life spans, Sunset Farms Sanctuary was originally located in Oregon and relocated to Arkansas subsequent to the life-threatening stresses of coping with frequent wildfires. Learning that the moving company that sanctuary co-owners Brian Reeds and Helen Demes hired to move all their personal belongings and expensive farm equipment from Oregon to Arkansas had absconded with all the moving truck's cargo, resulting in a \$240,000 financial loss with an insurance reimbursement of only \$42,000, I was moved to continue helping the sanctuary regain a solid financial footing by publishing this eBook with the 38 interviews originally appearing on @interviewswithvegans on TikTok. Donations to the sanctuary have not recovered from their steep decline during the pandemic. Honestly, purchasing this eBook will be a good deed! And it will be rewarded by compelling and thought-provoking content: VOICES OF KINDNESS AND COMPASSION Interviews With Vegans offers compassionate and inspirational testimonies by individuals pursuing a vegan philosophy and a plant-based diet, compelling stories and photographs of sanctuary life at Sunset Farms Sanctuary, a personal story of my veganism journey and philosophy introduced by Lulu the Savior Pig and Aurora the Very Aware Cat, some original artwork, and photographs of painted rocks

placed by vegan activist, artist, and photographer Rafal Mysakowski atop the Scottish highlands. That said, given its many color photographs and color artwork, this eBook is best viewed on a device with color capability. However, the 38 interviews and all the text lose none of its impact on a device that does not support color. Thank you in advance for your purchase of this eBook! Whether you are an animal lover, animal activist or advocate, a vegan, vegan curious, or vegan skeptical, there is much compassionate, well-reasoned, informative, and inspirational food for thought presented in VOICES OF KINDNESS AND COMPASSION Interviews With Vegans!

wild earth vegan dog food: *Do Childfree People Have Better Sex?* Verena Brunschweiler, 2022-03-01 Verena Brunschweiler is no stranger to controversy. In her latest book, *Do Childfree People Have Better Sex?*, our provocateur tackles this increasingly popular topic and its many ramifications, head-on. After conveying her own personal story, Brunschweiler expounds with data in hand on the implications of having children: the ecological and environmental consequences, feminism, politics, and philosophical disputation. She explores current issues including over-population and the environment, animal welfare, abortion and reproductive rights, politics, and anti-natalism. Brunschweiler posits women have the right to be happy and, if they choose to, feel comfortable rejecting the societal conventional pressure of having children. Our author suggests that women and their partners will have more freedom and enjoyment if they are childfree. Brunschweiler doesn't want humanity to go extinct as some may suggest; rather, she wants the earth and its inhabitants to have an enjoyable and sustainable future.

wild earth vegan dog food: *Dead Meat* Elisabeth Abergel, 2024-12-05 As we confront the environmental challenges of the Anthropocene, cellular agriculture has emerged as a revolutionary technology promising to reshape global food systems. *Dead Meat* offers a critical examination of this biotechnological shift, exploring how cultivated meat production reconfigures the relationship between life, death, and food in the context of competing ecological, social, and ethical imperatives. Elisabeth Abergel provides a compelling analysis of cultivated meat through the lens of "competing vitalities", questioning how these new forms of food production are narrated and imagined in the Anthropocene. She delves into the sociotechnical imaginaries that promise sustainability, animal welfare, and climate resilience, while probing the tensions between these narratives and the political economy of industrial food production. Drawing on interdisciplinary perspectives from the

environmental humanities, science and technology studies, political economy, and political ecology, Abergel critiques the idea that cultivated meat is a simple technological fix to the climate crisis. Instead, she exposes how these innovations both challenge and reinforce capitalist logics that dominate agricultural systems. *Dead Meat* is essential reading for scholars and students in environmental sociology, food politics, science and technology studies, environmental humanities, and political economy, as well as for activists and policymakers interested in sustainable food futures and planetary health.

wild earth vegan dog food: *Holy Vegan Earth* God Creator of Universes, 2018-08-20 Soon The Judgment Day of the Creator will happen. Billions of corpse-eaters, evil spirits from hell who have possessed human bodies and they are killing animals and eating corpse of animals will be executed and sent back home, to Hell for punishment and education. This is an extremely painful education. Be Warned. This Judgment Day of the Creator was mentioned by me, Moses 3300 years ago and by Jesus 2000 years ago and by Mohammad 1400 years ago. Holy Vegan Earth, the last book of the Creator that updates all previous books, Quran, Bible and Torah was revealed to me, Moses and I wrote it from 2012 to 2018. Book contains guidelines. It contains Theological, Philosophical and Scientific content related to the subjects of some educational stories. It contains a long story that started in 7000 BC and continued to my next appearance on the Earth as Moses in 1300 BC and now, again as Moses to warn people about the soon happening Judgment Day. Book contains a True Story. Fiction, it is not. Two conditions should apply then you will survive. (1) Belief in the Creator (2) Be a Vegan, that means you learned a simple lesson from Eleven Commandments that I brought for you from the Creator. Yes. 11 Commandments, not 10. The 11th Commandment is You must be Vegan. You should not kill any innocent human animal or other animals. Those who violate the law will be executed humiliatingly and burned in hell for eternity. Book contains many paintings that I created to accompany the Theological content to make it easier to digest and many Plans for Vegan Activists. We establish the Vegan Earth by Genocide. This is my wish. When the Creator will do it is out of my jurisdiction. However, you have no excuse any more. You are warned clearly. You like it or not, do not matter. This is plan of the Creator typed by Moses Messenger of the Creator in 2012-2018 from direct communication with the Creator, the Unified Field, the Unity, Creator of Universes. If you are atheist, I have included seven proofs of the existence of the Creator in this book. Some are complex Mathematical proofs and some are simple. Depends on level of your intelligence you can find a proof that you can understand. Read, learn, understand and surrender to words of the Creator and Prophet of the Creator, Moses. Go Vegan, you will live. Stay corpse-eater, you will be eradicated like bacteria and will be burned in hell. Use your brain. You will find logic and reasoning in this book. Convert to Vegan. Convert to a believer in the Creator. If you do not use your brain, in hell you will learn by pain. Evidence and Proof is the only important matter. The Unified

Field is God. The Unified Field is the Creator of Universe. In this book of God, the Sixth Book of Moses, I included the evidence and proof that I am communicating with the Unified Field. It is a two-direction communication. I proved I am Moses. Belief without reasoning and proof worth zero. Vegans who are believers in the Creator will inherit the Earth. Rest of humans will be wood for fire of hell. 01 - 110 - Ve start with 110. There is hope. 02 - 112 - Only if the 112, God helps. And He promised to do so. 03 - 097 - Revelations in uncountable nights of determination. 04 - 094 - I am here, again, Moses has one command, Go Vegan or go to Hell. 05 - 106 - Be afraid of one who is friend of the Creator of Universes. Love for Animals. Death to Corpse-Eaters. 06 - 108 - I am grateful. Ve use Your resources only for Justice for Animals. 07 - 113 - Ve count on You. 08 - 114 - Ve are aware and do the best that can be done. 09 - 109 - Kill them all. 10 - 111 - Hell for them is Justice. 11 - 110 - Ve Own the Earth. Animal Rights, Vegan, Ve inherit the Earth. Ve count on Your Power. Second column are representative of numbers described in the book. The last seal arrived in a 97 and ended in 110. Wait for the Judgment day. Soon. I am waiting.
